INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Georgia-Pacific LLC 401(k) Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Georgia-Pacific LLC 401(k) Retirement Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon/BNY Mellon N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2016 and 2015 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2016, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following brief description of the Georgia-Pacific LLC 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering salaried employees and certain groups of non-union hourly employees eligible for salaried benefits of Georgia-Pacific LLC or its affiliates (the Company or Plan Sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Aon Hewitt Associates LLC (Hewitt) is the record-keeper for the Plan and The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) is the Plan's trustee. BNY Mellon holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust) with the exception of the CISC Self-Directed Brokerage Account.

As described in the plan document, employment status changes permit the affected participants to transfer their balances between plans sponsored by the Company or by one of its affiliates. Such transfers are reflected in the net plan transfers in the accompanying statement of changes in net assets available for benefits.

Eligibility

All eligible employees, as defined by the Plan, are eligible to participate in the Plan upon date of hire.

Contributions and Vesting

The Plan allows participants to contribute up to 75% of their eligible compensation on a pre-tax or a Roth post-tax basis subject to the annual limitation specified by the Internal Revenue Code (the Code). The Company's matching contribution is 100% of participant contributions for the first 3% of compensation, as defined by the Plan, and 50% of participant contributions on the next 5% of compensation up to 8% of compensation. Participants who have attained age 50 or older during the plan year are eligible to make additional contributions to the Plan.

For employees who are automatically enrolled in the Plan, the initial pre-tax contribution is 3% of compensation and increases 1% per year until the total deferral is 8% of compensation. Participants may opt out of contributing.

Employees hired on or after January 1, 2006, are ineligible to participate in the Georgia-Pacific LLC Salaried Pension Plan. Instead, these employees will receive a fixed company contribution in the Plan in addition to participant deferrals and company matching contributions. This contribution will range from 3% to 5% of compensation based upon the participant's age. Participants may invest this contribution into the various investment options of the Plan. The fixed company contribution and earnings on the contribution are not eligible for loans or other in-service withdrawals under the Plan. These contributions will vest 100% after three years of vesting service.

Due to an amendment effective January 1, 2016, a new fixed company contribution was offered to participants that were newly hired as of January 1, 2016. The contribution will range from 3% to 5% of compensation based upon the participant's years of service.

Participants are 100% vested in their contributions. Company matching contributions become 100% vested upon completion of three years of service, attainment of age 59½, death or disability while employed. Termination of employment for reasons other than retirement, disability or death results in forfeiture of the nonvested portion of the company matching contributions. Forfeited nonvested accounts totaled \$246,318 and \$318,637 at December 31, 2016 and 2015, respectively. During 2016 and 2015, forfeited non-vested accounts of \$4,146,615 and \$5,359,247 were used to reduce employer contributions, respectively.

1 Description of the Plan (continued)

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the investment fund's earnings (losses), the Company's contributions and the participant's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Withdrawals Upon Terminations

Withdrawals from participant accounts upon termination may be made for the following reasons: termination of employment, retirement, death, or disability. Upon occurrence of one of these events and upon election of the participant, the Plan will distribute to the participant up to 100% of the participant's vested account balance in a lump-sum payment.

Withdrawals While Employed

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right to make elective participant contributions to the Plan for a period of six months. Other withdrawals while still employed (if applicable) include age 59½, rollover, certain grandfathered after-tax accounts, and active military withdrawals.

Notes Receivable from Participants

The Plan allows participants currently employed by the Company to obtain loans equal to the lesser of \$50,000 or 50% of their vested account balances. Participants may have two loans outstanding at any time. Loans bear interest at a rate equal to the prime lending rate plus one percent at the date of origination of the loan and are secured by the balance of the participant's vested account. Loan repayments are generally made through payroll deductions and normally must be repaid within a five-year term unless the loan was used to purchase a primary residence, which could extend the term to 15 years. Loans become due and payable in full once a participant terminates employment.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been presented on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

2 Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Individual life insurance policies are valued at their cash surrender value, which approximates fair value. See Note 5 for a discussion of other fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain/loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Subsequent Events

The Plan administrator has evaluated any further subsequent events through October 9, 2017, the date the financial statements were available to be issued. No significant matters were identified during this evaluation.

