Period from January 1, 2017 through May 1, 2017

1. DESCRIPTION OF PLAN

The following description of the Agilux Laboratories Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all employees of Agilux Laboratories, Inc. (the "Plan Sponsor"). The Plan was established on January 1, 2008, and was most recently amended effective May 1, 2017. The Accounting Manager of the Company served as the Plan Administrator. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Reliance Trust Company ("Trustee") served as the trustee.

Merger

In connection with the acquisition of the Plan Sponsor, a decision was made on September 27, 2016 by Plan Sponsor management, and became effective May 1, 2017, to merge the Plan into the Charles River Laboratories, Inc. Savings/Plus 401(k) Plan ("Charles River Plan"). As a result, participants' account balances, totaling \$3,088,516, were transferred to the Charles River Plan on May 1, 2017.

Eligibility

All employees of the Company who were age 21 or older were eligible to participate in the Plan beginning the first day of the month following the date the eligibility requirements were met. In conjunction with the merger of the Plan, subsequent to September 27, 2016, no new employees were eligible to enter the Plan.

Participant Contributions

Participants were allowed to contribute up to 90% of eligible compensation, and not less than 1% of eligible compensation, subject to statutory limits, as defined. The Plan also permitted Roth elective deferrals. Participants who had attained the age of 50 before the end of the plan year were eligible to make catch-up contributions. Participants were also allowed to contribute amounts representing distributions from other qualified plans or individual retirement accounts ("rollover contributions"). Unless otherwise selected, eligible employees were automatically enrolled at 3% of their eligible compensation. In conjunction with the merger of the Plan, subsequent to September 27, 2016, participants were no longer able to contribute to the Plan.

Employer Contributions

The Company, at its discretion, was allowed to elect to contribute a nonelective contribution. Any nonelective contributions were allocated to participants based on eligible compensation during that plan year. No Company nonelective contributions were made to the Plan during the period from January 1, 2017 through May 1, 2017.

Period from January 1, 2017 through May 1, 2017

1. DESCRIPTION OF PLAN...continued

Participant Accounts

Individual accounts were maintained for each plan participant. Each participant's account was credited with the participant's contributions and allocations of (a) the Company's discretionary nonelective contribution and, (b) Plan investment earnings or losses, and charged with an allocation of administrative expenses based on a pro rata basis determined using the participant's account balance. The benefit to which a participant is entitled was the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions, including rollovers, plus actual earnings thereon. Vesting in the Company's discretionary nonelective contributions plus earnings thereon was based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6+	100%

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant could elect to have received an amount equal to the value of his or her vested account, either (a) in a lump-sum payout, (b) have the payment paid as a direct rollover to his or her individual retirement account or (c) to another employer's tax qualified plan. Participants with a vested account greater than \$5,000 could also have chosen to receive installments over a period of time or requested a partial withdrawal. Upon termination, if a participant's vested account was less than \$1,000, the plan administrator, after notification, distributed the benefit to the participant.

In-service withdrawals were allowed upon attainment of age 59½ from a participant's vested account balance. In-service hardship withdrawals were permitted from a participant's elective deferral contribution account, without respect to earnings thereon as defined, and vested nonelective contribution account, after exhausting the maximum amount available to the participant as a loan under the Plan. Participant deferral contributions would be suspended for six months upon receipt of a hardship withdrawal.

All distributions were subject to the applicable provisions of the Plan.

Upon the decision to merge the Plan, participants were provided the opportunity to elect a full distribution of their account balance or to rollover their account balance to another qualified plan. If no election was made by the participant as of April 24, 2017, the participant's funds were transferred to the Charles River Plan.

1. DESCRIPTION OF PLAN...continued

Investment Elections

Each participant directed the investment of their account among a selection of registered investment companies offered under the Plan. Participants could have elected to transfer all or part of their account balances among the investment options at any time. Contributions may have been diversified among one or more of the investments.

Forfeited Accounts

Forfeitures represented the non-vested portion of terminated participants' account balances. Forfeited accounts were used to pay administrative expenses. There were no amounts forfeited during the period from January 1, 2017 through May 1, 2017. As of May 1, 2017 and December 31, 2016, there were no forfeited non-vested accounts.

Administrative Expenses

The Plan's sponsor paid certain costs, charges and expenses, incurred by the trustees, in connection with the administration of the Plan; however, the sponsor could have elected to have the trustees pay the expenses with plan assets. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Certain administrative functions were performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The financial statements have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board ("FASB"). The FASB sets generally accepted accounting principles ("GAAP") to ensure net assets available for plan benefits and changes in net assets available for plan benefits are consistently reported. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification ("FASB ASC").

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There are no investments remaining in the Plan as of May 1, 2017 due to the merger into the Charles River Plan.

Notes to Financial Statements

Period from January 1, 2017 through May 1, 2017

2. SIGNIFICANT ACCOUNTING POLICIES...continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. In the statement of changes in net assets available for plan benefits, the Plan presents net appreciation in the fair value of investments, which consists of the realized gains and losses and the unrealized appreciation depreciation on those investments.

Fair Value Measurements

The Plan follows the guidance within FASB ASC 820 – *Fair Value Measurements and Disclosures*, which defines fair value, and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Plan in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Plan uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques

Following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in the methodologies used during the current period.

Mutual Funds

Fair value of shares of mutual funds are determined using the quoted prices in active markets. These securities are categorized in Level 1 as they are actively traded and no valuation adjustments have been applied.

Agilux Laboratories Inc. 401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

Period from January 1, 2017 through May 1, 2017

2. SIGNIFICANT ACCOUNTING POLICIES...continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits

Benefits are recorded when paid to the participants.

Income Taxes

GAAP requires plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2014.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are reported as a liability with a corresponding reduction to contributions.

The Plan has obtained an opinion letter from the IRS dated July 8, 2014, stating that the form of the ADP prototype plan, as then designed, was in compliance with the applicable requirements of the Code.
