Report on the Financial Statements

We have audited the accompanying financial statements of The Dupps Company Retirement Plan, which comprise the statements of net assets available for benefits as of June 30, 2017 and 2016 and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2017 and 2016 and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) and the schedule of reportable transactions for the year ended June 30, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. PLAN DESCRIPTION:

The following brief description of The Dupps Company Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit pension plan covering full-time employees of The Dupps Company (the Company) who completed one year of service, attained 18 years of age and were not covered by a collective bargaining agreement prior to June 30, 2010. The plan is closed to new participants and no additional service is credited to employees after June 30, 2010 for purposes of determining accrued benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension benefits

At age 65, a participant is entitled to his accrued retirement benefit, as defined in the Plan. Employees may elect to defer payment of benefits until the April 1 following the calendar year in which they reach 70-1/2 years of age. A participant qualifies for early retirement when he has completed five years of service and attains age 55. A participant becomes fully vested upon completion of five years of service or when he reaches 65 years of age. Participants may elect to receive the value of their benefits as an annuity payable monthly from retirement, a lump-sum distribution upon retirement or other equal installment payments.

Contributions

The Company's contributions to the Plan are determined by the Plan's actuary. The Plan does not permit employee contributions.

Death benefits

A death benefit will be paid to the beneficiary equal to the lesser of 100 times the projected monthly normal retirement income that would have been payable to the participant at his normal retirement date, or an amount equal to the present value of the accrued benefit as of the date of death.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies followed by the Plan:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated participants or their beneficiaries, (2) beneficiaries of participants who have died, and (3) active participants or their beneficiaries. Benefits under the Plan are calculated using the average of the participant's highest five consecutive years of compensation earned with the Company in the last ten years prior to termination or retirement. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated benefits as of July 1, 2017 and 2016 is determined by an actuary from Findley Davies, Inc. and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of July 1, 2017 and 2016 include: (1) life expectancy of participants determined using a modified version of the RP-2014 mortality table (2) retirement age of 65, (3) investment return of 6.00% and 7.00% for July 1, 2017 and 2016, respectively, and (4) discount rate of 3.85% and 3.40% for July 1, 2017 and 2016, respectively. The foregoing actuarial assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of benefits

Benefit payments are recorded when paid.

Cash equivalents

Cash and cash equivalents include highly-liquid debt instruments with a maturity of three months or less when purchased.

Change in accounting policy

The Financial Accounting Standards Board (FASB) recently issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensus of the FASB Emerging Issues Task Force)." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12 in 2016; in 2017, the Plan adopted Part I of the ASU, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassifications

Certain amounts in the 2016 financial statements have been reclassified to conform to the 2017 presentation.

Subsequent events

The Plan has evaluated subsequent events through the report date, April 11, 2018, the date the financial statements were available to be issued.

3. FUNDING POLICY:

The Company's funding policy is to fund pension cost that at a minimum would satisfy the minimum requirements of ERISA and would be deductible under Section 404 of the IRC. There was a required minimum contribution of \$-0- in 2017 and 2016.

4. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations and the Plan document. Upon termination, it is possible that the net assets will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, at the time. Information concerning payment of benefits if the Plan terminates is available in the Plan's Summary Description.

5. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are shares of mutual funds managed by Principal Trust Company and pooled separate accounts managed by Principal Life Insurance Company. Principal Trust Company and Principal Life Insurance Company are the custodians as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Prior to March 2017, UBS Financial Services, Inc. managed certain Plan investments. Representatives of The Dupps Company serve as the Plan's trustee. Certain accounting and other administrative services are provided by the Company to the Plan at no charge.

6. ACCUMULATED PLAN BENEFITS:

The actuarial present value of accumulated plan benefits as of the end of the plan year is as follows:

	<u>2017</u>	<u>2016</u>
Vested:		
Retired participants and beneficiaries receiving benefits	\$ 2,575,884	2,762,669
Other participants	<u>10,696,801</u>	<u>13,645,674</u>
Actuarial present value of accumulated plan benefits	\$ <u>13,272,685</u>	<u>16,408,343</u>

Changes in accumulated plan benefits based on beginning of the year actuarial valuation is as follows:

	<u>2017</u>	<u>2016</u>
Actuarial present value of accumulated plan benefits at beginning year	\$ 16,408,343	14,317,125
Increases (decreases) during the plan year attributable to:		
Net benefits accumulated, including actuarial gains and losses	560,059	162,987
Increase for interest due to the decrease in the discount period	502,791	599,074
Change in actuarial assumptions	(930,465)	2,107,696
Benefits paid	<u>(3,268,043)</u>	<u>(778,539)</u>
Net increase (decrease)	<u>(3,135,658)</u>	<u>2,091,218</u>
Actuarial present value of accumulated plan benefits at the end of year	\$ <u>13,272,685</u>	<u>16,408,343</u>

7. TAX STATUS:

The Internal Revenue Service has determined and informed the Company by letter dated September 6, 2013 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

8. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016.

Registered investment companies: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish the daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed actively traded.

Pooled separate accounts: Pooled separate accounts are held in investment contracts with the custodian and are invested according to the stated objectives of the various accounts. The principal is not guaranteed. The pooled separate accounts are valued at the net asset value, which is based on the market value of its underlying investments. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily.

The carrying amounts of financial instruments including cash and cash equivalents and contributions receivable approximated fair value as of June 30, 2017 and 2016, because of the relatively short maturity of these instruments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Assets at Fair Value at June 30, 2017					
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	Assets at <u>NAV</u>	<u>Total</u>
Registered investment companies	\$ 6,984,408	-	-	-	6,984,408
Pooled separate accounts	<u>-</u>	<u>-</u>	<u>-</u>	<u>7,758,533</u>	<u>7,758,533</u>
Total investments at fair value	\$ <u>6,984,408</u>	<u>-</u>	<u>-</u>	<u>7,758,533</u>	<u>14,742,941</u>

<u>Assets at Fair Value at June 30, 2016</u>

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that the changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement of Actuarial Assumptions and Methods

Interest Rates	Funding: 24-month segment rates averaged through the end of February 2016 and published in March 2016:			
		Before MAP-21/ HATFA	Reflecting MAP-21/ HATFA	
	a.	First Rate, Years 1-5	1.46%	4.43%
	b.	Second Rate, Years 5-20	3.93%	5.91%
	c.	Third Rate, Years 20+	4.94%	6.65%
	d.	Effective Interest Rate using the above rates	3.90%	5.86%
	e.	Interest rate for developing expected value of assets, (before applying statutory cap)		7.00%
Salary Scale	N/A			
Mortality	Funding: RP-2000 static, non-generational Mortality Table as described in Regulation 1.430(h)(3) projected by Scale AA (male and female) with different rates for annuitants and nonannuitants.			
Rates of Retirement	100% at the later of the valuation date and Normal Retirement Age.

		40	7.75	
		45	6.35	
		55	1.55	

Appendix B (Continued)

<i>Assumptions Made In Valuing Spouse's Benefit</i>	One hundred percent of the employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.
<i>Annual Increases to Maximum Benefits and Plan Compensation Limits</i>	None.
<i>Annual Increases to Social Security</i>	None.
<i>Provision for Expenses</i>	The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year plus PBGC premiums for the current year, were included in the Target Normal Cost for minimum contribution purposes. None are expected for 2016-2017.
<i>Asset Method</i>	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.

Appendix B (Continued)

<i>Standing Elections</i>	The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
<i>Employees Valued</i>	Only participants as of the valuation date were valued.
<i>Optional Form of Benefit</i>	Ten percent are assumed to elect a life annuity at retirement. Ninety percent are assumed to take a lump sum.
<i>Selection of Assumptions</i>	Information used in the analysis of selecting assumptions include: discount rate – Citi Group yield curve; expected return on assets – review of historical and expected returns on various asset categories held by the plan as well as information provided by the plan’s investment advisor. The segment rates and mortality table used to determine minimum funding and funded ratios were based on methodology mandated by Internal Revenue Code and rates published by the Internal Revenue Service to affect it.
<i>Changes in Assumptions and Methods since the Last Actuarial Valuation</i>	The segmented interest rates used for determining the funding target were 4.72%, 6.11% and 6.81%. These rates were updated to the rates required for the current plan year and adjusted as required by HATFA. The mortality table for the funding target was changed as required under PPA '06.
<i>Justification for Changes in Actuarial Assumptions</i>	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any “Change in Actuarial Assumptions.”

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
