Note 1: Description of Plan

The following description of General Air Service & Supply Co. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of General Air Service & Supply Co. (the Company). Employees are eligible for participation in the Plan on the first day of the month after becoming an employee. Participants must be 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was adopted on November 1, 1994, and restated on March 1, 2015. The Plan is designed to comply with the requirements of Section 401(k) of the Internal Revenue Code of 1986, as amended, (the Code). Under the Code, participants are not liable for federal income taxes on employee contributions, company contributions, or plan earnings until such time as they are partially or completely withdrawn from the Plan. The plan administrator is responsible for oversight of the plan and determining and monitoring investments.

Contributions

Participants may elect to contribute a percentage of their pretax annual compensation as defined in the Plan. Contributions are subject to certain limitations and are invested at the direction of the participant. Participants may also contribute amounts representing distributions from other qualified plans. The Plan currently offers twenty-seven mutual funds and one guaranteed interest contract with an insurance company as investment options for participants. Employees are eligible to receive discretionary contributions and qualified non-elective contributions from the employer after working at least 1,000 hours and being an active participant on the last day of the Plan year, or was an active participant at any time during the Plan year and dies, reaches the normal retirement age, becomes disable, or becomes disabled or dies while performing qualified military service. The Company may make discretionary matching contributions. The Company may also make discretionary contributions and qualified non-elective contributions based on certain formulas as defined in the Plan. The Company did not make any additional profit sharing contributions to the Plan during the year ended October 31, 2017.

Participant Accounts

Each participant's account is adjusted by the following increases and decreases: (a) Plan earnings; (b) payment of benefits; (c) increase (or decrease) in the fair value of applicable investments; (d) Company contributions; (e) participant contributions; and (f) administrative expenses incurred in the operations and maintenance of the Plan and its investments. Allocations to each participant's account are based on participant earnings to total plan earnings as defined in the Plan. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Note 1: Description of Plan, continued

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contributed portion of their accounts, plus actual earnings thereon, is based on years of service. A participant is 20% vested after two years, with a 20% increase each succeeding year until becoming fully vested after the sixth year of service. Participants are 100% vested in the Company's contributions upon death, disability, reaching the normal retirement age, or becomes disabled or dies while performing qualified military service.

Administration of Plan Assets

Contributions are held and managed by the custodian, who invests cash received, allocates interest and dividend income, and makes distributions to participants. Employees of the Company perform certain administrative functions for the Plan. Such employees do not receive compensation from the Plan. Substantially all administrative expenses are paid directly by the Company.

Notes Receivable from Participants

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. The term for the repayment of the loan may not exceed five years, unless the loan qualifies as a principal residence home loan. The loans are secured by the vested balance in the participant's account and bear interest at a rate based on the rates for similar loans from commercial lending institutions. There can only be two loans granted during any one-year period and only three loans may be outstanding at a time. At October 31, 2017 and 2016, total loans to participants were $171,702 and $123,493, respectively.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

On termination of service due to death, disability, retirement, or withdrawal from the Plan, a participant may elect to receive a lump-sum cash payment, an annuity lump sum payment, periodic payments, or a direct rollover to another qualified retirement plan in an amount equal to the participant's vested interest in his or her account as described in the Plan document. Benefits are recorded when paid.

Note 1: Description of Plan, continued

Forfeitures

Forfeitures shall be used to first pay plan expenses and then to offset the Company's first contribution made after the forfeiture is determined. Forfeitures for the years ended October 31, 2017 and 2016 were $92 and $25, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting from information supplied by the Company, the plan administrator, and the custodian.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment from contract value to fair value. The statement of changes in net assets available for benefits is prepared using fair value for the investment contract. The Plan has no fully benefit-responsive investment contracts at October 31, 2017 and 2016.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at net asset value based on quoted market values determined at the close of each business day. Shares of mutual funds are valued at quoted market prices, which represent the fair value of shares held by the Plan at year-end. The fair value of guaranteed investment contracts represents the contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Note 2: Summary of Significant Accounting Policies, continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of October 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant ceases to make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Corrective Distributions

Based on compliance testing performed for actual deferral percentage and actual contribution percentage, corrective distributions were made after the Plan's year end for the participants whose contributions were greater than allowable limits for the year ended October 31, 2017. These corrective distributions are classified as liabilities on the statements of net assets available for benefits for a total of $-0- and $2,517 as of October 31, 2017 and 2016, respectively.

