FARM BUREAU EMPLOYEES' 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT PROVISIONS OF THE PLAN

The following brief description of the Farm Bureau Employees' 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description and the plan document for complete information.

General

The Plan, which first became effective July 1, 1997, is a defined contribution savings plan pursuant to Section 401(k) of the Internal Revenue Code covering all full-time employees 21 years or older of the Michigan Farm Bureau or affiliated adopting employers (Company or employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participant Contributions - Employees are automatically enrolled into the Plan with a contribution rate of 3% of compensation. The automatic contribution rate increases 1% annually until a rate of 8% is obtained. The amount of reduction is contributed by the employer on behalf of the participant into the Plan for allocation to the participant's account. Employees can change their contribution rates at any time. Participants may also contribute rollover amounts representing distributions from other qualified plans as well as "catch-up" contributions for participants age 50 or older.

Company Matching Contributions - The Company contributes matching contributions on a per-pay-period basis of 25% of the first 8% of compensation that a participant contributes to the Plan for employees of the following employers: Michigan Farm Bureau, Farm Bureau Mutual Insurance Company of Michigan, Farm Bureau Family Credit Union, Farm Bureau Life Insurance Company of Michigan, Michigan Agricultural Cooperative Marketing Association, Inc., MFB, Inc., and Great Lakes Ag Labor Services, LLC.

The Company contributes matching contributions on a per-pay-period basis of 20% of the first 5% of compensation that a participant contributes to the Plan for employees of the following employers: Battle Creek Farm Bureau Association, Eaton Farm Bureau Cooperative, Inc., Farmers' Cooperative Elevator Company, and West Branch Farmers' Co-operative, Inc. DBA North Central Feed and Supply.

The Company contributes matching contributions on a per-pay-period basis of 50% of the first 10% of compensation that a participant contributes to the Plan for employees of Michigan Soybean Promotion Committee.

Matching contributions will not be made for employees of Lakeland Liquid Transportation, LLC.

FARM BUREAU EMPLOYEES' 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT PROVISIONS OF THE PLAN (Continued)

Company Annual Contributions - For employees hired after December 31, 2006, there is an additional company contribution each pay period, based on years of service rendered. The contribution amount begins at 5% of compensation, and increases to 7% after ten years of service. Employer contributions will not be made for employees of Michigan Soybean Promotion Committee and Lakeland Liquid Transportation, LLC.

The Company is eligible to receive forfeited company contributions once the non-vested participant withdraws their entire vested balance from the Plan. Until then, that amount is maintained separately from eligible forfeitures. At December 31, 2017 and 2016, these ineligible forfeited amounts totaled \$99 and \$14, respectively. During 2017 and 2016, eligible forfeitures of \$82,395 and \$87,079, respectively, were used to reduce employer contributions.

Participant Accounts

The Plan credits each participant's account with the participant's contributions, employer's contribution(s), and an allocation of plan earnings and expenses. Each participant directs his/her participant contribution and the employer's contribution(s) to one or more funds, which are maintained by Principal Life Insurance Company. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Hardship Withdrawals

Participants may elect to withdraw the balance of their accounts attributable to their salary reduction elections but none of the income earned, provided such withdrawal is to meet the immediate and significant financial needs of the participant.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions account is based on years of service. A participant is 100% vested after three years of service.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of \$1,000 to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the local prevailing rates as determined periodically by the Plan administrator. Interest rates on current loans range from 4.25% to 5.50%. Principal and interest are paid ratably through payroll deductions.

FARM BUREAU EMPLOYEES' 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT PROVISIONS OF THE PLAN (Concluded)

Payment of Benefits

Upon attainment of normal retirement age (59½) or other separation of employment, because of death, disability or for other reasons, a participant may elect to receive benefits as either a lump-sum payment or in the form of an annuity, generally as a qualified joint and survivor annuity.

On termination of employment, if the vested participant account balance does not exceed \$1,000, the entire account balance is distributed in the form of a lump-sum payment.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments, other than fully benefit-responsive investment contracts, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

FARM BUREAU EMPLOYEES' 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in the administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding the value of assets and liabilities. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Subsequent Events

The Plan has evaluated subsequent events through May 1, 2018, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan has entered into a fully benefit-responsive investment contract with Farm Bureau Life Insurance Company of Michigan (Flexible Premium Annuity). The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by the insurance company. The contract is included in the financial statements at contract value as reported to the Plan by Farm Bureau Insurance. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Farm Bureau Insurance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

FARM BUREAU EMPLOYEES' 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 3 - INVESTMENT CONTRACTS WITH INSURANCE COMPANIES (Concluded)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 4.0% for the years ended December 31, 2017 and 2016. The contract provides for a minimum interest rate of 4.0%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable.

The Plan has also entered into a non-fully benefit-responsive investment contract with Principal Life Insurance Company (Guaranteed Interest Accounts). The accounts are recorded at fair value based on current interest rates compared to the contract's guaranteed rates, and the contract's maturities.

The interest rates credited to the investment contracts are as follows:

	<u>2017</u>	<u>2016</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 4 - RISK AND UNCERTAINTIES

The Plan is required to disclose significant concentrations of credit risk regardless of the degree of such risk.

The Plan's investments are in pooled separate accounts, common collective trusts, and investment contracts. The underlying securities of those accounts and contracts represent a wide variety of companies and industries, and, in the opinion of plan management, any potential concentration of credit risk is minimal.

NOTE 5 - FAIR VALUE MEASUREMENTS

Accounting standards have established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Money market funds and pooled separate accounts: Valued at the net asset value (NAV) of units held by the Plan at year end.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Non-fully benefit-responsive guaranteed interest accounts: Valued at fair value (approximates contract value) discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1:	Level 2:	Level 3:	
	Quoted prices in active markets for identical assets	Significant other observable inputs	Significant unobservable inputs	Total December 31, 2017
Guaranteed interest accounts	\$ -	\$ 1,278,227	\$ -	\$ 1,278,227
Investments measured at net asset value				96,164,355
Total investments, at fair value				<u>\$ 97,442,582</u>

NOTE 6 - TAX STATUS

The Plan obtained its latest determination letter on May 6, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE 6 - INCOME TAX STATUS (Concluded)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 7 - PLAN TERMINATION

Although they have not expressed any intent to do so, the Company reserves the right under the Plan to terminate the Plan in whole or in part, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their account balances.

NOTE 8 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Fees paid during the year for administrative services rendered by parties-in-interest are, in the opinion of the Trustees, based on customary and reasonable rates for such services.

The Flexible Premium Annuity investment is with Farm Bureau Life Insurance Company of Michigan, an adopting employer. Also, certain plan investments are shares of pooled separate accounts and common collective trusts with Principal Life Insurance Company. Principal Life Insurance Company is a trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

The Plan sponsor absorbs certain administrative costs incurred by the Plan.

NOTE 9 - CERTIFIED FINANCIAL INFORMATION
