REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the plan administrator of the
Hyspan Precision Products Inc. Employee Stock Ownership Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of the Hyspan Precision Products Inc. Employee Stock Ownership Plan (the Plan), which comprise the Statement of Net Assets Available for Plan Benefits as of June 30, 2017, the related Statement of Changes in Net Assets Available for Plan Benefits for the Year Ended June 30, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risks assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of June 30, 2017, and the changes in its net assets available for plan benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of June 30, 2017, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

HYSPAN PRECISION PRODUCTS INC.
EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements
For the Year Ended June 30, 2017

1. Plan Description

The following description of the Hyspan Precision Products Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

Hyspan Precision Products Inc. (the Company) established the Plan, effective July 3, 2016. The Plan operates, in relevant part, as a leveraged employee stock ownership plan, is designed to comply with Section 4975(e)(7) of the Internal Revenue Code (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On June 29, 2017, the Plan purchased 100 percent of the Company's common stock, a total of 1 million shares, for $46 million, with a cash contribution of $2.8 million and a loan of $43.2 million. The note payable provisions are described in Note 6.

b. Eligibility

Employees of the Company are eligible to participate in the Plan after the completion of one year of service and attaining age 21. Participants are credited with one year of service upon the completion of at least 1,000 hours of service during the plan year.

c. Contributions

The Company is obligated to make cash contributions in amounts sufficient to enable the Plan to make its regularly scheduled payments of principal and interest due on its securities acquisition loan. Participant contributions are not permitted. At June 30, 2017, a receivable was recorded to reflect Company contributions receivable made under Section 404(a)(9) of the IRC in the amount of $3,004,926

d. Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of Company Stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Participants must be employed on the last day of the plan year to receive an allocation. Allocations are based on a participant's eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

e. Vesting

Participants are vested in their accounts based on years of service. Participants are 20 percent vested after the completion of two years of service and then vest 20 percent each following year until 100 percent vested after six years. Participants are credited with a year of service for any plan year during which they complete at least 1,000 hours. Participants become 100 percent vested upon normal retirement, disability, or death.

f. Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in a lump-sum distribution or installments depending on the participant's vested balance. If the value of the participant's vested account is $1,000 or less, the participant generally will receive an automatic distribution from the Plan. Distributions of individual participant benefits are made in a lump sum, with certain exceptions set forth in the plan document.

g. Forfeited Accounts

Forfeitures arising under the Plan are allocated to the accounts of participants who are eligible to receive an allocation of contributions for the plan year that the forfeitures are allocated for.

h. Voting Rights

Each participant is entitled to exercise voting rights in matters involving a proposed merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of a trade or business, or any similar transactions. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee shall vote the shares of the Company Stock which are not allocated to any participant and the shares of allocated Company Stock with respect to which no direction is received from the participants to whose accounts the shares are allocated, on behalf of the collective best interests of plan participants.

i. Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares of Company Stock credited to his or her Company Stock account, less any shares previously diversified. In the sixth year, the percentage increases to 50 percent. The election to diversify can be made within the 90-day period immediately following the close of any plan year.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Reporting Period

As described in Note 1a, the Plan was effective July 3, 2016. To simplify the reporting and improve understandability, these financial statements are being presented as if the Plan were effective for the entire year ended June 30, 2017.

d. Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of participants with rights in allocated stock (allocated) and (b) stock not yet allocated to participants (unallocated), including shares that are committed to be released. Shares are generally released from collateral and become allocated in the period in which debt service is actually paid. The following table presents a summary of the cost and fair value associated with the allocated and unallocated shares of Common Stock as of June 30, 2017.

	2017	
	Allocated	Unallocated
Hyspan Precision Products Inc. common stock:		
Number of shares	108,432	891,568
Cost	$ 5,195,967	$ 42,723,144
Fair value	$ 111,685	$ 918,315

e. Investment Valuation and Income Recognition

The shares of Company Stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net realized and unrealized depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the period.

f. Payment of Benefits

Benefits are recorded when paid.

g. Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan.

h. Subsequent Events

The Plan has evaluated the subsequent events through April 9, 2018, the date the financial statements were available to be issued.

i. New Accounting Pronouncements

The Plan has adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (consensuses of the Emerging Issues Task Force)*.