Payments of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in administrative expenses.

Note 3: Fair Value of Financial Instruments

Some of the Plan's investments are reported at fair value in the accompanying statements of net asset available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

Note 3: Fair Values of Financial Instruments, continued

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used do measure fair value. This hierarchy consist of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs are based upon quoted market prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model based valuation techniques. Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure fair value of its investments. The Plan had no Level 2 investments at October 31, 2017 and 2016.

Level 3 Fair Value Measurements

Level 3 securities consist of guaranteed investment contracts. The fair market value of the contracts is the value paid when the funds are withdrawn. Prior to their maturity if the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value. If the applicable interest rate is greater than the interest rate on the account the fair market value is the contract value reduced by a multiplier as defined by the investment contract.

The following table set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2017 is as follows:

	Fair value	Level 1	Level 2	Level 3
Guaranteed investment contract	$ 45,883	$ -	$ -	$ 45,883
Mutual fund	1,456,917	1,456,917	-	-
Total investments	1,502,800	$ 1,456,917	$ -	$ 45,883
Investments at NAV	6,463,959			
Total assets	$ 7,966,759			

The following table set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2016 is as follows:

	Fair value	Level 1	Level 2	Level 3
Guaranteed investment contract	$ 45,069	$ -	$ -	$ 45,069
Mutual fund	1,202,482	1,202,482	-	-
Total investments	1,247,551	$ 1,202,482	$ -	$ 45,069
Investments at NAV	5,223,986			
Total assets	$ 6,471,537			

Note 3: Fair Values of Financial Instruments, continued

The following table reconciles the beginning and ending balances of fair value measurements using the significant unobservable inputs (Level 3) of the investment contract with the insurance company for the years ending October 31, 2017 and 2016:

	2017	2016
Beginning balance	$ 45,069	$ 40,858
Total gains	473	598
Interest credited	-	453
Purchases, issuances, and settlements	1,025	5,094
Sales	(684)	(1,934)
Ending balance	$ 45,883	$ 45,069
The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets held at year end	$ 473	$ 598

Gains and losses included in changes in net assets available for benefits for the years ended October 31, 2017 and 2016, are reported in net appreciation or depreciation in fair value of investments. Unrealized gains/(losses) from the guaranteed investment contracts are reported in the statement of changes in net assets available for benefits in their own lines.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended October 31, 2017 and 2016, there were no significant transfers into or out of Level 3.

Note 4: Guaranteed Investment Contract with Custodian

Guaranteed investment contracts are valued at fair value by the insurance company. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit rating. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The custodian maintains group annuity contracts for retirement plans, or guaranteed investment contracts. These contracts provide a guaranteed interest rate for a specified period of time as determined by the Plan. There were no unfunded liabilities at October 31, 2017 and 2016.

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 6: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan is qualified under the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator and sponsor believe the Plan's tax position would be upheld under examination. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits of any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

Note 7: Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds and securities managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by Plan for the investment management services amount to $39,090 for the year ended October 31, 2017. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of October 31:

Note 9: Reconciliation of Financial Statements to Form 5500, continued

Note 10: Summary of Information Furnished by Custodian (Unaudited)

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA, the plan administrator has received certification from the custodian of the Plan as to the accuracy and completeness of certain financial information of the Plan. The following items were provided by, or were derived from data provided by the custodian of the Plan:

Note 11: ERISA Bond Requirements

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the Plan year or $500,000.
