Notes to Financial Statements
December 31, 2017 and 2016

Note 1: Description of the Plan

The following description of the Elgin Industries, Inc. Employees Profit Sharing Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed 401(k) plan covering eligible employees of Elgin Industries, Inc. and Elgin World Trade, Inc. (Companies). Employees are eligible to participate upon completion of one year of employment with 1,000 hours of service and attaining age 21. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

The Plan is funded by voluntary contributions of participants and matching contributions of the Companies. Participants may contribute to the Plan through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Age 50 and over participants can contribute an additional $6,000 in 2017. Effective January 1, 2016, new participants or re-hired participants are automatically enrolled into the Plan at a contribution rate of 1% of pre-tax compensation, unless the participants opt out of the automatic enrollment. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Effective January 1, 2015, the Companies added an elective Roth contribution option to the Plan and a discretionary employer match. No discretionary employer contribution was made for the year ended December 31, 2017. The Companies made matching contributions of $178,964 to the Plan for the year ended December 31, 2017. Matching contributions are based on the following:

Participant Contribution	Companies' Contribution
Up to 2% of annual gross salary	25% of participant contribution
Greater than 2% and up to 4% of annual gross salary	25% of first 2% 50% of second 2%
Greater than 4% and up to 6% of annual gross salary	25% of first 2% 50% of second 2% 100% of third 2%

Investment Options

Participants must direct their salary deferral contributions and the Companies' contributions into a variety of investment funds. Automatic enrollment contributions are invested in the GoalManager moderate portfolio model, as defined in the Plan. Participants may change their investment options at any time.

December 31, 2017 and 2016

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Companies' discretionary matching contributions, administrative expenses and plan earnings. The Companies' discretionary matching contributions are allocated to participants who are employed on June 30 and December 31 of each year and are based on each participant's contribution percentage of annual gross salary as described above. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Companies' contributions becomes vested based on years of service. A participant is 100% vested after three years of credited service. In the event of death or disability, participants become fully vested.

Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time or a direct rollover distribution. A participant is also entitled to withdraw any part of his or her vested balance resulting from rollover contributions at any time. Participants may also withdraw pre-tax elective deferral or rollover contributions in the event of hardship due to an immediate and heavy financial need, as defined by the Internal Revenue Service.

Administrative Expenses

Administrative expenses of the Plan are paid by the Companies and the Plan. Additionally, certain employees of the Companies provide administrative and trustees services to the Plan and are not reimbursed by the Plan for such services.

Forfeitures

The nonvested account of a participant shall be forfeited as of the date the participant has ceased to be an employee. Forfeitures are first applied to plan expenses which would otherwise be paid by the employer and any remaining amounts will reduce the earliest employer contributions made after the forfeitures are determined.

Forfeitures of $1,000 were used to reduce discretionary contributions from the Companies during 2016. There were $2,884 and $1,979 of forfeited nonvested account balances available at December 31, 2017 and 2016, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. The Plan's investments in shares of registered investment companies are valued at quoted market prices. The common or collective trust funds are valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 3: Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERSA. Accordingly, Bank of America, N.A., the trustee of the Plan, has certified to the completeness and

accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, and the supplemental schedule of assets (held at end of year) as of December 31, 2017, and all components of investment income reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level or any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments measured at net net asset value (A)	98,742	-	-	-
Total	$ 8,675,199	$ 8,576,457	$ -	$ -

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	December 31, 2017			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common or collective trust funds	$ 621,123	$ -	Daily	None

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common or collective trust funds	$ 98,742	$ -	Daily	None

Note 5: Income Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype defined contribution plan and trust sponsored by Merrill Lynch Pierce Fenner & Smith, Inc. This prototype plan document has been filed with the appropriate agency and has obtained an opinion letter dated March 31, 2014, from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt as of the financial statement date.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

Note 7: Party-in-Interest Transactions

Plan investments were managed by Bank of America, N.A., the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments. Fees paid by the Plan for legal, accounting and other professional services were rendered primarily by parties-in-interest.

Note 8: Subsequent Events

Subsequent events have been evaluated through June 4, 2018, which is the date the financial statements were available to be issued.
