Participants may direct their contributions as well as their allocable Company contributions into any investment option offered by the Plan.

Participants may elect to defer up to 100% of compensation, before taxes, subject to certain Internal Revenue Code (IRC) limitations. An employee may terminate his or her election to participate at any time. Participants may also elect to make supplemental catch-up contributions, subject to IRC limitations. Employees may roll over into the Plan amounts that represent a "qualified total distribution" or a complete distribution from an individual retirement account or individual retirement annuity, as defined by the IRC and the Plan.

Effective January 1, 2017, the Company amended the Plan to allow for an automatic deferral feature. In the event a participant does not elect an alternative salary reduction rate or elects not to defer under the Plan, the Company will automatically withhold a portion of the participant's eligible compensation based upon the following table:

Plan Year	Automatic Deferral Percentage
1-2	3%
3	4%
4	5%
5 and thereafter	6%

The increase in the amount automatically withheld from a participant's pay will be effective on the first day of the Plan Year, beginning with the first Plan Year following the date deferrals were first automatically withheld from the participant's pay.

Company Contributions

Effective January 1, 2017, the Plan was amended to adopt a safe harbor feature. The Company will make a safe harbor matching contribution in an amount to a percentage of a participant's elective deferrals. The elective deferral tier matching percentage is as follows:

Elective Deferral	Tier Matching Percentage
3%	100%
Next 2%	50%

In addition, effective January 1, 2017, the Company may also make a discretionary additional matching contribution. If the Employer makes a discretionary additional matching contribution, the discretionary additional matching contribution will not apply as to elective deferrals exceeding 6% of a participant's compensation. The total amount of this discretionary additional matching contribution will not exceed 4% of a participant's compensation. For the year ended December 31, 2017, there were no discretionary contributions made to the Plan.

Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions, allocation of the Company's contributions and Plan earnings and is charged with withdrawals, recordkeeping fees and administrative fees and an allocation of Plan losses. Allocations are based on participant earnings (losses) or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Effective January 1, 2017, participants will be 100% vested in the Company's safe harbor contributions after two years of service and will be 100% vested in the Company's additional matching contributions after three years of service. Upon attainment of normal retirement age, as defined, death or disability, the participants will become 100% vested in their accounts.

Withdrawals and Distributions

Generally, a participant's vested account balance is payable by lump-sum distribution, between ages 59½ and 70½, upon his or her retirement or disability. Upon termination of employment, the vested portion of the participant's account may be withdrawn in a lump sum or left in the Plan. If the vested amount is \$5,000 or less, a lump-sum distribution is required.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The minimum amount that can be borrowed is \$1,000. The loans are secured by the account balance. Repayments of the loans are made in substantially equal payroll deductions amortized over the life of the loan.

1. DESCRIPTION OF PLAN – CONTINUED

Plan Administration

The Plan is administered by the Company. John Hancock Life Insurance Company served as the custodian of the Plan through November 18, 2016 at which time Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (“Great-West”) assumed custodial responsibilities of the Plan. The trustees of the Plan are designated employees of the Company.

Forfeitures

The Plan will use forfeitures to reduce future Company contributions. As of December 31, 2017 and 2016, forfeited balances were approximately \$24,400 and \$13,700, respectively.

Administrative Expenses

The Company pays substantially all administrative costs of the Plan, except for recordkeeping fees and various fees associated with recordkeeping and investment advisor fees which are paid by the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan’s investments include mutual funds and a fixed annuity contract as of December 31, 2017 and 2016. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fixed annuity contract which is valued at contract value. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net depreciation appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability and are returned to participants in accordance with IRS regulations.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

3. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820, Fair Value Measurement, are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2017 and 2016:

Mutual Funds: Mutual funds are valued based upon quoted market prices.

As of December 31, 2017 and 2016, the Plan's investments at fair value represent investments in mutual funds.

Investments, at fair value	
Mutual Funds	<u>\$ 1,732,083</u>
Total investments, at fair value	<u><u>\$ 1,732,083</u></u>

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

In November 2016, the Plan entered into an investment contract with Great-West. Under this contract, Great-West maintains the contributions in a general account. The accounts are credited with the earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account at contract value within reasonable timeframes. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

Great-West announces in advance the prevailing interest rates it will credit to participant account balances. When establishing interest crediting rates, Great-West considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within the issuer's general account. The rates are established without use of a specific formula. These rates are reviewed on a semiannual basis for resetting.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the Company to settle at an amount different than contract value paid either within 90 days or over time.

5. INFORMATION CERTIFIED BY PLAN CUSTODIAN

The following is a summary of the unaudited information regarding the Plan as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by the custodian, and furnished to the Plan administrator. The Plan administrator has obtained a certification from the custodian that such information is complete and accurate.

6. PARTY-IN-INTEREST TRANSACTIONS

In 2017, certain fees to administer the Plan have been paid to Great-West, the record keeper for the Plan and therefore these transactions qualify as exempt party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Sponsor contributions.

8. TAX STATUS

The Plan uses a prototype plan document sponsored by Great-West Trust Company, LLC. The prototype plan document received an opinion letter from the IRS, dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The prototype plan document has been amended since receiving the opinion letter. However, Great-West Trust Company, LLC. and the Company, believe that the prototype plan document is currently designed and operated in compliance with the applicable requirements of the IRC. The Plan itself has not received a determination letter from the IRS. However, Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken.
