1. DESCRIPTION OF THE PLAN

The following description of Wehah Farm, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees of Wehah Farm, Inc. dba Lundberg Family Farms, who have two months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was originally established as of September 1, 1987, and has been subsequently amended and restated. The Plan trustees are responsible for oversight of the Plan, including the appropriateness of the Plan's investment offerings and investment performance.

Contributions Participants may elect to contribute to the Plan, in the form of employee 401(k) salary deferral contributions (pre-tax 401(k) deferrals and Roth 401(k) deferrals), up to the lesser of 100% of their eligible compensation or the maximum amount allowable by law. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes matching contributions of 50% of each participant's deferral up to 6% of the participant's eligible compensation. The Company may also make discretionary profit sharing contributions. The Company made matching contributions of $304,183 and $265,241, respectively, for the years August 31, 2017 and 2016. No discretionary profit sharing contributions were made for the years ended August 31, 2017 and 2016.

Participant Accounts Each participant's account is credited with the participant's salary deferral contributions, employer contributions, and account earnings, and may be charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Participants are immediately vested in their salary deferral contributions, employer matching contributions, and earnings thereon. Discretionary profit sharing contributions are subject to vesting. A participant is 100% vested after six years of credited service. Participants are credited with one year of service for each plan year in which they worked at least 1,000 hours.

Notes Receivable From Participants Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to 50% of their vested account balance or exceed $50,000 minus the difference between the highest outstanding balance of loans in the past 12 months and the outstanding balance of loans from the Plan on the date the loan is made. Note receivable repayment terms generally may not exceed 5 years, except in the case of the purchase of a primary residence which may not exceed 15 years. The notes receivable are secured by the balance in the participant's account and bear interest ranging from 4.25% to 5.50%. Principal and interest are paid ratably through semimonthly payroll deductions.

Payment of Benefits Withdrawals are allowed in the event of termination, disability, death, retirement, or attainment of age 59½. Depending on the event, the withdrawal may be subject to early withdrawal penalties imposed by the *Internal Revenue Code* (IRC). Payments are made in the form of a lump-sum distribution or annual installments over a period of time of not more than the participant's life expectancy.

Forfeitures Forfeitures attributable to profit sharing contributions may be used to reduce future employer matching contributions. Forfeited nonvested account balances totaling $2,357 and $-0- were used to reduce contributions due for the years ended August 31, 2017 and 2016, respectively. At December 31, 2017 and 2016, there were no remaining forfeited nonvested account balances.

Plan Termination Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The Plan trustees determine the Plan's valuation policies utilizing information provided by the investment advisers and custodian. Fair value measurements are discussed below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Fair Value Measurement The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2017 and 2016.

Money Market Mutual Funds: Assets are valued at the net asset value (NAV), generally $1 per share, and are reported on the active market on which securities are traded.

Mutual Funds: Assets are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

See note 4 for the classification of these assets within the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes Receivable From Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. No allowance for credit losses was recorded as of August 31, 2017 and 2016. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain operating expenses and investment-related expenses of the Plan are paid by the Company. Investment-related expenses are included in net appreciation in fair value of investments.

Reclassification Certain amounts in the August 31, 2016, financial statements have been reclassified for comparative purposes to conform to the presentation in the August 31, 2017, financial statements.

Evaluation of Subsequent Events The Plan has evaluated subsequent events through March 22, 2018, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY WELLS FARGO BANK, N.A.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the investments and participant notes receivable included in the statements of net assets available for benefits, and the investment income and interest income on notes receivable from participants included in the statements of changes in net assets available for benefits as of and for the years ended August 31, 2017 and 2016, were not subject to auditing procedures and have been certified as complete and accurate by Wells Fargo Bank, N.A.

5. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A., is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Pension Dynamics is the recordkeeper as defined by the Plan and, therefore, transactions qualify as party-in-interest transactions.

Wells Fargo Bank, N.A. and Pension Dynamics provide certain administrative services to the Plan pursuant to an agreement between the Company and Wells Fargo Bank, N.A and the Company and Pension Dynamics. Wells Fargo Bank, N.A., and Pension Dynamics receive revenue from mutual funds and other service providers for services Wells Fargo Bank, N.A. and Pension Dynamics, provide to the funds. This revenue is used to offset certain amounts owed to Wells Fargo Bank, N.A. and Pension Dynamics for administrative services to the Plan.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan or the Company may make a payment to Wells Fargo Bank, N.A. and Pension Dynamics, for administrative services not covered by revenue sharing.

6. TAX STATUS

The Plan has adopted a prototype, non-standardized profit sharing plan established by Pension Dynamics Company, LLC (the Sponsor). The Sponsor's prototype plan obtained an opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the form of the prototype plan, as then designed, is acceptable under Section 401 of the IRC. Although the Plan has adopted amendments since adopting the prototype plan, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. SUBSEQUENT EVENTS

As of October 1, 2017, the eligibility requirement age to enroll was changed to 18 years or older and the hours of service requirement was removed. On January 1, 2018, the Company changed to auto-enrollment starting at 3%. These new changes apply to all employees unless they are an active participant or have previously elected out via the opt-out form.
