Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Board of Trustees
Plumbers Local Union No. 55 Pension Plan and Trust

Report on the Financial Statements

We have audited the accompanying financial statements of Plumbers Local Union No. 55 Pension Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of April 30, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of April 30, 2016, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Trustees
Plumbers Local Union No. 55 Pension Plan and Trust

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of April 30, 2017 and changes therein for the year then ended, and its financial status as of April 30, 2016 and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 9, it was discovered that certain participant's monthly pension benefit amounts were improperly calculated and being paid to participants. The miscalculations identified include both overpayments and underpayments. Management has employed a third-party administrator to perform recalculations of benefit payments of its retirees currently receiving benefits. The effects on the financial statements and supplemental schedules of not properly calculating the pension benefit payments have not been determined. Our opinion is not modified with respect to that matter.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of April 30, 2017 and Schedule H, Line 4j – Schedule of Reportable Transactions, for the year ended April 30, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

April 30, 2017 and 2016

Note 1: Description of Plan

The following description of Plumbers Local Union No. 55 Pension Plan and Trust (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a multi-employer collectively bargained defined benefit pension plan covering individuals represented by Journeymen Plumbers Union Local No. 55 (the “Union”) or those working within its Northeastern Ohio jurisdiction. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Board of Trustees. The Board of Trustees has overall responsibility for the operation and administration of the Plan. The Board of Trustees determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Funding Policy

Contributions are made by employers under provisions of a collective bargaining agreement and participation agreements. These contributions have been determined on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to its participants. The contributions are designed to fund the Plan’s current service cost on a current basis and to fund the past service liabilities arising from qualifying service. The funding is dependent in part upon the level of employment in the plumbing industry. The Board of Trustees of the Plan elected funding relief under the Pension Relief Act of 2010, which extends the amortization period for investment losses incurred during the Plan’s fiscal year ended April 30, 2009 from 15 years to 29 years. The contributions for fiscal 2016 exceeded the minimum funding requirements of ERISA. Although it has not expressed an intention to do so, the Board of Trustees has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

There are three types of retirement options provided by the Plan as follows:

Normal retirement – Participants are eligible to receive a monthly benefit upon attaining age 62. Single participants receive a guaranteed life annuity payable monthly. Married participants may elect to receive a life annuity or optional joint survivor (50%, 75%, or 100%).

Early retirement – Participants are eligible for an unreduced early retirement benefit after attaining age 55 with 30 years of service. Participants attaining age 55 with a shorter number of service years are eligible for a reduced early retirement benefit. The amount of the reduced early retirement benefit is equal to the participant’s normal retirement benefit reduced by one-half of 1% for each month the participant was younger than age 62 on the commencement date of the participant’s early retirement benefit.

Note 1: Description of Plan (continued)

Pension Benefits (continued)

Late retirement – Participants who remain in active service after their normal retirement date may retire on the first day of any month which follows their normal retirement date. The monthly benefit is equal to the accrued benefit earned at the normal retirement age actuarially adjusted to the benefit commencement date.

Death and Disability Benefits

Death and disability benefits are provided by the Plan as follows:

Death – The spouse of a deceased participant will receive a survivorship benefit based upon the form of retirement benefit the participant was receiving prior to their death. If a participant dies prior to the commencement of their benefits, the surviving spouse will receive a monthly benefit equal to the joint and 100% survivor monthly retirement benefit which the participant would have been eligible to receive upon normal retirement, adjusted for the actuarial cost of the spousal benefit. If the participant dies and is not survived by an eligible spouse, the participant's beneficiary will receive a cash distribution of the aggregate contributions made to the Plan on behalf of the participant less the amount of any retirement benefits actually paid to the participant prior to the date of death.

Disability – Participants who become totally and permanently disabled after attaining age 40 or completing 15 years of credited service are eligible to receive disability retirement benefits. The monthly benefit is equal to the monthly accrued benefit at the time of disability and will begin on the first day of the month following the month in which the participant files an application for disability benefits with the Plan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Note 2: Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment adviser and custodians. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Employers' Contributions Receivable

Employers' contributions receivable represent amounts due from employers that were received subsequent to year-end. Therefore, the carrying amount of these receivables is not reduced by an allowance for amounts that will not be collected. In addition, it is impractical to estimate recognition of revenue amounts due but erroneously unreported by employers.

Equipment and Improvements

Equipment and improvements are recorded at cost and are depreciated on a straight-line basis over the estimated useful lives of the assets. Useful lives are estimated to range from five to eight years. Total cost at April 30, 2017 and 2016 was \$106,737. Total accumulated depreciation at April 30, 2017 and 2016 was \$63,007 and \$49,198, respectively.

