1. DESCRIPTION OF PLAN

The following description of the Sky Lease I, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan which was adopted by Sky Lease I, Inc., (the "Company" or "Employer") effective January 1, 2008 and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC") of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all nonunion employees of the Company who are age 21 and over and have completed at least six months of credited service.

Contributions

Participants may contribute a percentage of their pretax annual compensation, as defined in the Plan, limited to the maximum deferral limitation, as defined in the IRC. Participants may also elect to designate all or any portion of their elective deferral as after-tax contributions to a Roth account. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company can also make discretionary matching contributions.

Participant Accounts

Each account is credited with the participant's contribution and an allocation of (a) the Employer contributions, (b) the Plan's earnings, and (c) forfeitures of Company contributions, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations of earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes Receivable from Participants

Participants may borrow from the Plan a minimum of $1,000 up to an aggregate amount not exceeding the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest based on comparable market rates. Principal and interest is paid through payroll deductions in substantially equal payments over the life of the loan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, including those regarding fair value, and assumptions that affect certain reported amounts and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of change in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Costs of administering the Plan are paid by the Company, except for investment and transaction-based fees that are charged to the Plan.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Excess Contributions

Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

Adoption of Accounting Pronouncement

Recent Plan Accounting Updates

In July 2015, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which amends requirements for defined contribution, defined benefit, and health and welfare benefit plans. Generally, Part I of the update requires fully benefit responsive investment contracts to be reported at contract value. Generally, Part II eliminates the requirements for plans to disclose (a) individual investments that represent 5 percent or more of net assets available for benefits, and (b) the net appreciation or depreciation for investments by general type. Generally, Part II also requires that investments be grouped only by type of investment. Part III provides an alternative date for measuring investments for plans with fiscal year-ends not falling on a month-end date. Parts I and II of the update are effective retrospectively for fiscal years beginning after December 15, 2015 with early application permitted. Part III of the update is effective prospectively for fiscal years beginning after December 15, 2015 with early application permitted. The Plan has elected to early adopt the update as of December 31, 2014, as permitted, and has applied the provisions retrospectively. Parts I and III are not applicable to the Plan. The early adoption of Part II is reflected in the notes to the financial statements and certain disclosures that are no longer required have been removed. There are no material effects on the net assets available for benefits or the changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncement

Fair Value Measurements

In May 2015, the FASB issued an accounting standard update that removes the requirement to include investments in the fair value hierarchy for which fair value is measured at net asset value using the practical expedient. The update also changes certain disclosure requirements. The update is effective retrospectively for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. Early application is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

Subsequent Events

The Plan has evaluated events through January 17, 2018, which is the date the financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balances.

4. INVESTMENTS

The Plan's investment accounts (including gains and losses on investments bought and sold, as well as held during the year ended December 31, 2014 depreciated in value by $28,583.

5. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank & Trust Company, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	December 31, 2014	December 31, 2013
Investments, at fair value:		
Registered investment companies	$ 1,881,392	$ 1,692,815
TOTAL INVESTMENTS, AT FAIR VALUE	**$ 1,881,392**	**$ 1,692,815**
Notes receivable from participants	**$ 10,168**	**$ 17,648**

	Year ended December 31, 2014
Investment (loss) income:	
Net depreciation in fair value of investments	$ (28,583)
Dividends	108,355
TOTAL INVESTMENT INCOME	**$ 79,772**
Interest income on notes receivable from participants	**$ 699**

The plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Registered investment companies: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Registered investment companies	$ 1,881,392	$ 1,881,392	$ -	$ -

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Registered investment companies	$ 1,692,815	$ 1,692,815	$ -	$ -

8. TAX STATUS

The Plan adopted its latest Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement developed by the trustee, which obtained a favorable Internal Revenue Service ("IRS") determination letter on July 8, 2014, in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the IRC and that any employer adopting this form of the plan will be considered to have a plan qualified under the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there is currently no audit for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.
