Notes to Financial Statements
July 31, 2017 and 2016

Note 1 — Description of Plan

Effective July 1, 1969, Wheel Horse Products, Inc. (the "company") established a defined benefit retirement plan that, as of July 31, 2017, covered 179 former hourly employees of the company who were represented by a collective bargaining unit. The Wheel Horse Products, Inc. Employees' Retirement Plan (the "Plan") is administered by the company's parent, The Toro Company (the "plan administrator" or "plan sponsor"). Plan assets were held by JP Morgan Chase Bank, N.A., as trustee, until August 31, 2016. Beginning September 1, 2016, the Plan assets are held with Wells Fargo Bank, N.A., as trustee.

Pension benefits are paid to participants when their retirement dates are reached. A normal retirement date is the later of the date of a participant's 65th birthday or the date a participant completes five years of credited service. An election can be made for an early, late, or disability retirement date. Normal retirement benefits are paid monthly to the retiree or the surviving spouse of the retiree. Maximum benefits are limited to the lesser of \$215,000 or 100% of the participant's highest average compensation.

A participant who terminates employment and who is not eligible for normal retirement benefits will become eligible for vested termination benefits after five years of vesting service and will become eligible for early retirement benefits after attainment of age 60 with five years of vesting service or attainment of age 55 with 30 years of vesting service.

On March 26, 1993, the Wheel Horse plant closed. This eliminated future service for all employees, and all employees became 100% vested.

The Toro Company is in the business of designing, manufacturing, and marketing professional turf maintenance equipment and services, turf irrigation systems, landscaping equipment and lighting products, snow and ice management products, agricultural irrigation systems, rental and specialty construction equipment, and residential yard and snow thrower products. The Toro Company sells its products worldwide through a network of distributors, dealers, mass retailers, hardware retailers, home centers, as well as online (direct to end-users). The Toro Company absorbs all administrative costs of the Plan, except for the trustee fees.

Note 2 — Summary of Significant Accounting Policies

The accompanying Financial Statements of the Plan are prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") and are presented on the accrual basis of accounting.

Investments

The Plan's investments are held by the trustee. Investments in units of participation in bank deposit accounts or money market funds, when applicable, are stated at cost, which approximates fair value. Investments in mutual funds are stated at fair market value based on quoted market prices of the underlying securities as determined by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation, or depreciation, includes the Plan's gains, or losses, respectively, on investments bought and sold, as well as held during the year and is reflected in the Statements of Changes in Net Assets Available for Benefits. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The Plan categorizes its assets and liabilities into one of three levels based on the assumptions and inputs used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment.

The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

The following tables summarize the Plan's assets and liabilities measured at fair value:

July 31, 2017	Fair Value	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 136	\$ 136	\$ —	\$ —
Diversified mutual funds	5,293,279	5,293,279	—	—
Total assets	\$ 5,293,415	\$ 5,293,415	\$ —	\$ —
<hr/>				
July 31, 2016	Fair Value	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 1	\$ 1	\$ —	\$ —
Fixed income mutual funds	5,352,591	5,352,591	—	—
Total assets	\$ 5,352,592	\$ 5,352,592	\$ —	\$ —

Accounting Estimates

The preparation of the Financial Statements and Supplemental Schedules, when applicable, in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, accumulated Plan benefits, and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan has investments in a variety of investment funds that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Note 3 — Party-In-Interest Transactions

The trustee is a party-in-interest with respect to the Plan. The Plan's investments are held by the trustee, and some of the Plan's investment funds include bank deposit accounts and mutual funds managed by the trustee. In the opinion of the Plan's legal counsel, certain transactions between the Plan and the trustee are exempt from being considered as "prohibited transactions" under the Employee Retirement Income Security Act of 1974 ("ERISA") Section 408(b). The Plan had no prohibited transactions with parties-in-interest during 2017 and 2016.

Note 4 — Actuarial Present Value of Accumulated Plan Benefits, Actuarial Assumptions, and Methods

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid

to retired or terminated employees or their beneficiaries and beneficiaries of employees who have died. Benefits under the Plan are based on employees' number of credited years of service and normal retirement date, as defined in the plan agreements.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment. Actuarial calculations were made using the unit credit method.

The actuarial present value of accumulated plan benefits, as determined by consulting actuaries, was:

	August 1, 2016
Actuarial present value of accumulated plan benefits:	
Participants currently receiving benefits	\$ 2,336,380
Other participants	1,262,840
Total actuarial present value of accumulated plan benefits	\$ 3,599,220

The total actuarial present value of accumulated plan benefits decreased \$221,525 from the prior year due to benefit payments of \$251,950, a decrease related to assumption changes of \$64,042, and other decreases of \$81,104, partially offset by an accumulation of interest of \$175,571.

The significant assumptions underlying the actuarial computations are as follows:

Discount rate	4.75%
Mortality basis	RP-2014 Blue Collar Mortality Table adjusted back to 2006 using MP-2014 and projected forward using scale MP-2016
Retirement age	Age 65 with five years of service
Valuation method	Standard Unit Credit Cost Method

Note 5 — Trust Fund Investments and Investment Income

The trustees provided the plan administrator with certifications as to the completeness and accuracy of investment assets of the trust aggregating to \$5,313,563 and \$5,352,592 as of July 31, 2017 and 2016, respectively, and the related investment income on such assets of \$214,205 and \$723,095, respectively, for the years then ended.

During the Plan's fiscal 2017 and 2016, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$57,950 and \$721,268, respectively. Such amounts are included in the accompanying Financial Statements and Supplemental Schedules based on such certifications from the trustees.

Note 6 — Plan Termination

While the plan administrator has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA.

If the termination is the result of the bankruptcy or near bankruptcy of the plan sponsor and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation ("PBGC") will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Upon termination, funds shall be allocated, to the extent sufficient, among participants and their beneficiaries in the order of precedence specified in ERISA Section 4044, as amended from time to time.

If, however, the Plan is terminated for any reason other than the bankruptcy, or near bankruptcy of the plan sponsor, and the Plan has insufficient assets, the plan sponsor will be required to pay to the Plan an amount that, together with the Plan's assets, will satisfy all benefits accumulated to the date of the Plan's termination.

Note 7 — Federal Income Taxes

The plan administrator received a favorable determination letter dated January 4, 2018 from the Internal Revenue Service ("IRS") stating that the Plan constitutes a qualified plan under Section 401(a) of the Internal Revenue Code (the "Code" or "IRC") and that the trust created under the Plan is exempt from federal income tax under Section 501(a) of the Code. The company, as the plan administrator, believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires the Plan's sponsor to evaluate tax positions taken by the Plan and recognize a tax liability or tax asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan's administrator has concluded that as of May 8, 2018, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan sponsor believes that the Plan is no longer subject to income tax examinations for years prior to 2013.

Note 8 — Funding Policy

The plan sponsor's contributions to the Plan are designed to annually fund the prior service costs (present value of accumulated benefits), less net assets available, over approximately 30 years, which is in compliance with the minimum funding requirements under the ERISA. Because of the funding status, the plan sponsor did not make any contributions during fiscal 2017 or 2016.

Note 9 — Subsequent Events

The plan administrator evaluated all subsequent events through May 8, 2018 and concluded that no subsequent events have occurred that would require recognition in the Financial Statements or disclosure in the Notes to the Financial Statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets
