NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of Spectrum Association Management Leasing 401K Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan which covers substantially all employees of Spectrum Association Management Leasing, Inc. (the "Company"). Employees become eligible to participate in the Plan when they attain age 18 and complete 1 hour of service in a one month period. Entry dates for participants are the first day of the calendar month coincident with becoming eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may defer a percentage of their compensation (either as a pre-tax or Roth Deferral) up to 100% of their compensation; however, total deferrals in any taxable year may not exceed a certain dollar amount which is set by law. Participants who reach the age of 50 before the close of a calendar year are eligible to make catch-up elective deferral contributions. Participants may elect to change their investment options any time throughout the year via direct telephone or internet access.

The Company may, in its sole discretion, make matching and profit sharing contributions to the Plan. Participants are eligible to receive an allocation of the matching and profit sharing contributions if they have completed at least 1,000 hours of service during the Plan year and are employed by the Company on the last day of the Plan year.

Participant Accounts

Benefits to employees of the Company consists of employer matching contributions, employer profit sharing contributions, participant contributions, and earnings on investments. Matching contributions are allocated based on a formula as determined by the Company in its sole discretion. Profit sharing contributions will be allocated in an amount designated by the Company to be allocated to each eligible participant.

Vesting

Participants are immediately vested in their elective deferrals (plus actual earnings thereon) and rollover contributions. Participants vest at the rate of 20% per year in matching and profit sharing contributions after the second year of service resulting in a 100% vested interest after six years of service. Upon normal retirement age, or in the event of death or disability, the participant becomes 100% vested.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

On termination of service for any reason, a participant may elect to receive an amount equal to the value of the participant's vested balance as soon as is administratively feasible with a final payment made consisting of any allocation occurring after termination of employment in the form of a lump-sum distribution. The Plan contains a mandatory cash out provision for vested accounts under $1,000, which will be distributed directly to the participant in cash. If the participant's vested account balance is greater than $1,000 but less than $5,000, participants may elect to receive the distribution in cash or to roll over the distribution to an IRA or the qualified plan of the new employer. Participants with account balances larger than $5,000 must consent to any distribution of the vested account. Participants may withdraw their elective deferrals for financial hardships.

Forfeitures

Forfeitures of non-vested matching and profit sharing contributions may be used to reduce the contributions payable to the Plan or to pay Plan expenses.

Reclassifications

Certain amounts in the prior period presented have been reclassified to conform to the current period consolidated and combined financial statement presentation. These reclassifications have no effect on the Company's financial position or results of operations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for the benefit of the participants and changes in those net assets.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Plan Benefits presents fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared using contract value for the fully benefit-responsive investment contract.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Participants may borrow, subject to certain conditions, from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may have two outstanding loans at a time, with a maximum term not to exceed five years. Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. No loans were outstanding for the years ended December 31, 2016 and 2015.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Administrative expenses for the plan custodial fees are charged against each participant's account. Other expenses such as audit fees are paid by the plan sponsor.

NOTE 3 – CERTIFIED FINANCIAL INFORMATION

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for the years ended December 31, 2016 and 2015. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Transamerica Retirement Solutions for the years ended December 31, 2016 and 2015, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of participant-directed investments in this Plan that were certified by Transamerica Retirement Solutions for the year ended December 31, 2016. Individual investments that represent 5% or more of the Plan's net assets available for benefits are separately identified below:

The following table presents the fair value of participant-directed investments in this Plan that were certified by Transamerica Retirement Solutions for the year ended December 31, 2015. Individual investments that represent 5% or more of the Plan's net assets available for benefits are separately identified below:

Transamerica Retirement Solutions also certified to the completeness and accuracy of $(44) of interest, dividends and net appreciation (depreciation) in fair market value of investments for the year ended December 31, 2015.

NOTE 4 – TAX STATUS

The Internal Revenue Service has determined and informed the Plan, in a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and tax counsel of the Plan believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The plan administrator has analyzed tax positions taken by the Plan and has concluded that there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

NOTE 4 – TAX STATUS (CONTINUED)

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The plan administrator believes that the Plan is no longer subject to income tax examination for years ending prior to December 31, 2013.

NOTE 5 – CONCENTRATIONS OF CREDIT RISK

The Plan's investments are not guaranteed by any federal depository insurance. Any significant concentration of credit risk related to the specific investments in the registered investment companies may subject the Plan investments to economic changes occurring within those industries in which the funds have invested.

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement ASC 820, *Fair Value Measurements* (FASB ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Input to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6 - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value by the Plan.

Pooled separate accounts: Valued at the net asset value by the custodian, as of the close of business and adjusted for dividends, splits, administrative maintenance charges and other items.

Guaranteed investment contract: The guaranteed account is fully benefit responsive and is therefore reported at fair value (see Note 2). The guaranteed account is measured at contract value which approximates fair value. Fair value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with FASB ASC 820. The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
Description	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ 6,376	$ -	$ 6,376
Pooled separate accounts	-	60,999	-	60,999
	$ -	$ 67,375	$ -	$ 67,375

NOTE 6 - FAIR VALUE MEASUREMENTS (CONTINUED)

	Assets at Fair Value as of December 31, 2015			
Description	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ 1,937	$ -	$ 1,937
Pooled separate accounts	-	18,419	-	18,419
	$ -	$ 20,356	$ -	$ 20,356

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

NOTE 8 – BONDING REQUIREMENT

The Plan was not in compliance with the bonding requirement set by ERISA, Title I, Section 412 for the year ended December 31, 2016.

NOTE 9 – GUARANTEED INVESTMENT CONTRACT

During 2016 and 2015, the Plan had a benefit-responsive guaranteed investment contract, the Stable Value Core Account, with Transamerica Retirement Solutions. Transamerica Retirement Solutions maintained the contributions to the Stable Value Core Account in a general account. The account was credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The issuer of the guaranteed investment contract is contractually obligated to repay the principal and specified interest rates that are guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract. Participants ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 9 – GUARANTEED INVESTMENT CONTRACT (CONTINUED)

Certain events limited the ability of the Plan to transact at contract value with the issuer, including termination of the guaranteed investment contracts. The Plan administrator believes that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, was not probable. The guaranteed investment contract does not permit the custodian to terminate the agreement prior to the scheduled maturity date.

There were no valuation reserves recorded to adjust contract amounts at December 31, 2016 and 2015. The average yield and declared interest rate of the guaranteed account was 0.70% and 0.75% for the years ended December 31, 2016 and 2015, respectively. On a semi-annual basis, Transamerica Retirement Solutions declares a guaranteed interest rate that shall apply for a six-month period. The guaranteed rate of interest shall not change during the six month period for which it is effective. There is no minimum guaranteed interest rate under this contract.

NOTE 10 – RECONCILIATION OF PLAN FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Annual Return/Report of Employee Benefit Plan-Form 5500 as of December 31, 2016:

Net assets available for benefits per the financial statements	$	71,573
Less employee contributions receivable - end of year		(4,198)
Net assets available for benefits per the Form 5500	$	67,375

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the net income per the Form 5500 for the year ended December 31, 2016:

Net increase in net assets available for benefits per the financial statements	$	51,217
Less employee contributions receivable - end of year		(4,198)
