Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of The Uniontown Hospital, which comprise the statements of net assets available for benefits as of June 30, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 4*, which was certified by PNC Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended June 30, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary Information

The supplemental schedules listed in the table of contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Retirement Plan for Employees of The Uniontown Hospital

Notes to Financial Statements

June 30, 2017 and 2016

Note 1: Description of the Plan

The following description of the Retirement Plan for Employees of The Uniontown Hospital (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the plan document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of Uniontown Hospital and Fayette Regional Health System (Health System) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). PNC Bank, N.A. (PNC) is the trustee of the Plan. Prior to June 1, 2013, Fayette Home Care (FHC) was also a participating employer. Effective May 31, 2013, FHC was consolidated into an unrelated third party and FHC employees became inactive participants in the Plan.

Contributions

The Health System contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to plan members or their beneficiaries and to fund prior service costs (the estimated liability for accrued benefits arising from qualifying service before establishment of the Plan) over periods as permitted by ERISA and the Internal Revenue Code (Code). The Plan has met the minimum funding requirements established by the federal government.

Although it has not expressed any intention to do so, the Health System has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Employees are eligible for plan participation when credited with at least 1,000 hours of service and one consecutive year of service. The Health System determined that participation in the Plan was to be frozen as of June 30, 2006, so that no new participants would be admitted to the Plan after such date.

Retirement Plan for Employees of The Uniontown Hospital

Notes to Financial Statements

June 30, 2017 and 2016

Effective July 1, 1993, the Plan was transformed into a cash balance plan with active participants being credited with an opening balance based upon their compensation and years of service. Under the cash balance plan, each employee's individual retirement benefit is defined in the Plan's obligation as a notional cash balance retirement. Beginning with the plan year ended June 30, 1994, the cash balance accounts earn an interest credit at the end of each plan year based upon the average interest rate on Treasury Bills during the months of March, April and May immediately preceding the beginning of such plan year plus one percentage point, except that the applicable percentage shall never be less than 3% or more than 10%. Additionally, beginning with the plan year ended June 30, 1994, the cash balance of each participant who is an active employee as of the end of the plan year (or who retired or died during the year) receives a compensation credit based upon the participant's plan compensation multiplied by a percentage ranging from 4% to 6% based upon attained age. The pension benefit to which participants are entitled is based upon their cash balance at their benefit commencement date multiplied by a factor based upon their age at that time.

Effective July 1, 2006, the Health System adopted The Uniontown Hospital Employee Controlled Retirement Account Plan (ECRA Plan) as an alternative to the Plan. All existing employees were required to make a one-time, irrevocable election to remain in the Plan and continue to accrue benefits under the Plan or to waive further accrual of benefits under the Plan and transfer to the ECRA Plan for all accrual of benefits subsequent to that date. Annual interest credits continue to apply to ECRA Plan participants, but no compensation credits are earned.

Additionally, effective July 1, 2009, any participant as of June 30, 2009, who was an employee on June 30, 2009, was permitted to make a one-time, irrevocable election before July 1, 2009, to waive further accrual of benefits under the Plan and transfer to the ECRA Plan for all accrual of benefits on or after July 1, 2009.

Effective June 23, 2012, the Plan was amended to freeze the accrued benefits such that no compensation credits will be made for plan years after June 30, 2012. Any participants who had been accruing compensation benefits under this Plan up through June 23, 2012, started accruing benefits under the Health System's ECRA Plan thereafter. For plan years after June 30, 2012, the interest on the cash balances will continue and will never decrease.

The Plan provides for alternative forms of payment for retirement benefits. The basic form provides for monthly income continuing for the life of the participant. The qualified joint and survivor annuity provides for monthly income payable for the lifetime of the participant and continues at 50% of the monthly income to the participant's spouse for life. The contingent annuitant option provides for monthly income payable for the lifetime of the participant and continuing thereafter in the amount of 50% or 100% to a beneficiary designated by the participant for the beneficiary's life. The benefits are subject to certain limitations relating to life expectancy. If the value of the cash balance account is less than or equal to \$5,000, it will be paid in a lump sum.

Effective July 1, 2008, the Plan was amended to change the normal form of payment for married participants from 50% joint and survivor annuity to 100% joint and survivor annuity. The Plan has retained the 50% joint and survivor annuity as an additional option.

Effective July 1, 2015, the Plan was amended to allow certain participants who terminate employment with the Health System to elect to receive a single sum distribution equal to the present value of the benefits to which the participants are entitled from the Plan.

June 30, 2017 and 2016

Death Benefits

The Plan provides a death benefit for beneficiaries of vested plan participants who die before their pension equal to their cash balance under the Plan.

Vesting

As required by the Pension Protection Act of 2006, vesting requirements changed from five years to three years. A participant shall be fully vested upon reaching three years of service as defined by the Plan. If the participant terminates employment prior to the retirement date, they shall be entitled to a vested percentage of their accrued benefit based on their years of service as of the date of termination of employment. If the participant has rendered less than three years of service, he or she will not be entitled to any of his or her accrued benefit. Any participant who has three or more full years of service will be entitled to 100% of the vested percentage of the accrued benefit. The Plan permits for early retirement, at reduced benefit levels, starting at age 55 if minimum service requirements have been met.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 8* for a discussion of fair value measurements.

PNC records purchases and sale of securities on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

June 30, 2017 and 2016

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Health System or the Plan, at the Health System's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see *Note 5*) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Note 3: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Retirement Plan for Employees of The Uniontown Hospital

Notes to Financial Statements

June 30, 2017 and 2016

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 4: Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedules are complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of June 30, 2017 and 2016.
- Investment income (loss) included in the statements of changes in net assets available for benefits for the years ended June 30, 2017 and 2016.
- Investment information included in the accompanying schedule of assets (held at year end) as of June 30, 2017, and schedule of reportable transactions for the year ended June 30, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 5: Accumulated Plan Benefits

An independent actuary determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Retirement Plan for Employees of The Uniontown Hospital

Notes to Financial Statements

June 30, 2017 and 2016

The accumulated plan benefit information as of the end of each plan year (calculated by the Plan's actuary as of July 1, 2017 and 2016) was as follows:

	2017	2016
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 33,965,024	\$ 34,084,657
Other participants	18,935,456	19,297,300
	<u>52,900,480</u>	<u>53,381,957</u>
Nonvested benefits	<u>64,401</u>	<u>77,810</u>
 Total actuarial present value of accumulated plan benefits	 <u><u>\$ 52,964,881</u></u>	 <u><u>\$ 53,459,767</u></u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2017	2016
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 53,459,767</u>	<u>\$ 55,415,874</u>
Increase (decrease) during the year attributable to		
Increase for interest due to the decrease in the discount period	3,590,668	3,706,746
Actuarial (gains)/losses	317,954	(653,415)
Benefits paid	<u>(4,403,508)</u>	<u>(5,009,438)</u>
Net decrease	<u>(494,886)</u>	<u>(1,956,107)</u>
 Actuarial present value of accumulated plan benefits, end of year	 <u><u>\$ 52,964,881</u></u>	 <u><u>\$ 53,459,767</u></u>

Significant assumptions underlying the actuarial computations are:

- Mortality basis: RP-2014 employee/annuitant tables, without collar adjustment, grading linearly from MP-2014 to 1% from 2007 to 2012 and to 0.8% from 2012 to 2017 and grading to 0% from age 85 to 95, for 2017 and 2016.
- Interest rate: 7.00% for 2017 and 2016
- Average retirement age: Age 63 for 2017 and 2016
- Cash balance interest crediting rate: 3.0% for 2017 and 2016

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Retirement Plan for Employees of The Uniontown Hospital

Notes to Financial Statements

June 30, 2017 and 2016

Note 6: Experience Dividend

The Plan was previously funded through a group annuity contract issued by Aetna Life Insurance Company (Aetna). When that contract was discontinued in November 1986, the assets were applied to the purchase of paid-up annuities guaranteed by Aetna for the full benefits of all participants then in pay status and the remainder of the assets was transferred to the new trustee. The discontinued group annuity contract provided that Aetna has the right to declare experience credits, payable in cash. No experience credits were declared or received during the years ended June 30, 2017 or 2016.

Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan's investments are held by PNC, the trustee of the Plan. The Plan paid direct fees of \$53,732 and \$53,805 to PNC for trust department services performed in 2017 and 2016, respectively. Investment management services are provided by AllianceBernstein to whom the Plan paid direct fees of \$188,558 and \$187,625 for 2017 and 2016, respectively.

The Health System provides certain administrative services at no cost to the Plan including audit and legal fees.

Note 8: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Recurring Measurements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016.

Money market funds are valued at cost, which approximates fair value.

Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year.

For certain investments consisting of corporate bonds and notes that do not have an established fair value, fair value is based on yields currently available on comparable securities of issuers with similar credit ratings.

Collective investment trusts are valued at the net asset value (NAV) of shares held by the Plan at year end, as reported by the trusts' custodial trustee.

Mortgage-backed securities have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar instruments.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2017 and 2016:

	Fair Value	2017 Fair Value Measurements Using

(A) In accordance with the Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended June 30, 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset per share practical expedient as of June 30, 2017 and 2016.

Notes to Financial Statements

June 30, 2017 and 2016

	Fair Value at 6/30/17	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Investment Trust Funds	\$ 34,807,084	\$ -	Daily	1 day
	Fair Value at 6/30/16	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Investment Trust Funds	\$ 33,116,414	\$ -	Daily	1 day

The Plan is invested in three collective investment trust accounts. The Plan has the ability to liquidate these investments at any time in accordance with provisions of the trust agreements.

Note 9: Plan Tax Status

The Plan obtained its latest determination letter on March 14, 2014, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11: Subsequent Events

Subsequent events have been evaluated through March 14, 2018, which is the date the financial statements were available to be issued.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Retirement Plan for Employees of The Uniontown Hospital
EIN/PN: 25-0965588/001
2016 Form 5500 Sch SB, Part V - Summary of Plan Provisions

Plan Provisions

The following is a summary of the major provisions of the plan as of July 1, 2016. Please refer to the plan document for a more complete description of the most recent plan provisions.

General Information

- Plan Year: July 1 to June 30
- Restated Effective: October 16, 2013
- Most Recent Amendment: Effective July 27, 2015

Covered Employees:

- Non-Bargaining employees of Uniontown Hospital, Fayette Regional Health Center and Fayette Home Care hired prior to July 1, 2006, and:
- Bargaining employees electing to be covered under the Plan by collective bargaining agreement
- No new participants are admitted to the Plan after June 23, 2012

Participation Date (only if eligible prior to June 23, 2012):

- Rolling July 1 or January 1 if 1,000 hours of service completed in first 12 months after hire. If participation is not met in the year of hire, July 1 after the first plan year with 1,000 hours of service.

Plan Benefit Eligibility Provisions

- Normal Retirement: The first day of the month coincident with or next following age 65 and 5 years from date of participation.
- Early Retirement: Before Normal Retirement but after completion of 3-years of vesting service *and* attainment of age 55.
- Late Retirement: Any retirement date after a Participant's Normal Retirement Date.
- Deferred Vested Retirement: Termination of employment after completion of 3 years of vesting service prior to attainment of Normal Retirement or Early Retirement eligibility, except benefits are deferred to early retirement if not paid within 90 days after termination of employment.
- Preretirement Death: Death after attainment of 3 years of vesting service and prior to election to commence benefits under any of the above eligibility provisions.

Plan Provisions (continued)

Plan Benefit Payment Forms

- Normal Form of Benefits: An Annuity equal to the account balance at commencement divided by an annuity factor based on 1983 GAM Male Mortality set back 4 years with an interest rate of 7%. For married participants, this form is converted to Joint and 100% survivor unless a participant's spouse consents to another optional form.
- Optional Lump Sum: Participants may elect a lump sum payment in the amount of their account balance at commencement if they commence benefits within 90 days of termination of employment. Otherwise, terminating employees must wait until early retirement eligibility to commence an annuity form of payment only.
- Pre-Retirement Death Benefit: Immediate Lump Sum unless survivor elects otherwise.

Plan Benefit amounts

- Accrued Benefit: an opening account balance based on the value of the prior plan benefit at June 30, 1993, and including interest credits and end-of year annual additions prior to the earlier of June 23, 2012 or the date employees elected to participate in the ECRA. Interest credits continue after the cessation of annual additions.

The schedule of annual additions before cessation was based on plan compensation under the following schedule:

Age Less than 35: 4% of annual plan compensation

Age 35-49: 5% of annual plan compensation

Age 50+: 6% of annual plan compensation

Plan compensation is generally total compensation with minor exceptions.

Interest Credits: 90-Day Treasury Bill Average Rate for the months of March through May preceding the plan year, plus one percent. The interest credit is subject to a minimum of 3.0% and a maximum of 10%.

Vesting Service: One year for the initial year of hire, and then one year for each calendar year where a participant completes 400 or more hours of service. Vesting Service is excluded for Fayette Home Care service prior to January 1, 1982.

Miscellaneous

- Changes since prior valuation: None.
- Maximum Benefits: Benefits may not exceed IRS Section 415 limits.

Actuarial Methods and Assumptions

As of July 1, 2016

Mortality for Minimum and Maximum Funding: 2016 IRS Static Mortality Table

Mortality for Present Value of Accumulated Benefits: RP-2014 mortality reflecting the total dataset with a future mortality improvement rate of 0.8%. No future improvement is assumed for ages over age 85. Prior to the ultimate mortality improvement rate, mortality improvement was replaced in the original RP 2014 table with 1% per year beginning in 2012 and grading to the 0.8% rate pro-rata over a five-year period.

Expenses: Prior Year administrative expenses rounded to the nearest thousand.

Asset Valuation Method: The smoothed value method provided in IRS Notice 2009-22 measured at the valuation date, and the two immediately preceding valuation dates.

Data: The valuation results are based upon participant census and financial data provided by the plan sponsor and trustee. The data was tested for reasonableness and consistency with the prior valuation.

Actuarial Cost Method: Projected Unit Credit

A method under which the projected benefits of each individual included in an actuarial valuation are allocated by a consistent formula to valuation years. The actuarial present value of benefits allocated to a valuation year is the normal cost. The actuarial present value of benefits allocated to all periods prior to a valuation year is called actuarial accrued liability. Under this method, the Actuarial Gains (losses), as they occur, generally reduce (increase) the unfunded Actuarial Accrued Liability.

Actuarial Methods and Assumptions (continued)

Significant Benefits Not Recognized: None

As required by Section 404(l) of the Internal Revenue Code, the current compensation used to determine retirement benefits for each participant has been limited to \$265,000.

Prescribed Assumption or Method Set by Law or Legally Binding Authority:

Note that all references to the Pension Protection Act of 2006 (PPA) include subsequent amendments to that Act, and associated regulations.

- Mortality for Healthy Lives – Minimum/Maximum Funding*
- Mortality Improvement – Minimum/Maximum Funding*
- Interest Rate – Minimum Funding (including lookback month)*
- Interest Rate – Maximum Funding (including lookback month)*
- Expenses (explicit assumption required by PPA)
- Asset Valuation Method *
- Funding Method (required by PPA)

*Default under the Pension Protection Act (PPA) of 2006 unless the plan sponsor made a written election of a permitted alternative.

Prescribed Assumption or Method Set by Another Party:

- Mortality and Mortality Improvement – ASC 960 (selected by the plan sponsor)
- Interest Rate – ASC 960 (selected by the plan sponsor)

2016 Form 5500 Sch SB Line 25 - Change in Method

A change in funding method has occurred as the result of a change to the enrolled actuary and business organization providing actuarial services to the Plan. Effective for the 2016 plan year, Mark C. Mistretta, enrollment number 14-06565 of Willis Towers Watson, has been replaced by Robert Crnjarich, enrollment number 17-05141 of Cowden Associates, Inc. as the enrolled actuary for the Plan.

Automatic approval for this funding method change is granted under provisions of IRS Announcement 2015-3. Conditions required by Announcement 2015-3 are satisfied as follows:

1. There has been a change in both the enrolled actuary for the plan and in the business organization providing actuarial services to the plan;
2. The new funding method for the 2016 plan year is substantially the same as the method used by Willis Towers Watson for the 2015 plan year. The method in both cases is traditional unit credit.
3. The funding target and target normal cost as of July 1, 2015 as calculated by Cowden Associates are both within 5% of those values as determined by Willis Towers Watson.
4. The actuarial value of plan assets determined as of July 1, 2015 by Cowden Associates is within 5% of the value determined by the Willis Towers Watson.