Cash

The Plan maintains its cash account at a national financial institution. The balance, at times, may exceed federally insured limits.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded upon distribution.

Note 2: Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated subsequent events through November 8, 2017, the date the financial statements were available to be issued.

Note 3: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are based on participants' credited service. The accumulated plan benefits for active participants are based on their credited service as of the date on which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of April 30, 2016 were as follows:

- Net investment return: 7.5%
- Mortality rates:
 - Healthy participants: RP-2014 Blue Collar Mortality Table with rates increased by 25%, projected generationally with the MP-2016 scale
 - Disabled participants: RP-2014 Disabled Retiree Table with rates increased by 25%, projected generationally with the MP-2016 scale
- Retirement age: 61 for active and 62 for inactive vested participants
- Administrative expense: \$395,000 per year

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of as of May 1, 2016. Had the valuation been performed as of April 30, 2016 there would be no material difference.

Notes to Financial Statements

Note 4: Plan Termination

In the event the Plan terminates, the net assets available for benefits of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Monthly benefits that participants or their beneficiaries have been receiving for at least three years or that participants eligible to retire for that three-year period would have been receiving if they had retired with normal monthly benefits under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect any time during the five years preceding plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets available for benefits to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

Note 5: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Plumbers Local Union No. 55 Pension Plan and Trust

Notes to Financial Statements

April 30, 2017 and 2016

Note 5: Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2017 and 2016.

Money market funds: Valued at cost plus accrued interest, which approximates fair value.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 30, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

- (a) Aetos Capital Distressed Investment Strategies Fund, LLC. The fund seeks to produce an attractive absolute return on invested capital, largely independent of the various benchmarks associated with traditional asset classes, by allocating its assets among a select group of portfolio managers across a variety of distressed investment strategies.
- (b) Aetos Capital Long/Short Strategies Fund, LLC. The fund seeks to produce an attractive absolute return on invested capital, largely independent of the various benchmarks associated with traditional asset classes, by allocating its assets among a select group of portfolio managers across a variety of long/short strategies.
- (c) Aetos Capital Multi-Strategy Arbitrage Fund, LLC. The fund seeks to produce an attractive absolute return on invested capital, largely independent of the various benchmarks associated with traditional asset classes, by allocating its assets among a select group of portfolio managers that utilize a variety of arbitrage strategies.
- (d) American Realty Advisors American Core Realty Fund. The fund has been organized to allow Taft-Hartley pension funds, governmental retirement plans, corporate plans and qualified trusts forming part of a pension or profit-sharing plan, endowments, charitable foundations and other taxable and tax-exempt organizations to pool their assets to make investments primarily in core stable institutional quality office, retail, industrial and multi-family residential properties that are substantially leased and have minimal deferred maintenance or functional obsolescence.
- (e) PENN Core High Yield Bond Fund. The fund's investment strategy is to invest primarily in BB and B rated high-yield bonds, consisting of cash-paying, publicly-traded corporate bonds, with a preference for senior debt in a corporation's capital structure, convertible preferred and preferred and convertible debt. The fund will also seek undervalued high-yield bonds for potential gains based on capital appreciation. The fund is expected to maintain a dollar-weighted average maturity of between five and seven years.
- (f) The Weatherlow Offshore Fund II. The fund's investment strategy is to invest in a Delaware limited liability partnership that invests predominantly in limited partnerships and similar pooled investment vehicles.
- (g) Wellington International Research Equity Fund. The fund's investment objective is to provide long-term total return in excess of the MSCI EAFE Index.
- (h) Wellington Diversified Inflation Hedges Fund. The fund's investment objective is to provide strong relative performance versus broad equity and fixed income markets during rising inflation environments.

Note 7: Related-Party and Party-in-Interest Transactions

The Plan shares certain office operations with Plumbers Union Local No. 55 Health & Welfare Plan (the "Health and Welfare Plan") and Plumbers Local Union 55 Defined Contribution Retirement Plan. For the years ended April 30, 2017 and 2016, the Plan was charged \$121,131 and \$175,822, respectively, by the Health and Welfare Plan. Included in these amounts are pass-through expenses charged by the Union of \$19,594 and \$17,577 for contract administration and \$16,973 and \$13,813 for office rent for the years ended April 30, 2017 and 2016, respectively.

The Plan's employer contributions are processed and collected by the Health and Welfare Plan. At April 30, 2017, due from related plans, net of amounts due to related plans is \$40,235. At April 30, 2016, due to related plans, net of amounts due from related plans is \$42,585.

Note 7: Related-Party and Party-in-Interest Transactions (continued)

Subsequent to year end, the administration of the Plan was outsourced to a third-party administrator. The third-party administrator will charge the Plan directly for the services provided. Upon the effective date of the transition to the third-party administrator, the sharing of certain office expenses will discontinue and the Plan's equipment and improvements will no longer be in service.

Certain plan assets were invested in money market funds, common collective trusts, limited liability companies, and limited partnerships managed by custodians of the Plan. The Plan has several arrangements with service providers. These transactions are party-in-interest transactions under ERISA.

Note 8: Plan Amendments

Effective January 1, 2017, the Plan was amended to reduce the benefit accrual rates earned by active participants by 10%. Effective January 1, 2018, the Plan was amended to freeze future benefit accruals earned by active participants on a permanent basis. The accompanying statement of accumulated plan benefits as of April 30, 2016 does not reflect these amendments. Management estimates that these amendments do not decrease the Plan's actuarial present value of accumulated plan benefits as of April 30, 2016, as they only affect future benefit accruals.

Note 9: Risks, Uncertainties, and Contingencies

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

It was discovered that certain participant's monthly pension benefit amounts were improperly calculated and being paid to participants. The miscalculations identified include both overpayments and underpayments. Management has employed the third-party administrator described in Note 7 to perform recalculations of benefit payments of its retirees currently receiving benefits. Incorrectly calculated pensions will be corrected to the proper amount, underpayments will be paid to affected participants, and overpayments will be pursued for collection from affected participants to the extent allowed by law. An estimate of the net overpayment or underpayment of pension benefits cannot be determined by management until the third-party administrator performs the recalculations of the pension benefits.

Note 10: Tax Status

The Plan obtained its latest determination letter on September 18, 2015, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11: Status of the Plan

On July 29, 2013, the Plan was certified by its actuary as “endangered” as defined by the Pension Protection Act of 2006 (PPA) for the plan year beginning May 1, 2013. The PPA requires the Board of Trustees of a multi-employer pension plan that has been certified by the Plan’s actuary as being in endangered status to develop a funding improvement plan (“FIP”). A FIP must prescribe actions, including recommended actions to be taken by the bargaining parties that are expected to enable the Plan to meet stated financial benchmarks by the end of the funding improvement period, based on reasonably anticipated experiences and on reasonable actuarial assumptions.

In April 2016, the FIP was amended to increase the contribution rate from \$9.15 per hour to \$10.45 per hour effective May 1, 2016 and reduce the benefit accrual by 10% for benefit accruals earned after December 31, 2016.

On July 28, 2017, the Plan was certified by its actuary as “endangered” as defined by the PPA for the plan year beginning May 1, 2017. As of May 1, 2017, the actuary certified that the Plan is making the scheduled progress in meeting the requirements of its FIP.

EXHIBIT 8 - STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS
(SCHEDULE MB, LINE 6)

Mortality Rates

Healthy Non-Pensioner: RP-2014 Blue Collar Employee Mortality Tables (sex distinct) with rates increased by 25%, projected generationally with the MP-2016 scale

Healthy Pensioner: RP-2014 Blue Collar Healthy Annuitant Mortality Tables (sex distinct) with rates increased by 25%, projected generationally with the MP-2016 scale

Disabled: RP-2014 Disabled Retiree Table with rates increased by 25%, projected generationally with the MP-2016 scale

The underlying tables with the generational projection to the ages of participants as of the measurement date reasonably reflect the mortality experience of the Plan as of the measurement date.

These mortality tables were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

The mortality rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of deaths by age and the projected number based on the prior year's assumption over the most recent five years.

Termination Rates

Age	Rate (%)			
	Mortality ¹		Disability ²	Withdrawal ³
	Male	Female		
20	0.06	0.02	0.12	5.44
25	0.08	0.02	0.17	5.29
30	0.07	0.03	0.22	5.07
35	0.09	0.04	0.29	4.70
40	0.10	0.06	0.44	3.50
45	0.15	0.09	0.72	1.77
50	0.26	0.15	1.21	0.40
55	0.44	0.23	2.02	0.00

¹ Mortality rates shown for current year

² Disability rates do not apply at or beyond unreduced retirement age.

³ Withdrawal rates do not apply at or beyond early retirement age

The termination rates and disability rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of terminations and disability retirements by age and the projected number based on the prior year's assumption over the most recent five years.

Retirement Rates

Age	Annual Retirement Rates
55 – 60*	20%
61*	60%
62	50%
63	33%
64	15%
65	100%

** if eligible for service pension*

The retirement rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior year's assumption over the most recent five years.

