Report of Independent Auditors

To the Plan Administrator of the
Technip USA, Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Technip USA, Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 29, 2017 (date of Plan termination) and December 31, 2016, and the related statements of changes in net assets available for benefits for the period from January 1, 2017 through December 29, 2017 (date of Plan termination), and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company ("Fidelity" or the "trustee") the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee held the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from Fidelity as of December 31, 2017 and 2016 and for the years then ended that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

As discussed in the last paragraph of Note 1 to the financial statements, the Plan has been terminated and merged into the TechnipFMC Retirement Savings Plan effective December 29, 2017.

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental Schedule of Assets Held at Year End as of December 29, 2017 and the Schedule of Delinquent Participant Contributions for the Period From January 1, 2017 to December 29, 2017, which is the responsibility of Plan management, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules.

Report on Form and Content In Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Technip USA, Inc. 401(k) Profit Sharing

Notes to Financial Statements

December 29, 2017

1. Description of Plan

The following description of the Technip USA, Inc. 401(k) Profit Sharing Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the *Summary Plan Description* and the Plan Agreement for more complete information.

General

The Plan is a contributory defined contribution plan covering eligible employees of Technip USA, Inc., and certain participating employers (collectively, the “Company”). Employees become eligible to participate on the first day of the first month following commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Administration

The Administrative Committee is given all powers necessary to enable it to carry out its duties including, but not limited to, the power to interpret the Plan, decide on all questions of eligibility and the status and rights of participants, and to direct disbursements of benefits in accordance with the provisions of the Plan.

A trust has been established to hold and invest the contributions made by participants and the Company under the Plan. The trust is also used to accumulate the related earnings on those contributions and to pay related Plan benefits. Fidelity Management Trust Company (the “Trustee”) manages the trust and Fidelity Workplace Solutions, LLC performs record keeping services within the trust for the related accounts of individual participants.

Contributions

Participants may contribute up to 60% of eligible compensation on a pretax basis subject to certain Internal Revenue Service (“IRS”) limitations. Participants may also contribute a percentage of eligible compensation on an after-tax basis through December 31, 2013, subject to certain limits prescribed by law. Effective December 31, 2013 the Plan was amended to no longer allow new after-tax contributions. From that date forward participants may elect to make Roth 401(k) contributions into the Plan. The Internal Revenue Code limits an employee’s contribution for 2017 to a maximum of \$18,000 if under the age of 50 and up to a maximum of \$24,000 otherwise.

Effective January 1, 2016 the Plan was amended to provide for employer matching contributions each pay period based upon 100% of participant pretax contributions, up to the first 5% of eligible pay contributed by a participant. The auto-enrollment of new employees subsequent to January 1, 2016 provides for new employees to commence contributions of 5% of pay, increasing annually thereafter, with all auto-enrollees who have not opted-out to contribute at a rate of up to 6%. Participant and Company matching contributions are funded shortly after each pay date.

The Company may make a discretionary matching and/or profit-sharing contribution to the Plan. The profit-sharing contribution, if any, is determined annually by the board of directors and is allocated to each participant's account by using a ratio of that participant's compensation to the compensation of all participants. No profit-sharing contributions were made to the Plan for 2017.

Participants may allocate the investment of all contributions among the Plan's investment options at their discretion and may change their allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and (b) plan earnings and expenses. Allocations are based on participant account balances, as defined, or in some cases expenses are charged directly to the account of the participant initiating certain actions generating the expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their participant contributions plus actual earnings thereon. All participants in the Plan prior to January 1, 2006 and the participants of the Technip USA Corporation Plan that were merged into the Plan are 100% vested in employer contributions. Participants joining the Plan subsequent to 2005 vest in employer contributions at a rate of 20% per year of service, becoming fully vested after five years. Effective with the Plan amendment as of December 31, 2013, all contributions subsequent to that date are immediately 100% vested. Matching contributions prior to 2013 related to Global Plan employees (the Global Plan merged into the Plan beginning in 2013) vest on a separate schedule. Forfeitures may be used to reduce employer contributions or to pay administrative expenses of the Plan. During 2017, the Plan used \$8,395 of forfeitures to fund employer contributions and allocated the remaining \$414,336 of forfeitures to existing participant accounts on a pro rata dollar value basis just prior to the termination of the Plan. At December 29, 2017 and December 31, 2016, the Plan had approximately \$0 and \$222,686, respectively, of forfeitures available for future use.

