Eligible employees become participants in the Plan following one year of service and completion of 1,000 hours of service, and attainment of age twenty one, as defined in the plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions. Employer contributions include employer matching contributions, employer discretionary matching contributions, and employer discretionary contributions. Participant contributions consist of participant pre-tax elective deferrals, participant after-tax contributions, and rollover contributions.

Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code Section 415(c). Participant contributions and employer matching contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in Internal Revenue Code Sections 401(k) and 401(m).

Employer discretionary contributions, if any, are allocated to participants employed on the last day of the plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions to the Plan, if any, are allocated as of the last day of the plan year to the account of each participant who elects to have deferred cash contributions made under the Plan, and who is employed with the employer on the last day of the plan year.

Participant Accounts and Vesting. Each participant's account is credited with the participant's contribution, the employer's contribution, and an allocation of the Plan's earnings. The Plan's earnings are allocated according to participants' relative account balances in the investment options.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. That portion of the participants' account attributable to employer matching contributions vests ratably over six years of service. Participants' accounts become fully vested upon attainment of the normal retirement age of sixty five, early retirement age as defined in the Plan Agreement, or in the event of death or total disability.

Net assets available for benefits includes the accounts of active participants, as well as certain separated, vested and retired participants who have elected to defer receipt of their benefit until a later date. These participants share in the earnings of the investments held in their account.

Forfeitures. The forfeited non-vested portion of terminated employees account balances are used as additional employer contributions or pay administrative expenses. In 2016, there were $9,859 of forfeitures generated from forfeited non-vested accounts. No forfeitures were used during 2016. As of December 31, 2016 there were $25,292 of unused forfeitures available to pay plan expenses or to be used as additional employer contributions.

Risks and Uncertainties. The Plan provides for various investment options which are exposed to a various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in the values of investments will occur in the near term and would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 1: Description of Plan (continued)

Payment of Benefits. On termination of service, normal retirement, or death, a participant may elect to receive a distribution of their vested account balance in a single lump-sum in cash, in equal installments, or in any amounts and at any time (Ad-Hoc). All investments available in the plan with allow for daily redemptions with no redemption notice period required.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship.

Notes Receivable from Participants. Participants may borrow the lesser of one-half of their vested account balance or $50,000. The minimum loan available is $1,000. Participant notes are recorded at their unpaid principal balance plus any accrued but unpaid interest. Loans are secured by the participant's interest in the Plan and are repaid through payroll deductions. Interest is earned on the participant notes at the prime rate in effect on the first day of the quarter plus one percent (4.50% at December 31, 2016). Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Plan Termination. Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time. In the event of termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with Plan documents.

Investment Options. Upon enrollment in the Plan, a participant may direct their contributions in various increments to the investments administered by Empower Retirement. Participants may change their investment options among various mutual funds and collective trust funds.

Amendments. There were no amendments for the year ending December 31, 2016.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition. The Plan's investments with Empower Retirement at December 31, 2016 consist of collective trust funds (CTFs), mutual funds, and stable value funds. CTFs are stated at fair value and the Drive Income Fund (stable value fund) is stated at contract value as determined by Great-West Trust Company, LLC, the trustee of the Plan. Mutual funds are stated at fair value based on quoted market prices. .

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events. Plan management has evaluated subsequent events for disclosure in these financial statements through October 3, 2017, the date the financial statements were available to be issued.

Note 3: Information Certified by Trustee

Great-West Trust Company, LLC, the trustee of the Plan, has certified as to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015, the investment activities and interest income from participant notes reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016, and all investment information reflected in the supplemental Schedule of Assets Held for Investment Purposes at December 31, 2016, in accordance with 29 CFR 2520.103-8(c) of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This information has been certified as complete and accurate to the best of their knowledge and is summarized below:

	2016	2015
Investments at fair value	$ 8,877,002	$ 8,190,479
Investments at contract value (Drive Income Fund)	1,823,594	1,909,279
Notes Receivable from Participants	203,688	284,530
Dividend income	47,370	
Net appreciation in value of investments	918,778	
Interest Income from notes receivable from participants	10,432	

Note 5: Fair Value Measurements

Financial Accounting Standards Board ASC 820-10 (formerly FASB Statement No. 157, Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets:

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the net asset value ('NAV') of shares held by the plan at year end based on quoted market prices

Collective Trust Funds (CTFs): Valued at net asset value ('NAV') as provided by Great-West Trust Company, LLC, the trustee of the Plan. The NAV for most CTFs is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Collective Investment Trusts	$ -	$ 7,149,994	$ -	$ 7,149,994
Mutual Funds	1,727,008	-	-	1,727,008
Total assets at fair value	$ 1,727,008	$ 7,149,994	$ -	$ 8,877,002

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Collective Investment Trusts	$ -	$ 6,362,905	$ -	$ 6,362,905
Mutual Funds	1,827,574	-	-	1,827,574
Total assets at fair value	$ -	$ 6,362,905	$ -	$ 8,190,479

Note 5: Stable Value Fund - Drive Income Fund

The Drive Income Fund is a stable value fund, held as a common collective trust fund, that seeks to preserve capital, provide sufficient liquidity to pay benefits to participants and beneficiaries, and provide stable and predictable returns. The Income Fund is fully benefit responsive and withdrawals are made at contract value for qualified benefit payments including participant directed transfers. Under certain circumstances, non-benefit related withdrawals from the fund, such as the termination of a participating plan, may be transacted at fair value which may be lower than contract value. The average yield credited to participants in the fund (the crediting rate) as of the last day of the period was 2.0%. The average crediting rate of the year ending December 31, 2016 was 1.97%. The contract value is as follows:

	2016	2015
Traditional stable value investment contract	$ 1,823,594	$ 1,909,279

Note 7: Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2014. The Plan has not been amended since receiving the determination letter, and the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluates tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administration has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2016, there are no uncertain positions. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8: Investment and Administrative Fees

The Plan paid $29,044 in record keeping and administrative fees to Empower. These administrative fees, include a base rate per plan, a charge per participant, an asset charge of .30%, and service fees. Empower also receives indirect record keeping compensation paid by each mutual fund or collective trust fund ("CTF") that is part of the Plan. The fee is based on average assets held in each fund, and the rate varies by underlying mutual fund provider. Total investment expenses charged by each mutual fund or CTF, not including record keeping fees of .30%, range from .05% to 1.00% of average assets depending on which investments are selected. The estimated investment expenses in total are .78% of average assets at December 31, 2016.
