ROWMARK, LLC RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

Note 1–Description of Plan

The following description of Rowmark, LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time domestic employees of Rowmark, LLC and Premier Material Concepts LLC (collectively, the "Company") who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Contributions

The Plan provides for employee salary 401(k) contributions up to a maximum of 100% of compensation, as defined in the plan document, subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan automatically enrolls employees at a deferral rate of 3% of compensation, as defined in the plan document, upon meeting eligibility requirements to participate in the Plan unless the participant elects otherwise.

The Plan provides for employer matching contributions of 50% of the participant's contribution not to exceed 6% of the participant's deferral election.

The Plan also allows, at the Company's sole discretion, a profit-sharing contribution to the Plan on behalf of the participants who have completed at least 1,000 hours of service during the plan year and are employed by the Company on the last day of the plan year. There were no profit-sharing contributions made during 2015.

Vesting

Participants are immediately vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's employer matching and employer discretionary profit-sharing contributions portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in Company contributions 25% after two years of service and an additional 25% for each year of service thereafter until they become fully vested after five years of service. Participants become fully vested, regardless of the vesting table, upon retirement, permanent disability, or death.

Note 1–Description of Plan - continued

Forfeitures
If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. Unused forfeitures as of December 31, 2015 and 2014 totaled $9,583 and $32,880, respectively. During the year ended December 31, 2015, $38,765 was used to reduce company contributions.

Benefit payments
Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals. The Plan also permits in-service withdrawals by participants of their pretax and Roth contributions any time after attaining age 59 ½. The amount and frequency of these withdrawals must be in accordance with stipulations laid out in the plan document.

Notes receivable from participants
Participants may borrow the lesser of 50% of the vested value of their entire account or $50,000. Only one outstanding note receivable is permitted at any time and the note receivable repayment schedule can be no longer than 59 months or for less than $1,000. The interest rate is established based on an interest rate charged by a person in the business of lending money for loans under similar circumstances. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Termination of the plan
While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100% vested in their account balances.

Note 2–Summary of significant accounting policies

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation
The Plan's investments are stated at fair value except as noted below. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The fully benefit-responsive insurance contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 5). The fair value of the unallocated insurance contract is based on contract value adjusted for certain contractual provisions.

All other investments are valued based on quoted market prices. See Note 4 for additional information.

Note 2–Summary of significant accounting policies - continued

Investment valuation - continued
The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Benefit payments
Benefits are recorded when paid.

Administrative expenses
Various administrative costs are paid by the Company.

Notes receivable from participants
Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2–Summary of significant accounting policies – continued

New accounting pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan Sponsor is evaluating the impact of this update but does not expect it will have a material effect on the Plan's financial statements.

Note 3–Investments

Certain investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest, dividends and other for the year ended December 31, 2015, were obtained or derived from information supplied to the Plan Sponsor and certified by Voya Retirement Insurance and Annuity Company as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors. Notes receivable from participants totaling $133,689 and $111,667 at December 31, 2015 and 2014, respectively, and the interest income from the notes receivable from participants totaling $4,566 for the year ended December 31, 2015 are not certified by Voya Retirement Insurance and Annuity Company.

Note 3–Investments – continued

	PIMCO Total Return Fund - Class A	**	746,898

* This investment is sponsored by the Plan custodian or represents a party-in-interest.
** This investment did not have a balance in excess of 5% at year end.

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 4–Fair value measurements–continued

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund – valued using amortized cost which approximates fair value.

Pooled separate accounts – valued at net asset value per share (or its equivalent) of the funds

Unallocated insurance contract – valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4–Fair value measurements–continued

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Description	Total	Fair Value Measurements at December 31, 2015 Level 1	Level 2	Level 3

Total	$ 8,620,313	$ 29,350	$ 8,590,963	$ 0

Note 4–Fair value measurements – continued

(1) This class represents investments in actively managed pooled separate accounts investment that invest primarily in equity securities which may include common stocks, options, and futures.
(2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
(3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. During the years ended December 31, 2015 and 2014, there were no significant transfers between levels of the fair value hierarchy.

Note 5–Investment contracts

The Plan invests in a benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company (Voya). Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.05 percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

As described in Note 2, because the insurance contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the insurance contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

	2015	2014
Average yields:		
Based on actual earnings	1.40 %	0.19 %
Based on interest rate credited to participants	1.05 %	1.11 %

Note 6–Party-in-interest transactions

Certain plan assets are in shares of pooled separate accounts, an unallocated insurance contract and money market fund managed by Voya Retirement Insurance and Annuity Company or its affiliates. Voya Retirement Insurance and Annuity Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 7–Tax status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Although, the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 8–Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9–Subsequent events

The financial statements and related disclosures include evaluation of events up through and including October 13, 2016, which is the date the financial statements were available to be issued.

During 2015, the parent company of Rowmark, LLC acquired both Signcaster Corporation and LaserBits, Inc. The Plan was formally amended to accept the merger of the plan assets from the Signcaster Corporation Profit Sharing Plan effective January 1, 2016. The amendment also included the acceptance of the employees of LaserBits, Inc. On January 5, 2016, the Signcaster Corporation Profit Sharing Plan was merged into the Plan resulting in plan assets transferred of approximately $6,110,000.
