INDEPENDENT AUDITORS' REPORT

To the Willis Towers Watson U.S. Benefit Plans Administration Committee:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Willis 401(k) Retirement Savings Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2016, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these 2016 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements.

Basis for Disclaimer of Opinion on the 2016 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Transamerica Financial Life Insurance Company Inc., the recordkeeper of the Plan, as an agent for State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 2016 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the agent on behalf of the trustee as of December 31, 2016, and for the year then ended, that the information provided to the plan administrator by the agent on behalf of the trustee is complete and accurate.

Disclaimer of Opinion on the 2016 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2016 Financial Statements paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements. Accordingly, we do not express an opinion on the 2016 financial statements.

Other Matters-Report on Supplementary Information and Report on 2015 Financial Statements

The supplemental schedule of assets (held at end of year) as of December 31, 2016, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

We have audited the accompanying financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2015, and in our report dated June 27, 2016, we expressed our opinion that such financial statements present fairly, in all material respects, net assets available for benefits of the Plan as of December 31, 2015, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, effective January 1, 2017, the Plan was merged into the Towers Watson Savings Plan for U.S. Employees, a defined contribution plan maintained by Willis Towers Watson. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations for 2016 Financial Statements

The form and content of the information included in the 2016 financial statements, other than that derived from the information certified by the agent on behalf of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Willis 401(k) Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan’s provisions.

General — The Plan is a defined contribution plan sponsored by Willis North America Inc. (the “Company” or “Employer”), a subsidiary of Willis Towers Watson plc (formerly Willis Group Holdings plc), and covers all eligible employees of the Company and its subsidiaries. The Benefit Plans Administration Committee of the Company controls and manages the operation and administration of the Plan. State Street Bank and Trust (the “Trustee”) serves as the trustee of the Plan and Transamerica Financial Life Insurance Company (d.b.a. Transamerica Retirement Solutions) serves as the record keeper. Effective January 1, 2017, the Plan was merged with and all assets transferred into the Towers Watson Savings Plan for U.S. Employees (Willis Towers Watson Savings Plan for U.S. Employees, effective January 1, 2017), with Empower Retirement as the record keeper and JPMorgan Chase Bank, N.A., as the trustee. In connection with this merger, assets totaling \$820,588,904 were transferred into the Willis Towers Watson Savings Plan for U.S. Employees, which included \$743,809,986 of funds which were transferred to a non-participant directed cash reserve account on December 30, 2016, prior to the merger, \$28,087,911 within a self-directed brokerage account sponsored by Charles Schwab & Co., \$23,434,808 in a Stable 5 Fund guaranteed investment contract (“GIC”) sponsored by Transamerica Financial Life Insurance Company (“TFLIC”), and \$16,517,751 of Company common stock. During December 2016, in preparation for the merger, the Plan suspended contributions to the Plan; employee contributions were no longer permitted to be invested in Company stock. A Form S-8 post-effective amendment and a Form 15 have been filed with the Securities and Exchange Commission to deregister the Company common stock shares originally registered under the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions — Full-time and part-time employees of the Company are eligible to participate in the Plan. Newly hired employees are automatically enrolled in the Plan after 60 days of service, unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at a 4% pre-tax contribution rate of eligible compensation. Participants may elect to contribute between 1% and 99% of their eligible compensation as pretax and/or Roth 401(k) contributions, subject to Internal Revenue Code (“IRC”) limits. Eligible compensation consists of the participant’s base pay plus commissions and production incentives received during the calendar year.

After a year of service, participants are eligible for a 100% match of employee contributions made by the Company up to a maximum of 3% of the employee’s annual eligible compensation. The match is subject to certain IRC limitations. The Company match is discretionary, calculated per pay period and automatically invested per the participant’s investment elections.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution, the Company’s match, and Plan earnings, and charged with withdrawals, an allocation of Plan losses, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments — Participants direct the investment of their contributions and Employer matching contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds, Willis Towers Watson plc common stock, and separate GICs as investment options for participants.

The Willis Stable Value Fund and TFLIC Stable 5 Fund are fully benefit-responsive GICs and are invested in separate group annuity insurance contracts with TFLIC. In addition, participants have the option of transferring amounts from the above Plan offered funds into a self-directed brokerage account. The self-directed brokerage account is sponsored by Charles Schwab & Co.