Among other things, the ASU simplifies employee benefit plan reporting for fully benefit-responsive investment contracts and plan investment disclosures. The amendments to the Accounting Standards Codification (ASC) contained in the ASU are effective for all plan years beginning after December 15, 2015.

The Plan has elected to apply all applicable parts of the ASU in the current period's financial statements. As required under the ASU, the changes have been applied retrospectively to all periods presented. Application of the ASU does not change total net assets available for plan benefits.

i. New Accounting Pronouncements (Continued)

The changes affect the presentation of the financial statements and the information contained in the financial statement disclosures as follows:

- Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for plan benefits and the net appreciation or depreciation in fair value of investments by general type.
- Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to further disaggregate investments by nature, characteristics, and risks for purposes of the financial statement disclosures.
- Parts I and III are not applicable to the Plan.

3. Risks and Uncertainties

The Plan investments consist primarily of Company Stock, which is exposed to various risks, such as interest rate, market, and credit risk, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

4. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

4. Fair Value Measurement (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2017.

Assets at Fair Value as of June 30, 2017

	Level 1	Level 2	Level 3	Total
Investment in Hyspan Precision Products Inc. common stock, at fair value	$ -	$ -	$ 1,030,000	$ 1,030,000

4. Fair Value Measurement (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended June 30, 2017.

Level 3 Assets
For the Year Ended June 30, 2017

		Investment in Hyspan Precision Products Inc. common stock
Balance, beginning of year	$	-
Purchase of 1 million shares of Company Stock		47,919,111
Unrealized losses relating to instruments still held at the reporting date		(46,889,111)
Balance, end of year	$	1,030,000
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$	(46,889,111)

Following is a description of the valuation methodology used for assets measured at fair value.

Hyspan Precision Products Inc. common stock: The stock is valued by an independent appraisal firm since the stock is not publicly traded on an open market. These valuations are used for purposes of determining Company contributions, account adjustments, and all other purposes for which valuations are required under the Plan. The fair value of the Company incorporated indicators using both income and market approaches. In general, the income approach using discounted cash flows was determined to be the most relevant methodology given the nature of the Company. Significant adjustments in the methodology included accruing a premium for control, since the Company's owners exercise operational control over the company, and a minor discount for lack of marketability of the Company given its current capital and ownership structures.

Significant Unobservable Inputs Related to Level 3 Assets at June 30, 2017

Type	Fair value	Valuation technique	Significant unobservable inputs
Hyspan Precision Products Inc. common stock	$1,030,000	Income (discounted cash flow)	EBITDA Discount rate Unlevered cash flow Terminal enterprise value

4. Fair Value Measurement (Continued)

The valuation process involved the appointment of an appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Plan management reviews the report to ensure the appropriate inputs were used based on the information provided by the Company and recalculates appraiser calculations to ensure mathematical accuracy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Exempt Status

Plan administration believe that the Plan terms have been drafted in compliance with IRC Section 401(a). The plan administrator has applied for a determination letter from the Internal Revenue Service (IRS) and is awaiting a response. The Plan is required to operate in conformity with the IRC to maintain its tax exemption. Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator believes that as of June 30, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Note Payable

On June 29, 2017, the Plan entered into a $45,119,111 term loan agreement with the Company. The proceeds of the loan were used to purchase Company Stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 50,000 shares being released and allocated for the year ended June 30, 2017. This agreement provides for the loan to be repaid over 20 years. The carrying amount of the note payable as of June 30, 2017, materially approximates fair value. The note bears interest at a nominal annual rate of 2.68 percent. Payments are scheduled in annual installments. Additional payments may be made pursuant to any contributions the Company makes under Section 404(a)(9) of the IRC. The note is secured by unallocated shares of Company Stock.

6. Note Payable (Continued)

The scheduled amortization of the loan's principal for the next five years is as follows. The table reflects a principal payment on November 30, 2017, pursuant to a Company contribution made under Section 404(a)(9) of the IRC.

November 30, 2017	$ 2,998,300
June 30, 2018	2,288,263
June 30, 2019	1,876,405
June 30, 2020	1,926,692
June 30, 2021	1,978,328
June 30, 2022	2,031,347
Thereafter	32,019,776
	$ 45,119,111

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Upon the termination of the Plan, the plan administrator shall direct the distribution of plan assets to participants in accordance with plan provisions.
