Employees who have completed the required period of service, as defined by the plan document, are eligible to participate if they meet the eligible employee requirements defined by the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective September 1, 2015, the employees of EMFCO Holdings Incorporated became eligible to participate in the Plan, except for purposes of receiving employer discretionary contributions.

Plan Administration - The Plan is administered by an administrative committee. Russell Trust Company serves as the trustee of the Plan.

Eligibility - Eligible employees may participate in the plan the first of the month after (or coincident with) completing two months of service. Participants are eligible to receive matching contributions after 12 consecutive months of employment and 1,000 hours of service during a plan year. Employees are eligible for discretionary profit sharing contributions after completing 1,000 hours of service during the plan year and must also be employed on the last day of the plan year.

Contributions - Participants may defer up to 75% of eligible compensation as defined by IRC section 415. In addition, the Company may elect to declare a cash bonus based on the profitability of the Company. The allocation of the bonus is based upon a percentage of base wages up to a set maximum. Eligible employees may elect to contribute up to 100% of their cash bonus to the Plan. Both employee elective deferrals and cash bonus contributions are subject to limitations imposed by the IRC. Participants are also allowed to rollover contributions from other qualified employer-sponsored retirement plans.

The Plan has an auto-enrollment feature which enrolls participants once they are eligible for the match at a deferral rate of 3% of eligible compensation. Participants may opt out of the auto-enrollment or defer a different amount at any time. The Plan has a safe-harbor design which means that the Plan automatically complies with the nondiscrimination requirements of the IRC. The safe-harbor provision will provide Company matching contributions equal to 100% of employee deferrals up to 3% of a participant's eligible compensation, plus an additional 50% of employee deferrals of the next 4% of a participant's eligible compensation. Participants are eligible for match true up if they are employed on the last day of the year.

The Company may also elect to contribute an annual discretionary profit sharing amount to eligible employees by resolution of its Board of Directors or other governing body or person. The profit sharing contribution is allocated as of the last day of the plan. The actual funding will occur no later than November 30th of the following plan year. The Company made discretionary profit sharing contributions from 2% to 7% of each participant's compensation for the plan year ended August 31, 2017 depending upon the total years of service and work location.

Participant Accounts - Each participant's account is credited with an allocation of (a) the employee's contribution, (b) the Company's contribution, and (c) earnings or losses. Earnings or losses are allocated to participants' accounts daily. The allocation of earnings and losses is based on each participant's weighted account balance as a percentage of all participants' account balances for a fund.

Note 1 - Continued

Investment Options - Participants may direct their contributions and related earnings into investment options in 1% increments. Investment options are common collective trust funds held and managed by Russell Trust Company. Participants may change their deferral percentage and the allocation of contributions among various investments.

Payment of Benefits - A participant's account balance may be distributed upon termination, retirement, death, disability, or for military reservists that are ordered to serve more than 179 days on active duty. The Plan also provides for hardship distributions if certain conditions are met. Hardship distributions are limited to a participant's elective deferrals.

Retirement benefits are payable at the normal retirement age of 65 or upon the early retirement age of 55, provided the early retiree has 15 years of service. At retirement or upon death or disability, benefits may be distributed in either a total or partial lump sum payment or in installments fixed by the recipient. Terminated participants with account balances of \$1,000 or less are subject to mandatory distributions.

Vesting - Participants are immediately vested in their salary deferral contributions and safe-harbor matching contributions plus actual earnings thereon. All other employer contributions shall vest as follows based on the participant's years of service:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year	10%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Notes Receivable From Participants - Participants may borrow from their accounts up to \$50,000 or 50% of their vested account balance, whichever is less. Loans must be repaid within 5 years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2% per annum on the date of the loan commitment. Principal and interest are paid ratably through bi-weekly payroll deductions.

Forfeitures - Unvested amounts are forfeited by terminated participants the earlier of either a five year break in service or a distribution of a participant's account balance. Forfeited amounts will be used to first reinstate employees who return to service prior to a five year break, then to pay reasonable plan expenses and finally to reduce future employer matching contributions and discretionary contributions. Amounts forfeited during the year ended August 31, 2017 totaled \$172,708 and the total forfeitures balance of \$609,872 remained unallocated at August 31, 2017.

Administrative Expenses - Certain administrative expenses of the Plan are paid by the Company. Recordkeeping, trustee, legal, accounting, and investment management fees are paid by the Plan. Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Benefits - Benefits paid to participants are recognized in the financial statements when they are paid. At August 31, 2017 and 2016, there were no material distributions that had been requested for payment by participants, but had not yet been paid out.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events - The Plan's management has evaluated subsequent events through June 12, 2018, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2017 and 2016.

Common Collective Trust Funds - Valued using the net asset value (NAV) provided by the fund's trustee. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding at the valuation date. The funds are traded on a private market that is not active; however, the unit price is based primarily on observable market data of the fund's underlying assets.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31:

	Fair Value Measurements as of August 31, 2017			
	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV ^(a)				110,498,688
Total Investments at Fair Value				\$ 110,498,688

	Fair Value Measurements as of August 31, 2016			
	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV ^(a)				102,929,534
Total Investments at Fair Value				\$ 102,929,534

- (a) In accordance with Subtopic 820-10, certain investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4 - Information Certified by Trustee

The Plan's management elected the method of compliance permitted by Section 2520.103-8 for the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by Russell Trust Company need not be subjected to independent audit.

The plan administrator has obtained certification from the trustee, Russell Trust Company, that the following information included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value of investments as of August 31, 2017 and 2016;
- Investment and other income for the plan year ended August 31, 2017; and
- Investment transactions for the plan year ended August 31, 2017.

Note 5 - Party-in-Interest Transactions

Plan investments are common collective trust funds managed by Russell Trust Company. In addition, Russell Trust Company serves as trustee and performs various maintenance and administrative services for the Plan. Therefore, transactions with such investments and fees charged by Russell Trust Company qualify as party-in-interest transactions. Fees paid to Russell Trust Company totaled \$575,914 for the plan year ended August 31, 2017. Northwest Plan Services serves as the recordkeeper for the Plan and is also considered a party-in-interest. Fees paid to Northwest Plan Services totaled \$98,553 for the plan year ended August 31, 2017.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the assets will be distributed to participants in proportion to their respective account balances.

Note 7 - Federal Income Taxes

The Plan obtained its latest determination letter on May 5, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 8 - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for benefits.
