A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

General

The following description of the United Mortgage Corp. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of United Mortgage Corp. (the Company). The original Plan was established effective January 1, 2013 by the Company for the benefit of its employees and the employees of any affiliated employer to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan was amended and restated July 8, 2014. Employees are eligible to become a participant in the Plan on the date when the employee attains age 21 and completes six consecutive months of service. Plan entry dates is the 1st day of the month following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the plan. The statements of net assets available for benefits presents the fair value, which approximates contract value, of the investment contract. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Tax Status

The Plan obtained its latest determination letter on July 8, 2014 in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan's open tax years subject to examination by taxing authorities include the years ended December 31, 2014 and 2013.

Participants' Accounts

Each participant's account is credited with the participant's contribution, as well as allocations of the Plan's earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts at a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's vested account. The interest rate will be based on the rates available for similar notes from commercial lending institutions. Principal and interest is paid ratably through monthly payroll deductions. Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. The Plan determines the Plan's valuation policies utilizing information provided by the investment advisors, and custodians. Investments representing 5 percent or more of net assets are separately identified in the statements of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis, which approximates the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions

Participants have the option to make before-tax contributions and qualified Roth contributions to the Plan of up to 90% of each participant's compensation, as defined by the Plan and subject to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their elective deferral percentages and may terminate their elective deferrals at any time. The Company may make discretionary matching and non-elective contributions each year. The Company did not make any discretionary matching or non-elective contributions for the year ended December 31, 2015.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants will vest in Company discretionary matching and non-elective contributions based on the participant's years of service with the Company. A year of service is defined as 1,000 hours of service during a plan year. Company discretionary matching and non-elective contributions are vested over a six year period pursuant to the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

Forfeited Accounts

There were no forfeited non-vested accounts at December 31, 2015 and 2014. Forfeitures are used to pay plan year expenses. Any forfeitures left after paying plan expenses will be used to reduce future employer contributions. During 2015, no forfeitures were used to reduce plan expenses and employer contributions.

Payment of Benefits

Benefits are recorded when paid. On termination of service due to death, disability or retirement, a participant may elect to receive the vested interest of his or her account as a lump sum payment, as installment payments over a specified period of time (annually, quarterly or monthly), not exceeding the participants' life expectancy or joint life expectancy with their designated beneficiary, or as part lump sum and part installment payments.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Excess Contributions Payable
Amounts payable to participants totaling $14,445 and $24,200 for contributions in excess of amounts allowed by the IRS are recorded as excess contributions payable at December 31, 2015 and 2014, with a corresponding reduction to the 2015 and 2014 contributions, respectively. The Plan distributed the excess contributions prior to March 15 of the following year.

Plan Termination
Although it does not intend to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Reclassifications
Certain reclassifications have been made to prior year balances to conform to the current year financial statement presentation.

B. TRUSTEE AND ADMINISTRATIVE SERVICES

State Street Bank and Trust Company (the Trustee) provides services which included executing participants' investment transactions and the payment of benefits. The Trustee provided 2015 and 2014 fund summaries by investment type to the administrators, which were used to prepare the Plan's financial statements.

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Trustee as of and for the years ended December 31:

	2015	2014
Investments, at fair value	$ 1,311,067	$ 702,973
Notes receivable from participants	$ 59,397	$ 33,112
Net depreciation in fair value of investments	$ (89,302)	
Dividend and interest income	$ 69,343	
Interest income on notes receivable from participants	$ 1,677	

The Company pays the Plan's accounting fees and certain administrative fees. The Company incurred $10,000 for accounting and administrative fees during the year ended December 31, 2015. These fees are not reflected in the accompanying financial statements.

C. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board Statement No. 820, *Fair Value Measurements and Disclosures*, (ASC 820) defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not assumptions specific to the entity.