Description of Weighted Average Retirement Age

Age 61, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the May 1, 2016 actuarial valuation.

Retirement Ages for Inactive Vested Participants

62, or 55 if eligible for service pension

The retirement ages for inactive vested participants were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior year's assumption over the most recent five years.

Future Benefit Accruals

1,500 hours per year per active participant included in the valuation

The future benefit accruals were based on historical and current demographic data, adjusted to reflect advice from the Trustees, estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual benefit accruals over the most recent five years.

Unknown Data for Participants

Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Definition of Active Participants

Participants who worked at least 180 hours during the year and also had at least one year of credited service by the end of the year, excluding those who retired prior to the valuation date

Exclusion of Inactive Vested Participants	Liabilities for inactive participants over age 70 excluded from the valuation. The exclusion of liabilities for inactive vested participants over age 70 was based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, the ages of new retirees from inactive vested status were reviewed
Percent Married	85%
Age and Sex of Spouse	Spouses are assumed to be 4 years younger than male participants and 4 years older than female participants. If not specified, spouses are assumed to be the opposite sex of the participant.
Benefit Election	Married participants are assumed to elect the Joint and 50% Survivor Annuity form of payment and non-married participants are assumed to elect the Single Life Annuity. 50% of all participants are assumed to elect to receive their accrued benefit as of May 1, 1996 in a lump sum. The assumed benefit elections were based on historical and current demographic data, adjusted to reflect the plan design and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual option election patterns over the most recent five years. • <i>Interest</i>: 6.00% • <i>Mortality</i>: Mortality prescribed by the IRS for computing lump sums beginning in 2016
Lump Sum Assumptions	
Net Investment Return	7.50% The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.
Annual Administrative Expenses	\$395,000 for the year beginning May 1, 2016 (equivalent to \$379,908 payable at the beginning of the year) The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.
Actuarial Value of Assets	The actuarial value of assets is equal to the market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on the market value, and is recognized, 20% per year, over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.
Actuarial Cost Method	Unit Credit Actuarial Cost Method. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis.
Benefits Valued	Unless otherwise indicated, includes all benefits summarized in <i>Exhibit 9</i> .
Current Liability Assumptions	<i>Interest</i>: 3.22%, within the permissible range prescribed under IRC Section 431(c)(6)(E) <i>Mortality</i>: Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants

Estimated Rate of Investment Return	<i>On actuarial value of assets (Schedule MB, line 6g): 2.6%, for the Plan Year ending April 30, 2016</i> <i>On current (market) value of assets (Schedule MB, line 6h): -2.7%, for the Plan Year ending April 30, 2016</i>
FSA Contribution Timing (Schedule MB, line 3a)	Unless otherwise noted, contributions are paid periodically throughout the year pursuant to collective bargaining agreements. The interest credited in the FSA is therefore assumed to be equivalent to a November 1 contribution date.

EXHIBIT 5 - SCHEDULE OF PROJECTION OF EXPECTED BENEFIT PAYMENTS

(SCHEDULE MB, LINE 8b(1))

Plan Year	Expected Annual Benefit Payments ¹
2016	\$8,594,178

2023	9,460,112
2024	9,624,530
2025	9,751,809

¹ Assuming as of the valuation date:

- no additional accruals,
- experience is in line with valuation assumptions, and
- no new entrants are covered by the plan.

EXHIBIT 9 - SUMMARY OF PLAN PROVISIONS (SCHEDULE MB, LINE 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year	May 1 through April 30
Pension Credit Year	May 1 through April 30
Plan Status	Ongoing plan
Normal Pension	• <i>Age Requirement:</i> 62 • <i>Service Requirement:</i> None • <i>Amount:</i> – Benefit accrued as of May 1, 2002 in accordance with Tables B and C of the Plan, plus \$0.085 per hour (Journeyman) or \$0.0433 per hour (Servicemen) worked on or after May 1, 2002. – For other work classifications, accruals are based on the Journeyman accrual rate, prorated based on the ratio of the applicable contribution rate of the classification to the Journeyman contribution rate. – Benefits accrued on an after January 1, 2017, are reduced by 10%
Service Pension	• <i>Age Requirement:</i> 55 • <i>Service Requirement:</i> 30 years of credited service • <i>Amount:</i> Normal benefit accrued
Early Retirement	• <i>Age Requirement:</i> 55 • <i>Service Requirement:</i> 10 years of credited service or 5 years of future service • <i>Amount:</i> Normal benefit accrued reduced by ½% for each full calendar month of age less than 62
Disability	• <i>Age Requirement:</i> 40 or • <i>Service Requirement:</i> 15 years of credited service • <i>Amount:</i> Normal pension accrued based on the plan in effect at the time of termination of employment

