NOTES TO FINANCIAL STATEMENTS
June 30, 2017

1. DESCRIPTION OF PLAN

The following description of the Metalsa Tuscaloosa, Inc. (the "Company") 401(k) Retirement Savings Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the agreement governing the Plan, (the "Plan Agreement").

General

The Plan is a defined contribution Plan that covered all employees of the Company who were age 18 or older, and were not considered the following: a "leased employee" under IRS rules and covered under a pension plan sponsored by the leasing organization, non-resident aliens, co-op students, illegal aliens, union employees or apprentices and represented for collective bargaining purposes. The Plan was established on July 1, 2003, and subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code (the "Code") with a cash or deferred arrangement qualified under Section 401(k) of the Code. Plan management is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performances.

The Plan is administered by the Company. The assets of the Plan were held and invested by Ascensus Trust Company ("the custodian") until June 30, 2017 (Note 6).

Contributions

Prior to the merger (Note 6), participants contributed into the Plan on a pre-tax basis up to 100% of their annual compensation, as defined by the Plan. Participant contribution is subject to a maximum of $18,000 for 2017. Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions on a pre-tax basis. Participants were permitted to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered various mutual funds, exchange traded funds and money market funds as investment options for participants. During 2017, the Company contributed a discretionary match that was 100% of the first 4% of a participant's base compensation.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Participant accounts were charged with an allocation of administrative expenses paid by the Plan. Allocations were based on participant compensation or account balances, as defined. The benefit to which a participant was entitled was the vested benefit that can be provided from the participant's account.

(continued)

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100% vested in matching contributions after three years of credited service.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at prime rate plus 2%, commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other, a participant could elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At June 30, 2017 and December 31, 2016, forfeited nonvested accounts totaled $2,317 and $1,127, respectively. Also, in 2017, $14,407 from forfeited nonvested accounts was used to pay Plan expenses.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Plan management determined the Plan's valuation policies utilizing information provided by the investment advisors, custodian and insurance company.

(continued)

2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the six month period ending June 30, 2017.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS were recorded as a liability with a corresponding reduction to contributions.

Notes Receivable from Participants

Participant loans were recorded on the financial statements as notes receivable from participants at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants was recorded when earned. Related fees were recorded as administrative expenses and expensed when they were incurred. No allowance for credit losses has been recorded as of June 30, 2017 and December 31, 2016. If a participant ceased to make loan repayments and the Plan Administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded. Effective June 30, 2017, outstanding participant loan balances were transferred to the Metalsa Retirement Savings Plan.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. For the six months ended June 30, 2017, these expenses amounted to $4,268. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the custodian of the Plan assets, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule of assets held.

(continued)

3. INFORMATION CERTIFIED BY THE CUSTODIAN (Continued)

	2017	2016
Information certified by Ascensus Trust Company:		
Mutual funds and exchange traded funds	$ -	$ 3,555,466
Money market funds	-	215,853
Notes receivable from participants	-	202,888

The custodian also certified to the completeness and accuracy of $260,324 of net appreciation in fair value of investments, $25,127 of interest, dividend and reinvested capital gain income related to the aforementioned investments and $4,822 of interest income on notes receivable from participants for the six months ended June 30, 2017.

4. FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(continued)

4. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Money market funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and is intended to permit reconciliation to the amounts presented in the Statements of Net Assets Available for Benefits. There were no plan assets at June 30, 2017 as a result of the merger (Note 6).

	Assets at Fair Value as of December 31, 2016			
Description:	Level 1	Level 2	Level 3	Total
Mutual funds and exchange traded funds	$ 3,555,466	$ -	$ -	$ 3,555,466
Money market funds	215,853	-	-	215,853
Total Investments in the fair value hierarchy	$ 3,771,319	$ -	$ -	$ 3,771,319

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by Ascensus Trust Company, the custodian, as defined by the Plan and, therefore, those transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $29,028 for the six months ended June 30, 2017. Certain administrative functions are performed by the officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan.

The Plan merged into a plan sponsored by the parent company of the Company as disclosed in Note 6.

(continued)

6. PLAN MERGER

Effective June 30, 2017, the Plan merged into the Metalsa Retirement Savings Plan, a plan sponsored by Metalsa Structural Products, Inc. On the date of the merger the Plan's assets included participant notes receivable, contribution receivables and participant account balances. Plan assets transferred to the Metalsa Retirement Savings Plan equaled $3,989,351, which represented the entire balance of the Plan's net assets available for benefits as of the merger date.

7. TAX STATUS OF THE PLAN

Effective January 1, 2016, the Plan was restated and amended using a volume submitter document known as "Volume Submitter Profit Sharing Plan With CODA" of Benefit Professionals, Inc. The volume submitter plan document has obtained an opinion letter from the Internal Revenue Service (IRS), which states that the volume submitter document satisfies the applicable provision of the Internal Revenue Code. The Plan has not received a determination letter from the IRS; however, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. NET ASSETS AVAILABLE FOR BENEFITS

Net assets available for benefits at June 30, 2017 and December 31, 2016, include $-0- allocated to the accounts of persons who, as of or prior to that date, had withdrawn from the Plan, but have not been paid.

9. SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through January 30, 2018, the date which the financial statements were available to be issued.