ASC 820 specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon the market data obtained from independent sources (observable inputs). In accordance with ASC 820, the following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs – Inputs other than the quoted market prices in active markets that are both observable either directly or indirectly.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methods or assumptions to estimate the fair value of certain financial statement items could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such items existed, or had such items been liquidated, and those differences could be material to the financial statements.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Assets Measured at Fair Value

The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2015:

Description	Level 1	Level 2	Level 3	Total
Mutual funds:				
Equity funds	$ 589,671	$ -	$ -	$ 589,671
Fixed income funds	41,752	-	-	41,752
Retirement income funds	545,323	-	-	545,323
Total mutual funds	1,176,746	-	-	1,176,746
Common collective trusts	66,684	67,637	-	134,321
Total assets at fair value	$ 1,243,430	$ 67,637	$ -	$ 1,311,067

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Assets Measured at Fair Value (Continued)
The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Mutual funds:				
Equity funds	$ 358,425	$ -	$ -	$ 358,425
Fixed income funds	38,959	-	-	38,959
Retirement income funds	273,177	-	-	273,177
Total mutual funds	670,561	-	-	670,561
Common collective trusts	30,840	1,572	-	32,412
Total assets at fair value	$ 701,401	$ 1,572	$ -	$ 702,973

Due to their short-term nature, the carrying value of short-term receivables and payables approximate their fair value as of December 31, 2015 and 2014.

E. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee and therefore these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment. The Company pays directly any other fees related to the Plan's operations. These party in interest transactions are exempt from the prohibited transactions rules of ERISA.

F. RECONCILIATIONS OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

For the year ended December 31, 2015, the Plan filed its Form 5500 on a cash basis. The reconciliation between the annual Form 5500 and the financial statements is as follows for the year ended December 31, 2015:

	Net Assets	Changes in Net Assets
Per Form 5500	$ 1,370,464	$ 634,359
Excess contribution payable	(14,445)	9,775
Per financial statements	$ 1,356,019	$ 644,134

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

General

The following description of the United Mortgage Corp. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of United Mortgage Corp. (the Company). The original Plan was established effective January 1, 2013 by the Company for the benefit of its employees and the employees of any affiliated employer to qualify under Section 401(k) of the Internal Revenue Code (IRC). The Plan was amended and restated July 8, 2014. Employees are eligible to become a participant in the Plan on the date when the employee attains age 21 and completes six consecutive months of service. Plan entry dates is the 1st day of the month following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the plan. The statements of net assets available for benefits presents the fair value, which approximates contract value, of the investment contract. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Tax Status

The Plan obtained its latest determination letter on July 8, 2014 in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan's open tax years subject to examination by taxing authorities include the years ended December 31, 2014 and 2013.

Participants' Accounts

Each participant's account is credited with the participant's contribution, as well as allocations of the Plan's earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts at a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's vested account. The interest rate will be based on the rates available for similar notes from commercial lending institutions. Principal and interest is paid ratably through monthly payroll deductions. Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. The Plan determines the Plan's valuation policies utilizing information provided by the investment advisors, and custodians. Investments representing 5 percent or more of net assets are separately identified in the statements of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis, which approximates the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions

Participants have the option to make before-tax contributions and qualified Roth contributions to the Plan of up to 90% of each participant's compensation, as defined by the Plan and subject to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their elective deferral percentages and may terminate their elective deferrals at any time. The Company may make discretionary matching and non-elective contributions each year. The Company did not make any discretionary matching or non-elective contributions for the year ended December 31, 2015.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants will vest in Company discretionary matching and non-elective contributions based on the participant's years of service with the Company. A year of service is defined as 1,000 hours of service during a plan year. Company discretionary matching and non-elective contributions are vested over a six year period pursuant to the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years but less than 3 years	20%
3 years but less than 4 years	40%
4 years but less than 5 years	60%
5 years but less than 6 years	80%
6 years or more	100%

Forfeited Accounts

There were no forfeited non-vested accounts at December 31, 2015 and 2014. Forfeitures are used to pay plan year expenses. Any forfeitures left after paying plan expenses will be used to reduce future employer contributions. During 2015, no forfeitures were used to reduce plan expenses and employer contributions.

