NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Tanner Construction Company 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant directed, defined contribution plan covering all employees of Tanner Construction Company, Inc. (the "Company"), who have completed 12 months of service an attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective August 31, 2017, the Plan was merged into the Associated General Contractors of Mississippi 401(k) Profit Sharing Plan (AGC Plan). As a result, all investments were transferred to that Plan on that date. The transfer is shown as transfer of assets due to merger on the statement of changes in net assets available for benefits.

Contributions

Participants may make contributions to the Plan in the form of salary reductions subject to a maximum dollar limitation as determined by the Internal Revenue Service. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer contributions are discretionary. Employer discretionary contributions are allocated based upon compensation of the participants and may vary for certain employees in order to meet special tests prescribed by law. No employer discretionary contributions were made in the period and year ending August 31, 2017 and November 30, 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions plus actual earnings thereon. The vesting of the employer discretionary contributions and earnings thereon is based on twenty percent per year after one year of employment. Participants therefore become fully vested after six years of employment. There were no forfeitures for the period and year ending August 31, 2017 and November 30, 2016.

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants

The Plan does not allow participant loans.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a period not to exceed the life expectancy of the participant or his or her designated beneficiary. All benefits are recorded when paid.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks and values in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

In connection with the preparation of the financial statements, management of the Company evaluated subsequent events through June 12, 2018, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

NOTE 3: FAIR VALUE MEASUREMENTS (UNAUDITED)

The Plan uses GAAP's three-level hierarchy for the recognition and disclosure of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 3: FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2017 and November 30, 2016.

Cash: The carrying value approximates fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2016:

November 30, 2016

	Valuation Inputs at Reporting Date			
Description	**Total**	**Level 1**	**Level 2**	**Level 3**
Cash and cash equivalents	$ 129,583	$ 129,583	$ -	$ -
Mutual funds	741,905	741,905	-	-
Total	$ 871,488	$ 871,488	$ -	$ -

NOTE 4: INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

BancorpSouth serves as the trustee of the Plan. The trustee has certified as to the accuracy and completeness of the information included in the accompanying financial statements and supplemental schedule as follows:

A. Investments, at fair value and related income and expenses as well as investment related disclosure information

B. Dividends and interest receivable

C. Assets held for investment

D. Investment purchases and sales

NOTE 5: PLAN TERMINATION

On August 31, 2017, the Plan was merged into the AGC Plan. The net assets in the Plan were transferred to the AGC Plan in conjunction with the merger.

NOTE 6: INCOME TAX STATUS

The Plan adopted is a prototype plan which meets the requirement of Section 401 of the Internal Revenue Service code and is exempt from taxation. The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management believes the Plan is no longer subject to income tax examinations for tax returns filed for years prior to 2014.

NOTE 7: PARTIES-IN-INTEREST TRANSACTIONS

Certain expenses of the Plan, including legal and accounting fees, are paid by the Employer. In addition, certain services to the Plan by the Employer were performed at no charge.

NOTE 8: RECONCILIATION OF THE FINANCIAL STATEMENTS TO FORM 5500
