Micro Plastics, Inc. Employee Stock Ownership Plan
Flippin, Arkansas

Report on the Financial Statements

We have audited the accompanying financial statements of Micro Plastics, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of June 30, 2017 and 2016, and the related statements of changes in net assets available for benefits for the year ended June 30, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2017 and 2016, and the changes in net assets available for benefits for the year ended June 30, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Part IV, Line 4i, Schedule of Assets (Held at End of Year), is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1) PLAN DESCRIPTION

The following description of the Micro Plastics, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan and Trust agreement for more complete information.

General

Micro Plastics, Inc. (the "Company") established the Plan effective as of July 1, 1978. As of July 1, 2012 the Plan was amended and restated and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code ("IRC") of 1986, and is subject to applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is an employee stock ownership plan covering substantially all full-time employees who have one year of service and are age twenty-one or older. The Plan is administered by an Administrative Committee comprising three persons appointed by the Company's board of directors, two of which are the Plan's trustees. The trust department of an independent third-party bank is the Plan's custodian (the "Custodian").

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions or forfeitures for such year.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated, non-vested account balances allocated to remaining participants at June 30, 2017 were $3. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest twenty percent per year of service and are one hundred percent vested after five years of service.

1) PLAN DESCRIPTION (continued)

Payment of Benefits

Participants or beneficiaries will be eligible to receive one hundred percent of their account balance under the following circumstances: (1) upon reaching normal retirement age (anniversary date coinciding with the following sixty-fifth birthday); (2) upon reaching late retirement date (anniversary date coinciding with their actual retirement date after reaching normal retirement age); (3) upon death; and (4) upon disability. If employment is terminated for any reason other than those listed above, the participant is entitled to only their vested interest. The vested amount will be kept in a separate account and continue to receive an allocation of income or loss in the separate investment account. Distributions of these funds will be made within the one year period after the close of the fifth Plan year after separation. The Administrative Committee may direct the Custodian to pay the terminated employee his vested interest at an earlier point in time after separation from service. If this distribution is greater than $1,000, written consent of the participant is required. Distributions may be made as a lump-sum payment in cash or in installment payments of cash over a period of five years (or such longer period as elected, in writing, by the Participant or Beneficiary), or if a participant elects, in the form of Company common shares plus cash for any fractional shares.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2017, the Company repurchased from participants 596 shares at prices determined from the independent appraisal.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify, can choose from one of three subfunds. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

1) PLAN DESCRIPTION (continued)

Employer Contributions
Each year the Company determines the amount, if any, of Company contributions to the Plan. The amount of the contribution is at the Company's discretion. The Plan does not permit voluntary participant contributions.

Voting Rights
Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Administrative Committee to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
The shares of Company stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported using the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses
As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid these expenses for the Plan.

Date of Management Review
The Administrative Committee has evaluated events and transactions for potential recognition or disclosure in the financial statements through April 2, 2018, the date the financial statements were available to be issued. The Administrative Committee is not aware of any subsequent events that require further disclosure other than the stock sell at Note 9.

3) INVESTMENTS

The Plan's investments, at June 30, are presented in the following table:

	June 30, 2017	June 30, 2016
Common stock - Micro Plastics, Inc.		
Number of shares	67,871.61	67,871.61
Cost	$ 563,094	$ 563,094
Estimated fair value	$ 3,444,484	$ 2,900,154

4) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4) FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2017 and 2016:

	Assets at Fair Value as of June 30:			
	2017		2016	
	Level 3	Total	Level 3	Total
Investment in Micro Plastics, Inc. common stock	$ 3,444,484	$ 3,444,484	$ 2,900,154	$ 2,900,154
Total assets at fair value	$ 3,444,484	$ 3,444,484	$ 2,900,154	$ 2,900,154

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended June 30, 2017.

	Investment in Micro Plastics, Inc. common stock
Balance, beginning of year	$ 2,900,154
Unrealized loss relating to instruments still held at the reporting date	544,330
Balance, end of year	$ 3,444,484
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 544,330

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at June 30, 2017 and 2016.

The fair value of the Micro Plastics, Inc. common stock held by the Plan is valued at estimated fair market value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The income approach included unobservable inputs, such as: Earnings before Income Taxes, Depreciation, and Amortization ("EBITDA"), net income, discount rate, and discount for lack of marketability and control. The market approach included unobservable inputs, such as, public company comparables and EBITDA multiples. The independent appraiser took both a discount for lack of control and marketability.

4) FAIR VALUE MEASUREMENTS (continued)

The Administrative Committee accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Once the report is complete, the Administrative Committee receives a draft copy. The Administrative Committee will review the draft report for accuracy of the numbers and calculations, the methods used, and the reasonableness of the valuation inputs. Once the report is approved by the Administrative Committee, the final report is issued by the appraiser.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 11, 2014, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Administrative Committee and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires the Administrative Committee to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Administrative Committee has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6) RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. As described in Note 2, the Company pays all Plan expenses. These are considered related party and party in interest transactions. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

7) RISKS AND UNCERTAINTIES

The Plan investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8) PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

9) SUBSEQUENT EVENT

On November 1, 2017, the trustees of the Plan and the administrative committee resigned effective immediately. A new trustee was appointed as the sole trustee and as independent fiduciary of the Plan. On December 12, 2017, the Plan sponsor and trustee of the Plan sold all the stock of the Company including shares held within and outside the Plan to a third party, thus terminating the Plan.