Benefit Withdrawals

At retirement (on or after age 59½), termination of employment, death, or disability, participants may elect to withdraw any part of their accounts. Benefits may be paid as a

lump sum. Prior to termination of employment, participants may elect to withdraw all or a portion of their after-tax contributions. Withdrawals of pretax contributions prior to termination are also allowed in the event of undue financial hardship or after the attainment of age 59½. Non-rollover pretax withdrawals prior to age 59 ½ may be subject to additional federal excise taxes.

Notes Receivable from Participants

Participants may borrow from their accounts up to the lesser of \$50,000 less the participant's highest outstanding loan balance during the preceding 12 months or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The interest rate is set by the plan administrator and is based on the prime lending rate at the time of the loan. At December 31, 2016 the interest rates for participant loans ranged from 4.25% to 7.25% with maturities through 2026. Principal and interest are paid ratably through payroll deductions. Loans not repaid on a timely basis at termination of employment with the Company may be treated as a distribution to the participant.

Administrative Expenses

The Company pays certain administrative expenses of the Plan, and certain administrative expenses of the Plan may be paid using Plan forfeitures or Plan revenue credit account balances. Participants may incur origination, loan maintenance and document delivery expenses in connection with loans received from the Plan or other transactions, and these expenses are charged directly to the requesting participant's account. The accounts of Plan participants electing to receive personalized financial advisory services from an affiliate of the trustee are charged an asset based fee which is also included in administrative expenses in the Plan's financial statements.

The Plan participates in a revenue credit pricing plan which results in the Trustee remitting a credit to the Plan for a portion of the fees it has earned for recordkeeping and custodial services on a quarterly basis, which may be used by the Plan to pay Plan expenses or which may be allocated to the accounts of participants as defined in the Plan Agreement. The Plan received revenue credits totaling \$196,267 in excess of agreed upon participant maintenance fees in 2017. Revenue credits totaling \$69,823 were used to pay administrative fees in 2017. Just prior to the termination and merger of the Plan, the remainder of the revenue credits totaling \$237,536 were allocated to then existing participant accounts on a pro rata dollar value basis. At December 29, 2017 and December 31, 2016 the Plan's revenue credit account totaled \$0 and \$110,289, respectively, which had not yet been used to fund the payment of Plan expenses or allocated to the accounts of participants.

Plan Termination

Effective December 29, 2017 the Plan was terminated and merged into the TechnipFMC Retirement Savings Plan (the "FMC Plan"). This resulted in the transfer of participant

balances and loans into the FMC Plan on December 29, 2017, with the participants becoming participants in the FMC Plan from that day forward. The FMC Plan includes provisions that differ from those of the Plan, but do not decrease participants' rights or benefits. The participants are fully vested in their balances as of December 29, 2017 due to the Plan termination.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan Administrators have reviewed and evaluated events subsequent to December 29, 2017 through June 27, 2018, the date the financial statements were available to be issued, for their impact on amounts recorded, and related disclosures, in these financial statements, and incorporated the related effects as appropriate.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as proscribed by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded under the accrual method. Dividends are recorded on the ex-dividend date.

The net appreciation or depreciation in the fair value of the investments as presented by the Plan in the statement of changes in net assets available for plan benefits consists of the realized gains or losses and the net unrealized appreciation or depreciation of the investments held. Investment advisory fees are incurred by plan participants indirectly as such fees serve to reduce the carrying value of investments (and therefore are a component of net appreciation in the fair value of investments).

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent loans are treated as distributions based on the terms of the plan document. Related interest income is recognized under the accrual method.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Risks and Uncertainties

The Plan provides for investments in various investment securities that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits and participant account balances.

3. Data Certified by the Trustee (unaudited)

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 29, 2017 (excluding participant loans), and net appreciation in fair value of mutual funds and investment income for 2017 (excluding interest income on participant loans of \$194,091) was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such amounts to the statements and supplemental schedule.