Vesting — Participants are vested immediately in their contributions, plus actual earnings thereon. Effective January 1, 2015, employer contributions and earnings thereon are 25% vested after one year of service, 50% after two years, 75% after three years, and fully vested after four years of service with the Company, or a predecessor company, or as soon as the employee reaches the age of 65, dies, or becomes disabled, whichever occurs first. Prior to January 1, 2015, employer contributions and earnings thereon were 25% vested after two years of service, 50% after three years, 75% after four years, and fully vested after five years of service with the Company, or a predecessor company, or as soon as the employee reaches the age of 65, dies, or becomes disabled, whichever occurs first.

Notes Receivable from Participants — Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by an assignment of a participant's vested interest in the Plan, and bear interest at rates commensurate with local prevailing rates at the time funds are borrowed, as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions or may be paid manually. Participant loans are classified as notes receivable and measured at the unpaid principal balance plus accrued but unpaid interest.

Payment of Benefits — On termination of service with the Company (including termination of service due to death, disability, or retirement), a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments.

Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships. Following a financial hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

Forfeited Accounts — When participants terminate employment with the Company, the non-vested portion of the participant's account as defined by the Plan, represents a forfeiture. The plan document permits the use of forfeitures to either reduce future employer contributions or plan administrative expenses for the year. During the year ended December 31, 2016, the non-vested forfeiture amount was \$450,762, all of which was used to offset employer contributions as of the end of the respective year. The balance of unused forfeitures was \$0 and \$146,958 at December 31, 2016 and 2015, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value (except for fully benefit-responsive GICs, which are reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion on fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive GICs. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits that is attributable to fully benefit-responsive investment contracts. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and GICs are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan provides various investment instruments, including common stock, mutual funds, and GICs. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participant's account balances and the amounts reported in the financial statements.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Administrative Expenses — Administrative expenses of the Plan are paid by the participants and the Plan as provided in the Plan document. The record keeper is compensated to administer the Plan through net fees of 0.125% withdrawn from participants' accounts for selecting certain investment options.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. All distribution payments are processed the same day, therefore, at December 31, 2016 and 2015 there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid.

Excess Contributions Payable — The Plan is required to return contributions received during the Plan year in excess of the IRC limits. There were no excess contributions payable at December 31, 2016 and 2015.

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan has two fully benefit-responsive GICs with TFLIC. TFLIC maintains the contributions in a non-pooled separate account ("Willis Stable Value Fund") and a pooled separate account ("TFLIC Stable 5 Fund"), which are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GICs are included in the financial statements at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contracts have certain restrictions that affect the ability to collect the full contract value, for example, the Plan may not withdraw more than 20% of the beginning of the year balance of the contract without incurring a penalty. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. TFLIC may not terminate the contracts at any amount less than contract value.

TFLIC is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with TFLIC, but may not be less than 0%. Such interest rates are reviewed for resetting on a quarterly basis for the Willis Stable Value Fund and on an annual basis for the TFLIC Stable 5 Fund.

4. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the unaudited information regarding the Plan as of and for the year ended December 31, 2016, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by TFLIC as an agent for the Trustee and furnished to the Plan administrator. The Plan administrator has obtained a certification from the agent for the Trustee that such information is complete and accurate. The self-directed brokerage account amounting to \$28,087,911 at December 31, 2016, the notes receivable from participants amounting to \$8,730,797 at December 31, 2016, and any related investment income, are not certified. These uncertified investments represent 4.5% of net assets available for benefits at December 31, 2016.

5. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated March 13, 2013, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan filed for another determination letter in January 2017 but has not received the final letter from the IRS. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Transactions with parties-in-interest include investments in shares of Willis Towers Watson plc common stock, contributions from the Company, investments in certain funds, and the investment contracts managed by TFLIC; therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to TFLIC for Plan-related services were \$507,720 for the year ended December 31, 2016.

At December 31, 2016 and 2015, the Plan held 1,104,043 and 415,672 shares of common stock of Willis Towers Watson plc, respectively, with fair values of \$16,517,751 and \$20,189,167, respectively.

7. FAIR VALUE MEASUREMENTS

The Plan follows the guidance of ASC 820, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- c) Inputs other than quoted prices that are observable for the asset or liability; and
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used.

Mutual funds — Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account — Account primarily consists of mutual funds and common stocks that are valued on the basis of readily determinable market prices and money market funds that are valued at the daily closing price as reported by the fund.

Common stock — Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values.

Investments at fair value	<u>\$ 658,827,648</u>	<u>\$ 4,913,161</u>	<u>\$ —</u>	<u>\$ 663,740,809</u>

Transfers Between Levels —The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.