Vesting

- Vesting Percentage:

Years of Service	Vesting Percentage
2 – 4	50%
5 or more	100%

- *Amount:* Normal pension accrued. With five years of service, the benefit is unreduced payable at Normal Retirement Age.
- *Normal Retirement Age:* 62

Spouse's Pre-Retirement Death Benefit

- *Age Requirement:* None
- *Service Requirement:* 2 years of credited service
- *Amount:* The full amount the deceased participant would have received had the participant retired at the date of death rather than died, elected the 100% joint and survivor form of payment and commenced payment on the date described below. Reductions are made to the accrued benefit for early commencement (if applicable) and form of payment.
- *Charge for Coverage:* None
- *When Paid:* The later of immediately or the earliest early retirement age for the deceased participant

Pre-Retirement Lump-sum Death Benefit

- *Age Requirement:* None
- *Service Requirement:* 2 years of credited service
- *Amount:* Return of contributions made on participant's behalf reduced by 50%. With five years of service or for death in active service, the benefit is unreduced.

Post-Retirement Death Benefit

If married, pension benefits are paid in the form of a 50% joint and survivor annuity unless this form is rejected by the participant and spouse. If rejected, or if not married, benefits are payable for the life of the participant. Benefits may also be payable in any other available optional form elected by the participant in an actuarially equivalent amount. If total benefits paid to the participant and spouse, if applicable, are less than aggregate contributions made on the participant's behalf, the participant's beneficiary shall receive, as a lump sum payment, the excess of contributions over benefits paid.

Lump-Sum Retirement Options

- *Age Requirement:* 62
- *Amount:* Either 100% or 25% of accrued benefit as of May 1, 1996, or contributions made on participant's behalf prior to May 1, 1996, if greater.

Optional Forms of Benefits

Normal forms:

- Joint and 50% Survivor Annuity for married participants
- Single Life Annuity for single participants

Optional forms:

- Single Life Annuity (married participants only)
- Joint and 100% Survivor Annuity with “pop-up” feature (married participants only)
- Joint and 75% Survivor Annuity (married participants only)
- Lump Sum Option, for service earned prior to May 1, 1996

Credited Service

Past service is service before December 1, 1960 (Journeyman) or December 1, 1962 (Servicemen) limited to twenty years.

Future Credited Service is granted according to the following table:

Hours Worked	Service Credit
0-86	0.0
87-179	0.1
180-269	0.2
270-359	0.3
360-449	0.4
450-539	0.5
540-629	0.6
630-719	0.7
720-809	0.8
810-869	0.9
870 or more	1.0

Contribution Rates	Journeyemen:	\$10.45 per hour effective May 1, 2016
	Servicemen:	\$4.25 per hour effective May 1, 2016
	Additional rates apply for other work classifications.	
Changes in Plan Provisions	The benefit accrual rate was reduced by 10% effective January 1, 2017.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

To Whom It May Concern:

As required by ERISA Section 305 and the Internal Revenue Code (IRC) Section 432, we have completed the actuarial status certification as of May 1, 2016 for the following plan:

Name of Plan: Plumbers Local No. 55 Pension Plan
Plan number: EIN 34-6514703/PN 001
Plan sponsor: Board of Trustees, Plumbers Local No. 55 Pension Plan
Address: 980 Keynote Circle
Cleveland, Ohio 44131
Phone number: 216.459.9110

As of May 1, 2016, the Plan is in endangered status. In addition, the Plan is not projected to be in critical status for any of the succeeding five plan years. This certification also notifies the IRS that the Plan is making the scheduled progress in meeting the requirements of its Funding Improvement Plan, based on information received from the sponsor.

If you have any questions on the attached certification, you may contact me at the following:

ACTUARIAL STATUS CERTIFICATION AS OF MAY 1, 2016 UNDER IRC SECTION 432

This is to certify that Segal Consulting, a Member of The Segal Group, Inc. ("Segal") has prepared an actuarial status certification under Internal Revenue Code Section 432 for the Plumbers Local No. 55 Pension Plan as of May 1, 2016 in accordance with generally accepted actuarial principles and practices. It has been prepared at the request of the Board of Trustees to assist in administering the Fund and meeting filing and compliance requirements under federal law. This certification may not otherwise be copied or reproduced in any form without the consent of the Board of Trustees and may only be provided to other parties in its entirety.

The measurements shown in this actuarial certification may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); differences in statutory interpretation and changes in plan provisions or applicable law.

