401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the A.L.P. Lighting & Ceiling Products, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined-contribution plan sponsored by A.L.P. Lighting & Ceiling Products, Inc. (the Company) for its employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

Employees become eligible to participate upon the next entry date (first day of each month) subsequent to completing three months of service. Employees covered by a collective bargaining agreement are not eligible to participate unless the agreement requires the employees to be included under the Plan.

Contributions:

The Plan provides for participants' elective contributions up to 80% of the participants' eligible compensation, but not to exceed maximum amounts allowable by the Internal Revenue Code (the Code). Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. Employees that meet the eligibility requirements and do not decline enrollment are automatically enrolled into the Plan. During the year ended June 30, 2016, the automatic deferral rate was 2%. During the year ended June 30, 2017, the automatic deferral rate increased to 5%. Participants can change their elective deferrals at any time.

The Plan permits contributions by the Company. The employer discretionary contributions are allocated to each participant's account in an amount equal to a percentage of the eligible contributions made by each eligible participant during the year. There were no employer discretionary contributions for the year ended June 30, 2017.

1. Description of the Plan (continued)

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution(s) and (b) Plan earnings and charged with an allocation of administrative expenses not paid by the Company. Allocations are based on participant's earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants self-direct their contributions and their share of the Company's contribution among the investment options described in Note 7.

Investment options:

Participants direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds and a money market fund as investment options for participants.

Vesting:

Participants are always 100% vested in their employee 401(k) deferral contributions and earnings thereon. Participants are also fully vested if their employment with the Company terminates after the age of 59 1/2 or for reasons due to death, disability or proven financial hardship.

Participants vest in their employer matching contributions and their profit-sharing accounts (allocations of the employer discretionary contributions) and earnings thereon in accordance with the following table:

Years of service	Percentage vested
Less than 1	0%
At least 1 but less than 2	20%
At least 2 but less than 3	40%
At least 3 but less than 4	60%
At least 4 but less than 5	80%
5 or more	100%

1. Description of the Plan (continued)

Participant loans:

Participants may borrow up to the lesser of $50,000 or 50% of their vested interest in the Plan and the loan shall not be less than $1,000. The loan interest rate is determined by the Plan Administrator based on interest rates charged for similar types of loans by other lenders.

Payment of benefits:

A participant becomes entitled to benefits under the Plan upon retirement at the age of 59 1/2, permanent disability or resignation from the Company. Upon retirement or permanent disability, a participant is entitled to receive the full amount in his or her account, to be paid in a manner specified in the Plan. Upon resignation, participants are entitled to receive the vested portion of their account balance. Participants may also make withdrawals from their vested account balances if a determination of financial hardship, as defined, has occurred.

Participants' benefits are charged to participants' equity during the period when participants are entitled to receive payment, which generally is the period during which the benefits are paid.

Forfeitures:

Forfeitures arising during the Plan year will be used to reduce the Company's future employer contribution deposits under the Plan or pay Plan expenses. The forfeiture balance available at June 30, 2017 was $6,940. Forfeitures of $294 were used to pay Plan expenses during the Plan year ended June 30, 2017.

2. Summary of significant accounting policies

Basis of accounting:

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Shares of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Units of the common collective trust fund are valued based on the net asset value per share as a practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants:

As described in Note 1, the Plan allows for participants to borrow against their vested account balance and the loan is secured by the participant's account balance. Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are repaid ratably through regular payroll deductions and loan defaults are treated as distributions. The Plan is required to review the collectibility of the outstanding loan balances and record an allowance for loans determined to be uncollectible. As of June 30, 2017 and 2016, no allowance for uncollectible loans was deemed necessary.

2. Summary of significant accounting policies (continued)

Administrative expenses:

Certain expenses of administering the Plan are paid by the participants. Other administrative expenses are paid by the Plan.

Payment of benefits:

Benefits are recorded when paid.

3. Tax status

The Plan is exempt from federal income taxes under Section 401(k) of the Internal Revenue Code (the Code).

The Internal Revenue Service has determined and informed the Company that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and management believe it is currently operating in accordance with applicable rules and regulations of the Code.

4. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Fair value measurements

There are three levels of inputs used to measure fair value. The definition of each input is described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

6. Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016:

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common collective trust fund: Valued at the NAV of the units held by the Plan. The Fund invests in fully-benefit responsive investment contracts that are held at contract value. NAV is determined to be contract value, the value at which participants ordinarily transact. This practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2017 and 2016.

Investments at fair value as of June 30, 2017:

June 30, 2017	**Level 1**	**Total**
Mutual funds	**$ 21,576,994**	**$ 21,576,994**
		21,576,994
Common collective trust fund measured at NAV*		**1,978,023**
Total investments at fair value		**$ 23,555,017**

6. Fair value measurements (continued)

Investments at fair value as of June 30, 2016:

June 30, 2016	Level 1	Total
Mutual funds	$ 19,001,274	$ 19,001,274
		19,001,274
Common collective trust fund measured at NAV*		2,073,679
Total investments at fair value		$ 21,074,953

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of June 30, 2017 and 2016.

Investment	**2017**	2016	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund	**$ 1,978,023**	$ 2,073,679	N/A	Daily	None

7. Investments (information prepared and certified by the Trustee)

The following information included in the financial statements and the supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Fidelity Management Trust Company (the Trustee).

Investments of $23,555,017 and $21,074,953 at June 30, 2017 and 2016, respectively, were certified by the Trustee.

Notes receivable from participants of $637,050 and $703,162 are also certified by the Trustee at June 30, 2017 and 2016, respectively. The interest on these receivables ranges from 4.25% to 10.25% in 2017 and 2016.

For the year ended June 30, 2017, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value in the amount of $1,599,231. Dividend and interest income was $756,077 for the year ended June 30, 2017. Interest on participant loans was $28,764 for the year ended June 30, 2017.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan investments and participant loans in the Fidelity Management Trust Company, as shown in the statement of net assets available for benefits as of June 30, 2017.

- Investment income and interest on participant loans as shown in the statement of changes in net assets available for benefits for the year ended June 30, 2017.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

8. Party-in-interest transactions

The Plan's investments include shares of mutual funds and a common collective trust fund managed by an affiliate of the Trustee and, therefore, these transactions qualify as party-in-interest transactions.

9. Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of June 30, 2017 and 2016:
