iGate 401(k) Savings Plan

Notes to Financial Statements

June 30, 2017

Note 1 - Plan Description

Plan Description – The following description of iGate 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan for a more complete description of the Plan's provisions.

Plan Merger – On July 1, 2015, the Plan sponsor, iGate Corporation, was purchased by Capgemini. Subsequent to the purchase, management approved the merger of the iGate 401(k) Savings Plan into three separate plans sponsored by Capgemini. On December 30, 2016, approximately \$17.9 million of plan assets were transferred and recognized in the accounts of two of the three plans. The remaining balance of the Plan assets and liabilities were transferred on June 30, 2017. A summary of the plan assets and liabilities transferred on or before June 30, 2017 is as follows:

Investments at fair value	\$ 22,526,107
Notes receivable from participants	468,880
Excess contributions	<u>(754,667)</u>
	<u>\$ 22,240,320</u>

General – The plan was a defined contribution retirement plan sponsored by iGate Corporation. The Plan contained a salary reduction feature under Internal Revenue Code 401(k). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company had established a committee to oversee governance of the Plan. The committee determined the appropriateness of the Plan's investment offerings, monitors performance and reports to the Board of Directors.

Eligibility – Prior to the plan mergers, all employees who joined Capgemini via the acquisition of iGate Technologies, Inc., iGate Global Solutions Limited and CHCS Services, Inc. (collectively the "Company") or were hired into one of these legacy IGATE divisions were eligible to participate in the Plan. During 2015 the plan sponsor was acquired by Capgemini as a wholly owned subsidiary. Participation commenced on the first day of the month after reaching the age of 21.

Participant Contributions – Participants were able to defer and contribute up to 75% of qualified compensation to a maximum of \$18,000 in 2017. Such contributions were not subject to federal income taxes until withdrawn from the Plan, in accordance with Section 401(a) of the Internal Revenue Code (the IRC). Participants were also able to contribute amounts representing distributions from other qualified retirement plans.

Employer Contributions – The Plan allowed for discretionary Company profit-sharing and matching contributions for participants who earned 1,000 hours of service during the Plan year and were employed on the last day of the Plan year. The Plan also allowed for Qualified Non-elective Employer Contributions (QNEC) for participants who were employed on the last day of the Plan year or earned more than 500 hours of service. Company contributions were made at the discretion of the Board of Directors and were subject to limitations imposed by the IRC.

During 2017, the Company approved a matching contribution of 20% of the first 5% of participants' contributions of eligible compensation. The Company contributed \$37,584 for the six months ended June 30, 2017.

Participant Accounts – Each participant's account was credited with the participant's contribution and an allocation of the Company's contribution, plan earnings (based on participant's investment election and account balance), and forfeitures of terminated participants' non-vested accounts. The benefit to which a participant was entitled to was the benefit that could be provided from the participant's vested account balance. All assets of the Plan were participant directed.

Note 1 - Plan Description (Cont.)

Vesting – Participants were immediately vested in their contributions plus related earnings. Matching Company contributions and related earnings were 100% vested. Non-elective Company contributions plus related earnings vested according to the following vesting schedule:

<u>Years of Credited Service</u>	<u>Percent Vested</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Vesting schedules different from above applied to certain participants.

If a participant's employment terminated due to death, disability or retirement, his or her Company contributions and any related earnings became fully vested.

Payment of Benefits – Plan benefits were available at normal retirement age (age 58), deferred retirement, disability retirement, death, or termination of employment. A participant would receive the vested portion of his or her account as a lump-sum payment.

In-Service Withdrawals – The Plan allowed for hardship withdrawals if the withdrawal was due to immediate financial need, as defined in the Plan. The amount of the hardship withdrawal was subjected to certain limitations as specified in the Plan and the Internal Revenue Code. The participant's voluntary contributions were suspended for six months after the receipt of a hardship withdrawal.

Forfeitures – If a participant's employment terminated for any reason other than death, disability or retirement, any portion of that participant's account not then vested would be credited to a forfeiture account. In the year subsequent to employee termination, forfeitures were first to be used for payment of plan expenses. Remaining forfeitures were applied to reduce employer matching contributions.

Notes Receivable from Participants – Participants were allowed to borrow from the Plan. Participants were allowed to borrow amounts not to exceed the lesser of (1) \$50,000, or (2) 50% of their account balance. Repayment terms may not have exceeded five years, although a loan for the purchase of a principal residence may have been repaid over a reasonable period of time greater than five years. A reasonable rate of interest was determined by the Plan Administrator. Principal and interest were paid by regular payroll deductions, at least quarterly. Loans were secured by the balance in the participant's account.

Note 2 - Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are presented on the accrual basis of accounting, except that benefit payments are recognized upon distribution.

Accounting Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurements – The Plan followed the provisions of the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements and Disclosures" (ASC Topic 820), for assets and liabilities that are measured and recorded at fair value on a recurring basis, and to determine fair value disclosures. This standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements (see Note 5).

Note 2 - Significant Accounting Policies (Cont.)

Investment Valuation and Income Recognition – The Plan's investments were stated at fair value, except for a common/collective trust, which was stated at contract value with investment appreciation or depreciation reflected in the statement of changes in net assets available for benefits. See Note 5 for discussion of fair value measurements. The Plan Investment Committee determined the Plan's valuation policies.

Purchases and sales of securities were recorded on a trade-date basis, interest income was recorded on the accrual basis, and dividends were recorded on the ex-dividend date.

Net investment appreciation or depreciation reflected in the statement of changes in net assets available for benefits, included gains and losses on investments bought and sold, as well as investments held during the year and all related to mutual funds.

Notes Receivable from Participants – Notes receivable from participants were measured at their unpaid principal balance plus any accrued unpaid interest. Outstanding loans were considered past due after ninety days, and if the plan administrator considered the participant loan to be in default, the loan balance was reduced, and the delinquent participant note receivable was recorded as a benefit payment upon the occurrence of a distributable event. No allowance for credit losses has been recorded at June 30, 2017 and December 31, 2016.

Plan Expenses – Expenses incurred in the administration of the Plan were primarily paid by the Plan. Recordkeeping fees are paid by the participants.

Payment of Benefits – Benefits were recorded upon distribution.

Excess Contributions – Required payments to be made to active participants to return excess deferral contributions in order to satisfy the relevant nondiscrimination provisions of the Plan were recorded as liabilities in the year the contribution was received.

Evaluation of Subsequent Events – Management has evaluated subsequent events involving the Plan for potential recognition or disclosure in the accompanying financial statements. Subsequent events are events or transactions that occurred after June 30, 2017 up through, April 12, 2018, the date the accompanying financial statements were available to be issued.

Note 3 – Exempt Transactions with a Party-in-Interest

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and others. At December 31, 2016 approximately 21% of Plan investments were shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company was the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. The Plan also issued loans to participants, which were secured by the vested balances in the participants' accounts, and these transactions qualified as exempt party-in-interest transactions. Fees paid by the Plan for investment services amounted to \$38,486 for the six months ended June 30, 2017.

Note 4 – Information Prepared and Certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the trustee, Fidelity Management Trust Company, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

Note 4 – Information Prepared and Certified by the Plan’s Trustee (Cont.)

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified as complete and accurate by the Trustee as of June 30, 2017 and December 31, 2016 and for the period ended June 30, 2017.

Note 5 – Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The frame work for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, “Fair Value Measurement”, are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. There were no significant transfers between Levels 1 and 2, and no transfers into or out of Level 3 for the six months ended June 30, 2017.

Note 5 – Fair Value Measurements (Cont.)

The following is a schedule of the Plan's assets at fair value by category and level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
<u>December 31, 2016</u>				
Shares of registered investment companies (mutual funds)	<u>\$ 20,624,098</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 20,624,098
Common/collective trust, measured at net asset value				<u>1,554,501</u>
Total investments at fair value				<u>\$ 22,178,599</u>

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Shares of Registered Investment Companies – Shares of registered investment companies (mutual funds) are valued at the daily closing prices, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust – Valued using the Net Asset Value ("NAV") provided by the fund manager. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on active markets, and valued at the closing price reported on the active market on which those individual securities are traded. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The significant investment strategies of the fund are described in the financial statements provided by the fund. Participant-directed redemptions have no restrictions, however, the Plan is required to provide a one year redemption notice to liquidate its entire share in the fund.

The following table summarizes investments measured at fair value based on NAV per share.

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
<u>December 31, 2016</u>				
Common/collective trust - Wells Fargo Stable Value Fund	\$ 1,554,501	N/A	Daily	12 months written notice to liquidate entire shares