This certification is based on the May 1, 2015 actuarial valuation, dated July 13, 2016. This certification reflects the changes in the law made by the Multiemployer Pension Reform Act of 2014 (MPRA). Additional assumptions required for the projections (including those under MPRA), and sources of financial information used are summarized in Exhibit V.

Segal Consulting does not practice law and, therefore, cannot and does not provide legal advice. Any statutory interpretations on which this certification is based reflect Segal's understanding as an actuarial firm.

This certification was based on the assumption that the Plan was qualified as a multiemployer plan for the year.

I am a member of the American Academy of Actuaries and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of my knowledge, the information supplied in this actuarial certification is complete and accurate. As required by IRC Section 432(b)(3)(B)(iii), the projected industry activity is based on information provided by the plan sponsor. In my opinion, the projections are based on reasonable actuarial estimates, assumptions and methods that (other than projected industry activity) offer my best estimate of anticipated experience under the Plan.

Actuarial Assumptions and Methodology

The actuarial assumptions and plan of benefits are as used in the May 1, 2015 actuarial valuation certificate, dated July 13, 2016, except as specifically described below. We also assumed that experience would emerge as projected, except as described below. The calculations are based on a current understanding of the requirements of ERISA Section 305 and IRC Section 432.

Plan of Benefits:

The accrual rate was reduced by 10% for benefit accruals on and after January 1, 2017.

Contribution Rates:

The contribution rate for Journeymen increased from \$9.15 per hour to \$10.45 per hour effective May 1, 2016, while rates for other work classes increased by smaller amounts. The average contribution rate is estimated to increase from \$7.59 per hour as of May 1, 2015 to \$8.67 per hour as of May 1, 2016. These changes are reflected in the certification.

Asset Information:

The market value of assets as of May 1, 2016 was estimated using the investment rate of return provided by the Investment Consultant. Information about contributions, benefit payments, and administrative expenses was estimated based on the May 1, 2015 actuarial valuation.

For projections after that date, the assumed administrative expenses were increased by 3% per year and the benefit payments were projected based on the May 1, 2015 actuarial valuation. The projected net investment return was assumed to be 7.5% of the average market value of assets for the Plan years ending April 30, 2017 through 2025. Any resulting investment gains or losses due to the operation of the asset valuation method are amortized over 15 years in the Funding Standard Account.

Projected Industry Activity:

As required by Internal Revenue Code Section 432, assumptions with respect to projected industry activity are based on information provided by the plan sponsor. Based on this information, the number of active participants is assumed to decline to 414 participants on May 1, 2016 and remain level thereafter, and on the average, contributions will be made for each active for 1,500 hours each year.

Actuarial Status Certification as of May 1, 2016 under IRC Section 432 for the Plumbers Local No. 55 Pension Plan

EIN 34-6514703/PN 001

Future Normal Costs:

Based on the assumed industry activity, we have determined that Normal Cost would remain level in the aggregate, with the number of active participants assumed to decline to 414 on May 1, 2016 and remain level thereafter, each active participant to accrue benefits on 1,500 hours per year, and the new entrants to have the same demographic characteristics as new entrants to the Plan in recent years.

Technical Issues

Segal Consulting ("Segal") does not practice law and, therefore, cannot and does not provide legal advice. Any statutory interpretation on which the certification is based reflects Segal's understanding as an actuarial firm. Due to the complexity of the statute and the significance of its ramifications, Segal recommends that the Board of Trustees consult with legal counsel when making any decisions regarding compliance with ERISA and the Internal Revenue Code.

**Justification for
Change in Actuarial
Assumptions
(Schedule MB, line 11)**

For purposes of determining current liability, the current liability interest rate was changed from 3.37% to 3.22% due to a change in the permissible range and recognizing that any rate within the permissible range satisfies the requirements of IRC Section 431(c)(6)(E) and the mortality tables were changed in accordance with IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1.

Based on past experience and future expectations, the following actuarial assumptions were changed as of May 1, 2016 (April 30, 2016 for withdrawal liability purposes, if applicable):

Mortality for healthy lives, previously 1994 Group Annuity Mortality Table (Static)

Mortality for disabled lives, previously RP-2000 Disabled Retiree Mortality Table

Mortality table for lump sum purposes, previously the prescribed 2015 table

Administrative expenses, previously \$380,000, payable monthly

Per capita hours worked, previously 1,450 hours per year

ACTUARIAL STATUS CERTIFICATION AS OF MAY 1, 2017 UNDER IRC SECTION 432

This is to certify that Segal Consulting, a Member of The Segal Group, Inc. ("Segal") has prepared an actuarial status certification under Internal Revenue Code Section 432 for the Plumbers Local No. 55 Pension Plan as of May 1, 2017 in accordance with generally accepted actuarial principles and practices. It has been prepared at the request of the Board of Trustees to assist in administering the Fund and meeting filing and compliance requirements under federal law. This certification may not otherwise be copied or reproduced in any form without the consent of the Board of Trustees and may only be provided to other parties in its entirety.

