NOTES TO FINANCIAL STATEMENTS

**AS OF JUNE 30, 2017 AND DECEMBER 31, 2016, AND FOR THE PERIOD FROM
JANUARY 1, 2017 TO JUNE 30, 2017**

1. DESCRIPTION OF PLAN

The following description of the Intelligrated, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General—The Plan was a defined contribution plan covering substantially all employees of Intelligrated, Inc. (the "Company"). An employee was eligible to participate in the plan on the first day of the month coinciding with, or immediately following, 90 days of employment, including temporary employees, and upon attaining the age of 18. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended (the "Code").

On August 30, 2016, the Company was acquired by Honeywell International Inc. Effective January 1, 2017, the Company froze the Plan such that no new contributions or new loans were to be made to the Plan and no new employee shall become a participant in the Plan. Contributions reflected in the Statement of Changes in Net Assets Available for Benefits for the period from January 1, 2017 to June 30, 2017 represent employee and employer contribution receivables from the Plan year ended December 31, 2016 that were not remitted to the trust until 2017. On June 30, 2017, the Plan merged with, and the 401(k) assets and participant accounts were fully transferred into, the Honeywell Savings and Ownership Plan.

Contributions—Participants could have elected to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code) and Roth contributions on a post-tax basis. Participants were also permitted to deposit into the Plan rollover distributions from other qualified plans. The Plan provided for employee salary 401(k) contributions up to a maximum of 75% of the annual eligible compensation subject to maximum tax-deferred limitations established by the Code. Employees were automatically enrolled in the Plan at a contribution rate of 4% unless they chose not to defer or chose a different percentage.

The Company made safe harbor matching contributions and matched 100% of the first 4% of participants' eligible deferred compensation. The Company could also have made additional discretionary profit sharing contributions. The Company made no discretionary profit sharing contributions for 2016 or 2017.

Participant Accounts—Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contribution, (b) Plan earnings, (c) forfeited nonvested amounts and (d) administrative fees. Allocations were based upon participants' compensation or account balances, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account balance.

Investments—Participants could have directed the investment of their contribution and/or account balances into various investment options offered by the Plan and could have changed investments and transferred amounts between funds daily.

Vesting—Participants were immediately 100% vested in their 401(k) contributions, catch-up contributions, and rollover contributions, as adjusted for earnings and losses thereon. Participants vested in Company contributions prior to 2013 in accordance with the terms of the Plan and were fully vested after four years of credited service with the Company. Effective January 1, 2013, the Plan adopted a safe harbor amendment. Participants were 100% vested in those safe harbor Company matching contributions immediately.

Forfeited Accounts—In the event a participant terminated employment prior to 100% vesting, a portion of the employer contributions, contributed prior to January 1, 2013, were forfeited in accordance with the terms of the Plan. The Plan permitted the use of forfeitures to either reduce future employer contributions or pay administrative expenses of the Plan. At June 30, 2017, there were no forfeited nonvested accounts. At June 30, 2016, forfeited nonvested accounts totaled \$9,377. During the period from January 1, 2017 to June 30, 2017, the Plan did not use forfeited nonvested accounts to pay employer matching contributions and there were no Plan administrative expenses paid by the Plan using forfeited nonvested accounts.

Participant Notes Receivable—Participants could have borrowed from their account balances a minimum of \$1,000 up to a maximum of \$50,000, or 50% of their account balance, whichever was less. The loans were secured by the balance in the participant's account and bore interest at rates which were commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits—Distributions could generally have been made to a participant upon the participant's retirement, death, or termination of employment with the Company. Upon termination, participants whose accounts had never exceeded \$5,000 would have received a single lump sum distribution. Those with balances greater than \$5,000 could have elected to leave their funds in the Plan or chose other options. Participants were entitled to benefits beginning at normal retirement age (65).

In-service distributions were permissible from the Plan for participants that had obtained the age of 59 1/2. Participants electing in-service distributions could have elected to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship," a participant could have applied to the Plan Administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Code.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan provided various investment options to its participants. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could have materially affected the value of the participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition—The Plan's investments in mutual funds were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The T. Rowe Price Stable Value Common Trust Fund ("the "Fund") was a stable value common collective trust fund sponsored and trustee by T. Rowe Price that invested in benefit-responsive investment contracts that were issued by insurance companies and commercial banks and in contracts that were backed by bond trusts that were selected by T. Rowe Price. The Fund was reported at fair value using net asset value (NAV) as a practical expedient. The Fund calculated NAV per share in a manner consistent with the measurement principles in FASB Accounting Standards Codification Topic 946 *Financial Services—Investment Companies*. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit-responsive investment contracts held by the fund at contract value. This NAV represented the Plan's fair value since this was the NAV at which the Plan transacted with the fund.

The beneficial interest of each participant was represented by units of participation. Units were issued and redeemed daily at the Fund's NAV of \$1 per unit. Distributions of net investment income to unit holders were declared daily and reinvested on the first business day of the following month. It was the expectation of the Fund to maintain a stable net asset value of \$1 per unit, although there was no guarantee that the Fund would be able to maintain this value.

There were no underfunded commitments or restrictions on redemption frequency for the Fund. Participants ordinarily could have directed the withdrawal or transfer of all or a portion of their investment at fair value. The Fund imposed certain restrictions on the Plan. Plan management believed that the occurrence of events that would cause the Fund to transact at less than contract value was not probable.

Limitations on the Ability of the Fund to Transact at Fair Value—Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. The following employer-initiated events could have limited the ability of the Fund to transact at fair value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund
- Any transfer of assets from the Fund directly into a competing investment option

- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

Notes Receivable from Participants—Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses has been recorded at June 30, 2017 or December 31, 2016. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of Benefits—Benefits were recorded when paid. There were no amounts allocated to accounts of persons who had elected to withdraw from the Plan, but had not yet been paid at June 30, 2017. Amounts allocated to accounts of persons who had elected to withdraw from the Plan, but had not yet been paid, were \$46,246 at December 31, 2016.

Administrative Expenses—Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation in fair value of investments.

Subsequent Events—The Plan has evaluated subsequent events through April 13, 2018, which was the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2—Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at June 30, 2017 and December 31, 2016.

Mutual Funds—Valued at the daily closing prices as reported by the funds. The funds held by the Plan were open-ended funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value and to transact at that price. The funds held by the Plan were deemed to be actively traded.

The method described above may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	Investments at Fair Value as of December 31, 2016			
	Fair Value	Level 1	Level 2	Level 3
Mutual funds:				
Equity investments	\$ 118,283,934	\$ 118,283,934	\$ -	\$ -
Fixed-income investments	14,504,925	14,504,925	-	-

Total investments	<u>\$ 239,778,652</u>	<u>\$ 210,437,550</u>	<u>\$ -</u>	<u>\$ -</u>

4. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were mutual funds and a common/collective trust managed by T. Rowe Price, trustee of the Plan; therefore these transactions and related earnings qualified as party-in-interest transactions.

5. PLAN TERMINATION OR MERGER

As described in Note 1, the Company has discontinued its contributions to the Plan as a result of the merger with the Honeywell Savings and Ownership Plan. In addition, participants became 100% vested in their accounts, to the extent they were not already vested.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 11, 2017, that the Plan and related trust were designed in accordance with applicable sections of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of June 30, 2017 and December 31, 2016, and for the period from January 1, 2017 to June 30, 2017, included in the Plan's financial statements, that was prepared by or derived from information prepared by T. Rowe Price, the trustee of the Plan and furnished to the Plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.