4. Investments - Fair Value Measurements

FASB ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: |

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 29, 2017 and December 31, 2016.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan as evidenced by quoted prices on national exchanges.

Money market funds: Valued at fair value based upon the monetary value of contributions into the fund.

Common collective trusts: Valued using NAV (determined by the trust manager as the contract value of \$1.00 per share, the price at which shares are purchased and sold) as the practical expedient for fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 29, 2017 and December 31, 2016:

Assets at Fair Value as of December 29, 2017			
	Level 1	Level 2	Total
Mutual funds	\$ -	\$ -	\$ -
Money market funds	-	-	-
Total assets in fair value hierarchy	<u>\$ -</u>	<u>\$ -</u>	-
Investments measured at NAV – common collective trust funds (a)			-
Total assets at fair value			<u>\$ -</u>

Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Total
Mutual funds	\$346,176,379	\$ -	\$346,176,379
Money market funds	<u>21,760,053</u>		<u>21,760,052</u>
Total assets in fair value hierarchy	<u>\$367,936,432</u>	<u>\$ -</u>	367,936,432
Investments measured at NAV – common collective trust funds (a)			22,286,056
Total assets at fair value			<u>\$390,222,488</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

There were no Level 3 assets held by the Plan during 2017 and 2016. There were no changes in classifications between levels in 2017 and 2016.

The Plan's investment in the Fidelity Managed Income Portfolio II (a common collective trust fund) is a fully benefit responsive investment contract. The fund's investment

objective is to seek preservation of capital, and to provide a competitive level of income over time consistent with the preservation of capital objective. This fund invests in a variety of fixed income securities including conventional and synthetic investment contracts issued by insurance companies and other financial institutions, debt obligations issued or guaranteed by the US government and its affiliates, obligations issued by other local and international governmental units, asset-backed or collateralized securities, bonds or notes payable, derivatives, cash or short-term obligations or fixed income investment vehicles. Contract rates for the fund are generally set monthly by the fund manager, generally at the discount rate that would equate the estimated future market value of the fund's portfolio to the contract value. The crediting interest rate paid by the fund and the fair value for the fund will be impacted by many factors, including market interest rates, creditworthiness of contract issuers and fund purchases and redemptions by unit holders in the Portfolio. Certain actions taken by the Plan Sponsor, such as offering directly competing similar investments, failing to continue the operation of the Plan under existing regulations, or other actions including, but not limited to, the sale of a division, corporate layoffs, or early retirement programs that would have a material adverse effect on the portfolio's cash flow could limit the ability of participants to make withdrawals at contract value for up to twelve months. The Plan has no current intentions to take actions that would limit the ability of participants to transact at contract value. The ability to transact at contract value is in part attributable to the fund manager having purchased a wrap contract for the portfolio, which provides a level of insurance that would cover the difference between fair market value and contract value. The issuer of wrap contracts may cancel the contracts with some limitations. There are a limited number of entities that provide wrap contracts and their viability could have an impact on this investment and similar investments in the future. The Plan and its participants have no unfunded commitments to further contribute to this fund.

All plan net appreciation in fair value reported in the financial statements relate to mutual fund investments.

5. Income Tax Status

Effective December 31, 2012 the Plan adopted the Fidelity Volume Submitter Basic Plan Document No. 14, primarily to incorporate conforming law changes. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since it was adopted, and an application for a new determination letter was filed with the IRS in November 2014. Effective May 27, 2015 the Plan adopted the Fidelity Volume Submitter Basic Plan Document No. 17, which is a restatement of Plan Document 14 to incorporate subsequent legal changes. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 29, 2017 there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

6. Parties in Interest

The Trustee (and its affiliates), participants in the Plan and the Company are parties-in-interest as defined in Section 406 of ERISA.

Certain Plan investments are in shares of mutual funds, common collective trust funds and money market funds managed by affiliates of the Trustee. During the period of time that the Trustee has served the Plan, transactions with the Trustee and its affiliates qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Loans to participants are party-in-interest transactions, and are exempt from the prohibition of party-in-interest transactions by ERISA.

The Company provides certain administrative services for and to the Plan with no reimbursement.