The measurements shown in this actuarial certification may not be applicable for other purposes. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; differences in statutory interpretation and changes in plan provisions or applicable law.

This certification is based on the May 1, 2016 actuarial valuation, dated April 7, 2017. This certification reflects the changes in the law made by the Multiemployer Pension Reform Act of 2014 (MPRA). Additional assumptions required for the projections (including those under MPRA), and sources of financial information used are summarized in Exhibit V.

Segal Consulting does not practice law and, therefore, cannot and does not provide legal advice. Any statutory interpretations on which this certification is based reflect Segal's understanding as an actuarial firm.

This certification was based on the assumption that the Plan was qualified as a multiemployer plan for the year.

I am a member of the American Academy of Actuaries and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. To the best of my knowledge, the information supplied in this actuarial certification is complete and accurate. As required by IRC Section 432(b)(3)(B)(iii), the projected industry activity is based on information provided by the plan sponsor. In my opinion, the projections are based on reasonable actuarial estimates, assumptions and methods that (other than projected industry activity) offer my best estimate of anticipated experience under the Plan.

EXHIBIT V

Actuarial Assumptions and Methodology

The actuarial assumptions and plan of benefits are as used in the May 1, 2016 actuarial valuation certificate, dated April 7, 2017, except as specifically described below. We also assumed that experience would emerge as projected, except as described below. The calculations are based on a current understanding of the requirements of ERISA Section 305 and IRC Section 432.

Contribution Rates:

The contribution rate for Journeymen increased from \$10.45 per hour to \$11.75 per hour effective May 1, 2017, while rates for other work classes increased by smaller amounts. The average contribution rate is estimated to increase from \$8.74 per hour as of May 1, 2016 to \$9.84 per hour as of May 1, 2017. These changes are reflected in the certification.

Asset Information:

The market value of assets as of May 1, 2017 was estimated using the investment rate of return provided by the Investment Consultant. Information about contributions, benefit payments, and administrative expenses was estimated based on the May 1, 2016 actuarial valuation.

For projections after that date, the assumed administrative expenses were increased by 3% per year and the benefit payments were projected based on the May 1, 2016 actuarial valuation. The projected net investment return was assumed to be 7.5% of the average market value of assets for the Plan years ending April 30, 2018 through 2027. Any resulting investment gains or losses due to the operation of the asset valuation method are amortized over 15 years in the Funding Standard Account.

Projected Industry Activity:

As required by Internal Revenue Code Section 432, assumptions with respect to projected industry activity are based on information provided by the plan sponsor. Based on this information, the number of active participants is assumed to increase to 414 participants on May 1, 2017 and remain level thereafter, and on the average, contributions will be made for each active for 1,500 hours each year.

Future Normal Costs:

Based on the assumed industry activity, we have projected the Normal Cost based on the May 1, 2016 valuation, with the number of active participants assumed to increase to 414 on May 1, 2017 and remain level thereafter, each active participant to accrue benefits on 1,500 hours per year, and the new entrants to have the same demographic characteristics as new entrants to the Plan in recent years.

Technical Issues

Segal Consulting (“Segal”) does not practice law and, therefore, cannot and does not provide legal advice. Any statutory interpretation on which the certification is based reflects Segal’s understanding as an actuarial firm. Due to the complexity of the statute and the significance of its ramifications, Segal recommends that the Board of Trustees consult with legal counsel when making any decisions regarding compliance with ERISA and the Internal Revenue Code.

Plumbers' Local Union No. 55 Pension Plan

Funding Improvement Plan

Update for the Plan Year Beginning May 1, 2016

Introduction

Sections 305 of the Employee Retirement Income Security Act ("ERISA") and 432 of the Internal Revenue Code ("the Code") require the Trustees of a multiemployer pension plan that has been certified by the plan's actuary as being in endangered status (also known as "Yellow Zone" status) to develop a Funding Improvement Plan ("FIP"). A FIP must prescribe actions, including recommended actions to be taken by the bargaining parties, that are expected to enable a plan to meet stated financial benchmarks by the end of the Funding Improvement Period, based on reasonably anticipated experience and on reasonable actuarial assumptions. The Plumbers' Local Union No. 55 Pension Plan ("Fund") was originally certified to be in endangered status for the plan year beginning May 1, 2013. On July 29, 2016, the Fund was certified by its actuary to continue to be in endangered status for the Plan year beginning May 1, 2016.

