Note 1. Plan Description

The following brief description of the Kickert School Bus Line, Inc. 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all eligible employees of Kickert School Bus Line, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees are eligible to become participants in the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year after they have completed one year of service, as defined by the Plan, and are at least 21 years of age.

Contributions: Each year, participants may contribute a portion of their gross wages and catch-up contributions, subject to certain limitations imposed by the Internal Revenue Code (IRC), as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company is required to make a matching contribution of 25 percent of the contribution of each participant who contributes 5 percent or more of his/her annual compensation up to 70.01 percent deferral, subject to the eligibility terms of the Plan. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with participant contributions and the Company matching contribution and receives allocations of plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service, as defined by the Plan. A participant is 100 percent vested after six years of credited service.

Forfeitures: In the event of termination of employment before full vesting has occurred, the non-vested portion of the employer contribution shall be used to reduce the employer’s contribution or plan expenses. Forfeitures available as of August 31, 3017 and 2016, were $0. There were no forfeitures during the year ended August 31, 2017.

Investment options: Upon enrollment in the Plan, a participant may direct employee and company contributions in a variety of investment choices as more fully described in the Plan’s literature. Participants may change their investment options at any time.

Payment of benefits: Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant’s vested interest in his or her account or installment payments.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Significant Accounting Policies

Investment contracts: Investments held by a defined contribution plan are required to be reported at fair value, except for direct investments in fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to direct investments in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through June 15, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Transamerica Financial Life Insurance Company

The following is a summary of the Plan's asset and income information as of August 31, 2017 and 2016, and for the year ended August 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

Note 3. Information Certified or Provided by Transamerica Financial Life Insurance Company

The following information has been certified from Transamerica Financial Life Insurance Company as of and for the period from September 1, 2016 to August 31, 2017, and as of August 31, 2016:

	2017	2016
Pooled separate accounts at fair value	$ 460,191	$ 561,976
Guaranteed investment contracts at contract value	$ 2,793	$ -
Net appreciation in fair value of investments	$ 48,771	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2017 and 2016.

Units of pooled separate accounts: Valued at the net asset value (NAV) of units held by the pooled separate accounts. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total
Total assets in fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at NAV (a)				460,191
Total investments at fair value				$ 460,191

	2016			
	Level 1	Level 2	Level 3	Total
Total assets in fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at NAV (a)				561,976
Total investments at fair value				$ 561,976

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per unit as of August 31, 2017 and 2016:

Investment	2017	2016	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 460,191	$ 561,976	$ -	Daily	None

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels
To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended August 31, 2017, there were no significant transfers in or out of Level 3.

Note 5. Investment Contract with Insurance Company

In August 2015, the Plan entered into a fully benefit-responsive insurance contract issued by Transamerica Financial Life Insurance Company that simulates the performance of a guaranteed investment contract. The fully benefit-responsive investment contract provides preservation of principal, maintains a stable interest rate, and provides daily liquidity at contract value for participant withdrawals and transfer in accordance with the provisions of the Plan. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting. The crediting interest rate for the investment contract cannot be less than 0.75 percent for the period September 1, 2016 to December 31, 2016. Additionally, the crediting interest rate for the investment contract cannot be less than 0.70 percent for the period January 1, 2017 to August 31, 2017. At August 31, 2017, the interest rate for the investment contract was 0.70 percent.

As described in Note 2, because the guaranteed insurance contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits attributable to the guaranteed insurance contract. Contract value, as reported to the Plan by Transamerica Financial Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to layoffs, Plan termination, business closings, re-organization, liquidations and the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code ("IRC'"). The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Related-Party Transactions

Transamerica Financial Life Insurance Company is the custodian, as defined by the Plan and, therefore, qualifies as a party-in-interest. Administrative expenses paid to Transamerica Financial Life Insurance Company by the Plan were $4,372 for the year ended August 31, 2017.

Certain employees of the Company provide administrative services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in the Company matching contribution portion of their accounts.

Note 8. Tax Status

Effective September 1, 2015, the Plan adopted a non-standardized form of a prototype plan sponsored by Transamerica Financial Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status which was dated March 31, 2014. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the local, state, or federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of changes in net assets available for benefits per the financial statements to Form 5500 for the year ended August 31, 2017:

Net assets available for benefits per the financial statements	$	470,769