Payment of Benefits

Benefits are recorded when paid. On termination of service due to death, disability or retirement, a participant may elect to receive the vested interest of his or her account as a lump sum payment, as installment payments over a specified period of time (annually, quarterly or monthly), not exceeding the participants' life expectancy or joint life expectancy with their designated beneficiary, or as part lump sum and part installment payments.

A. DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Excess Contributions Payable
Amounts payable to participants totaling $14,445 and $24,200 for contributions in excess of amounts allowed by the IRS are recorded as excess contributions payable at December 31, 2015 and 2014, with a corresponding reduction to the 2015 and 2014 contributions, respectively. The Plan distributed the excess contributions prior to March 15 of the following year.

Plan Termination
Although it does not intend to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Reclassifications
Certain reclassifications have been made to prior year balances to conform to the current year financial statement presentation.

B. TRUSTEE AND ADMINISTRATIVE SERVICES

State Street Bank and Trust Company (the Trustee) provides services which included executing participants' investment transactions and the payment of benefits. The Trustee provided 2015 and 2014 fund summaries by investment type to the administrators, which were used to prepare the Plan's financial statements.

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the Trustee as of and for the years ended December 31:

	2015	2014
Investments, at fair value	$ 1,311,067	$ 702,973
Notes receivable from participants	$ 59,397	$ 33,112
Net depreciation in fair value of investments	$ (89,302)	
Dividend and interest income	$ 69,343	
Interest income on notes receivable from participants	$ 1,677	

The Company pays the Plan's accounting fees and certain administrative fees. The Company incurred $10,000 for accounting and administrative fees during the year ended December 31, 2015. These fees are not reflected in the accompanying financial statements.

C. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board Statement No. 820, *Fair Value Measurements and Disclosures*, (ASC 820) defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not assumptions specific to the entity.

ASC 820 specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon the market data obtained from independent sources (observable inputs). In accordance with ASC 820, the following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs – Inputs other than the quoted market prices in active markets that are both observable either directly or indirectly.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methods or assumptions to estimate the fair value of certain financial statement items could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such items existed, or had such items been liquidated, and those differences could be material to the financial statements.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Assets Measured at Fair Value

The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2015:

Description	Level 1	Level 2	Level 3	Total
Mutual funds:				
Equity funds	$ 589,671	$ -	$ -	$ 589,671
Fixed income funds	41,752	-	-	41,752
Retirement income funds	545,323	-	-	545,323
Total mutual funds	1,176,746	-	-	1,176,746
Common collective trusts	66,684	67,637	-	134,321
Total assets at fair value	$ 1,243,430	$ 67,637	$ -	$ 1,311,067

D. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

Assets Measured at Fair Value (Continued)
The following are the major categories of assets measured at fair value on a recurring basis as of December 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Mutual funds:				
Equity funds	$ 358,425	$ -	$ -	$ 358,425
Fixed income funds	38,959	-	-	38,959
Retirement income funds	273,177	-	-	273,177
Total mutual funds	670,561	-	-	670,561
Common collective trusts	30,840	1,572	-	32,412
Total assets at fair value	$ 701,401	$ 1,572	$ -	$ 702,973

Due to their short-term nature, the carrying value of short-term receivables and payables approximate their fair value as of December 31, 2015 and 2014.

E. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee and therefore these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment. The Company pays directly any other fees related to the Plan's operations. These party in interest transactions are exempt from the prohibited transactions rules of ERISA.

F. RECONCILIATIONS OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

For the year ended December 31, 2015, the Plan filed its Form 5500 on a cash basis. The reconciliation between the annual Form 5500 and the financial statements is as follows for the year ended December 31, 2015:

	Net Assets	Changes in Net Assets
Per Form 5500	$ 1,370,464	$ 634,359
Excess contribution payable	(14,445)	9,775
Per financial statements	$ 1,356,019	$ 644,134

G. SUBSEQUENT EVENTS

Management has evaluated subsequent events through July 28, 2016 the date on which the financial statements were available to be issued.