The Funding Improvement Plan must be designed to accomplish the following:

1. Increase the Fund's funded percentage, as defined by statute, by the end of the Funding Improvement Period (as defined in the next section) by at least 33% of the difference between the funded percentage as of the beginning of the period and 100%; and
2. Avoid an accumulated funding deficiency during the Funding Improvement Period.

Funding Improvement Period

The Funding Improvement Period for the Plumbers' Local Union No. 55 Pension Plan is the period of 10 plan years beginning May 1, 2014.

If the actuary certifies before the end of this period that the Fund is no longer in endangered status for a plan year, and is not in critical status as defined in the statute, the Funding Improvement Period will end as of the close of the preceding plan year.

Schedules

Based on the funded percentage of 78.27% as of May 1, 2014, the FIP must contain schedules of plan and/or contribution changes that are projected to enable the funded percentage to improve to 85.45% by the end of the Funding Improvement Period and avoid a projected accumulated funding deficiency for the specified period.

Default Schedule

1. Maintain the contribution rates for all employers at a minimum of their level as of May 1, 2016 for every year that the Fund is in endangered status, and
2. Maintain the plan of benefits in effect as of the day before the initial date of certification of endangered status, for all current and future active participants and for every year that the Fund is in endangered status, except for:
 - a) A 96% reduction in the benefit accrual rate for all service earned on or after May 1, 2017 for every year that the Fund is in endangered status;

- b) any benefit changes required for the Fund to continue meeting the requirements to maintain its tax qualification under the Internal Revenue Code and comply with other applicable law; and
- c) after commencement of the Funding Improvement Period, specific benefit increases, if the Trustees determine that they will be financed out of contributions not contemplated for the FIP and will not impede the Fund's progress towards achieving the legal benchmarks for plans in endangered status.

Alternative Schedule

1. Increase the Journeyman contribution rate by \$1.30 per hour for all employers (with proportional increases for the other classes at lower contribution rates) on or before May 1, 2016, 2017, 2018, 2019, and 2020 for every year that the Fund is in endangered status, and
2. Reduce the Plan's accrual rates by 10% for benefits accrued on or after January 1, 2017, and otherwise maintain the plan of benefits in effect as of the day before the initial date of certification of endangered status, for all current and future active participants and for every year that the Fund is in endangered status, except for:
 - a) any benefit changes required for the Fund to continue meeting the requirements to maintain its tax qualification under the Internal Revenue Code and comply with other applicable law, or
 - b) after commencement of the Funding Improvement Period, specific benefit increases, if the Trustees determine that they will be financed out of contributions not contemplated for the FIP and will not impede the Fund's progress towards achieving the legal benchmarks for plans in endangered status.

As noted below, these schedules are subject to revision if the Trustees determine that such action is necessary in light of the Fund's future financial condition and statutory requirements.

Imposition of FIP Schedules

Initial FIP Schedules: If a collective bargaining agreement providing for contributions under the Fund that was in effect at the time the Fund entered endangered status expires, and a contribution increase consistent with the FIP is not established or agreed to in collective bargaining within 180 days, the Default Schedule will be implemented automatically 180 days after the date on which the collective bargaining agreement expires.

Subsequent FIP Schedules: If a collective bargaining agreement providing for contributions under the Fund in accordance with an FIP Schedule provided by the Trustees (or imposed as described in the preceding paragraph) expires while the Fund is still in endangered status, and the bargaining parties fail to adopt an updated FIP Schedule, the FIP Schedule applicable under the expired collective bargaining agreement, as updated and in effect on the date the agreement expires, will be implemented automatically 180 days after the date on which the collective bargaining agreement expires.

Annual Updating of FIP

Each year the Fund's actuary will review and certify the status of the Fund and whether the Fund is making the scheduled progress toward the requirements of the FIP. If the Trustees determine that it is necessary in light of updated information, they will revise the FIP and the benefit and contribution schedules recommended under it. Notwithstanding subsequent changes in benefit and contribution schedules, a schedule of contribution rates provided by the Trustees and relied upon by the bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

Adoption of the Funding Improvement Plan

The undersigned representatives of the Joint Board of Trustees of the Plumbers' Local Union No. 55 Pension Plan confirm the Board's adoption and approval of this updated Funding Improvement Plan, by virtue of Board resolutions dated February 14, 2018.