Reclassification

Certain items from the 2015 financial statements have been reclassified to conform with the 2016 presentation. Such reclassifications had no effect on the total net assets available for benefits.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 48% and 49% at December 31, 2016 and 2015, respectively. Investment income (loss) of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 4, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the contract value of the Stable Value Fund as of December 31, 2016 and 2015:

4 Fully Benefit-Responsive Investment Contracts

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit-responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair

4 Fully Benefit-Responsive Investment Contracts (continued)

market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The Plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

5 Fair Value Measurements (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

CISC Self-Directed Brokerage Account Investments: Brokerage accounts through which participants may invest in a variety of securities, including stocks, bonds, exchange traded funds, mutual funds, and money market funds. These investments are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

As of December 31, 2016, all Master Trust investments were measured at NAV^(a). The following table sets forth by level, within the fair value hierarchy, a summary of Master Trust investments at fair value at December 31, 2015:

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 338,058,862	\$ -	\$ -	\$ 338,058,862
Total assets in the fair value hierarchy	\$ 338,058,862	\$ -	\$ -	\$ 338,058,862
Investments measured at NAV ^(a)				5,786,234,834
Total investments, at fair value				\$ 6,124,293,696

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair value of the investments in the collective trust funds have been estimated using the net asset value of the investments. The collective trust funds listed in the above chart are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments as of December 31, 2016 and 2015.

5 Fair Value Measurements (continued)

The following table sets forth by level, the fair value hierarchy, a summary of investments held outside the Master Trust at fair value as of December 31, 2016 and 2015:

December 31, 2016	Level 1		Level 2		Level 3		Total
CISC self-directed brokerage accounts	\$	15,481,368	\$	-	\$	-	\$ 15,481,368
Life insurance policies		13,728		-		-	13,728
Total Investments, at fair value	\$	15,495,096	\$	-	\$	-	\$ 15,495,096

December 31, 2015	Level 1		Level 2		Level 3		Total
CISC self-directed brokerage accounts	\$	8,518,732	\$	-	\$	-	\$ 8,518,732
Life insurance policies		13,171		-		-	13,171
Total Investments, at fair value	\$	8,531,903	\$	-	\$	-	\$ 8,531,903

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of Levels 1, 2 or 3.

6 Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, fully benefit-responsive investment contracts, and notes receivable from participants, as shown in the statements of net assets available for benefits.
- Net investment loss and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits.
- Schedule H, line 4i – schedule of assets (held at end of year).

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Form 5500:

December 31	2016	2015
Net assets available for benefits per the financial statements	\$3,491,702,143	\$3,333,346,510
Less deemed loans for active participants	(362,298)	(320,417)
Net assets available for benefits per Form 5500	\$3,491,339,845	\$3,333,026,093

The following is a reconciliation of net increase (decrease) before transfers per the financial statements for the years ended December 31, 2016 and 2015, to Form 5500:

For the years ended December 31	2016	2015
Net increase (decrease) before transfers per the financial statements	\$ 160,335,359	\$ (126,278,082)
Prior-period adjustment from fair value to contract value for fully benefit-responsive investment contracts	-	(1,602,577)
Certain deemed distributions of participant loans	(41,881)	(320,417)
Net gain (loss) per Form 5500	\$ 160,293,478	\$ (128,201,076)

9 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 1, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

10 Risks and Uncertainties

The Plan, through the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statement of net assets available for benefits.

11 Related Party Transactions and Party-In-Interest Transactions

Certain fees incurred by the Plan are included in net investment loss from Plan's interest in the Koch Companies Defined Contribution Master Trust, as they are paid through revenue sharing, rather than direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to Plan's operations.

12 Plan Transfers and Merger

Certain participants transferred their balances between plans sponsored by the Company or by one of its affiliates. During 2016, plan transfers in totalled \$3,241,999, while transfers out of the plan were \$7,415,383. During 2015, plan transfers in totalled \$4,196,266, while transfers out of the Plan were \$7,767,404.

The Georgia-Pacific Corrugated IV LLC Employees 401(k) Profit Sharing Program formerly the Excel Container Employees' 401(k) Profit Sharing Plan (the "Excel Plan") merged into the Plan. On October 24, 2016, participants' investment account balances of the Excel Plan were liquidated and the cash and participant loans were transferred into the Plan. The \$2,193,658 transfer was pursuant to the Agreement and Plan of Merger between the Plan Sponsor and Excel dated September 7, 2016. As a result of the merger, former Excel Plan participants were allowed to begin participating in the Plan on January 1, 2016.

Effective December 31, 2015, the SPG Holdings LLC 401(k) Plan (the "SPG Plan") merged into the Plan. As a result of this acquisition, \$8,467,601 was recorded as a receivable to the Plan. On January 4, 2016, participants' investment account balances of the SPG Plan were liquidated and the cash and participant loans were transferred into the Plan. The transfer was pursuant to the Agreement and Plan of Merger between the Plan Sponsor and SPG dated August 14, 2014. As a result of the merger, former SPG Plan participants were allowed to begin participating in the Plan on January 1, 2016. Subsequent to the Plan merger, all union members that were transferred into the Plan were transferred into the Georgia-Pacific LLC Hourly 401(k) Plan.
