NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Paradigm Management Team, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Paradigm Management Team, LLC (the "Company") who have three months of service. The original Plan and related trust were effective May 1, 1996 and restated August 17, 2010. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 60% of pre-tax annual compensation, as defined in the Plan. Under the tax law, the total elective deferral is subject to a maximum statutory limit. Individuals over age 50 by the end of the year may make a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a discretionary matching contribution to participant accounts. For 2016, the Company matched 100% of the first 10% of employees' salary deferrals.

Participant Accounts

Each participant's account is credited with participant contributions, Company contributions, and allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Forfeitures may be applied to reduce the employer's contribution or administrative fees for such plan year. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested deferral account balance, whichever is less. The loans are secured by the balance in the participant's deferral account and bear interest at a fixed rate, as determined by the Plan Administrator, based on prevailing interest rates. At December 31, 2016, outstanding loans had an interest rate between 4.25% and 7%.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Upon retirement, disability, death or termination, a participant is entitled to 100% of his/her vested account balance, reduced by any participant loan outstanding. Participant accounts with balances up to $1,000 are settled with lump-sum distributions. Participants with a balance greater than $1,000 may elect a distribution, rollover, or leave their balances in the Plan.

Participants also have an option to take non-hardship withdrawals, subject to Plan provisions.

Forfeitures

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $44,432 and $67,216. These accounts will be used to reduce future administrative expenses and future employer contributions. In 2016, administrative expenses and employer contributions were reduced by $10,410 and $48,221 respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan uses the accrual method of accounting. Under this method of accounting, contributions to the Plan are recognized when due from the employer. Revenues are recognized when earned and expenses when incurred. Benefits are recorded when paid.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

NOTE 3 – INVESTMENTS (UNAUDITED)

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and disclosure under ERISA, Fidelity Management Trust Company, the Plan's trustee, has certified the following information, which has not been subject to audit by independent accountants, to be accurate and complete.

	2016	2015
Investments at fair value	**$ 5,544,800**	$ 4,427,506
Notes receivable from participants	**231,592**	168,735
Total	**$ 5,776,392**	$ 4,596,241

Net appreciation in fair value	**$ 174,552**
Interest and dividend income	**$ 182,898**
Interest on notes receivable from participants	**$ 8,731**

NOTE 4 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the quoted market prices of the shares held by the plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Assets at Fair Value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual Funds:	$ 5,544,800	$ -	$ -	$ 5,544,800

Assets at Fair Value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual Funds:	$ 4,427,506	$ -	$ -	$ 4,427,506

NOTE 5 – PLAN TERMINATION

The Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that Fidelity Management Trust Company's Volume Submitter Profit Sharing Plan with CODA under which the Plan operates is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 – RELATED-PARTY TRANSACTIONS

The Plan invests in shares of mutual funds managed by Fidelity Investments, LLC, an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company acts as trustee for the Plan's assets. Transactions in these investments qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

The Plan sponsor has not entered into the Voluntary Fiduciary Correction Program, which includes the Plan sponsor calculating any lost earnings to the participants due to these late remittances. The computed lost earnings have not been calculated at this time. The Plan sponsor has not begun the process of remitting the lost earnings for the year to the participants' investment accounts.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Paradigm Management Team, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Paradigm Management Team, LLC (the "Company") who have three months of service. The original Plan and related trust were effective May 1, 1996 and restated August 17, 2010. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 60% of pre-tax annual compensation, as defined in the Plan. Under the tax law, the total elective deferral is subject to a maximum statutory limit. Individuals over age 50 by the end of the year may make a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a discretionary matching contribution to participant accounts. For 2016, the Company matched 100% of the first 10% of employees' salary deferrals.

Participant Accounts

Each participant's account is credited with participant contributions, Company contributions, and allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Forfeitures may be applied to reduce the employer's contribution or administrative fees for such plan year. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested deferral account balance, whichever is less. The loans are secured by the balance in the participant's deferral account and bear interest at a fixed rate, as determined by the Plan Administrator, based on prevailing interest rates. At December 31, 2016, outstanding loans had an interest rate between 4.25% and 7%.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Upon retirement, disability, death or termination, a participant is entitled to 100% of his/her vested account balance, reduced by any participant loan outstanding. Participant accounts with balances up to $1,000 are settled with lump-sum distributions. Participants with a balance greater than $1,000 may elect a distribution, rollover, or leave their balances in the Plan.

Participants also have an option to take non-hardship withdrawals, subject to Plan provisions.

Forfeitures

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $44,432 and $67,216. These accounts will be used to reduce future administrative expenses and future employer contributions. In 2016, administrative expenses and employer contributions were reduced by $10,410 and $48,221 respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan uses the accrual method of accounting. Under this method of accounting, contributions to the Plan are recognized when due from the employer. Revenues are recognized when earned and expenses when incurred. Benefits are recorded when paid.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

NOTE 3 – INVESTMENTS (UNAUDITED)

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and disclosure under ERISA, Fidelity Management Trust Company, the Plan's trustee, has certified the following information, which has not been subject to audit by independent accountants, to be accurate and complete.

	2016	2015
Investments at fair value	**$ 5,544,800**	$ 4,427,506
Notes receivable from participants	**231,592**	168,735
Total	**$ 5,776,392**	$ 4,596,241

Net appreciation in fair value	**$ 174,552**
Interest and dividend income	**$ 182,898**
Interest on notes receivable from participants	**$ 8,731**

NOTE 4 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the quoted market prices of the shares held by the plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

Assets at Fair Value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual Funds:	$ 5,544,800	$ -	$ -	$ 5,544,800

Assets at Fair Value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual Funds:	$ 4,427,506	$ -	$ -	$ 4,427,506

NOTE 5 – PLAN TERMINATION

The Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that Fidelity Management Trust Company's Volume Submitter Profit Sharing Plan with CODA under which the Plan operates is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 – RELATED-PARTY TRANSACTIONS

The Plan invests in shares of mutual funds managed by Fidelity Investments, LLC, an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company acts as trustee for the Plan's assets. Transactions in these investments qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

The Plan sponsor absorbs certain administrative costs of operating the Plan.

During 2016, the Plan sponsor failed to remit $24,260 of participant contributions to the Plan timely enough to be in accordance with 29 CFR 2510.3-102. Although all 2016 participant contributions were remitted to the Plan in 2016, each non-timely payment is considered a prohibited transaction. The Plan sponsor has not entered into the Voluntary Fiduciary Correction Program, which includes the Plan sponsor calculating any lost earnings to the participants due to these late remittances. The computed lost earnings have not been calculated at this time. The Plan sponsor has not begun the process of remitting the lost earnings for the year to the participants' investment accounts.
