1 - Description of Plan

The following description of the Certilman Balin Adler & Hyman, LLP Salary Reduction & Bonus Deferral Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a 401(k) defined contribution plan covering all eligible, permanent employees of Certilman Balin Adler & Hyman, LLP (the "Company"), as defined in the Plan, who have completed six months of service. Leased employees, if any, are not eligible to participate in the Plan. Eligible participants may enter the Plan on the first day of a calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b. ***Contributions*** - Plan contributions consist of compensation reduction elections of participants (401(k) contributions), employer discretionary matching contributions, employer discretionary profit-sharing contributions, and rollovers. Under the terms of the Plan, the Company may determine to match up to 100% of the employee elective deferrals. For the year ended December 31, 2017, the Company elected not to match employee deferrals.

   Employer discretionary profit-sharing contributions are determined annually by the Company. Each participant is considered to be his or her own employee group for the purpose of allocating employer discretionary profit-sharing contributions. Contribution amounts are calculated based on a discretionary percentage of each participant's considered compensation. For the year ended December 31, 2017, the Company made discretionary profit-sharing contributions totaling $989,936.

   All investments are participant-directed. Participants direct the investment of current contributions into a variety of pooled separate accounts as offered through John Hancock Life Insurance Company. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contributions and the Company's contribution to the Plan on behalf of the participant; allocations of earnings or losses are based upon actual performance of each participant's investment elections. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their elective contributions, the rollover portion of their account balances, and the earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus earnings thereon is based on years of credited service, defined as 1,000 hours in a calendar year, according to a vesting schedule of 20% per year of credited service, beginning with the second full year of service. A participant is 100% vested in the employer discretionary contribution and earnings thereon upon attainment of the earlier of six years of credited service, normal retirement age, disability, or death.

e. ***Notes Receivable from Participants*** - Participants may borrow from their Plan accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made, or 50% of their vested account balances less current outstanding note balances. All notes, other than those used to purchase a principal residence, must be repaid within five years. Notes used to purchase a principal residence can currently have terms of up to 30 years. The notes are secured by the vested balance in the participant's account. The interest rate on each note is set at prime plus 1% at inception. At December 31, 2017, outstanding notes bear interest at 4.25% or 5.25%, and mature at various dates through

July 2037. Each loan is being repaid in either bi-weekly or semi-monthly equal installments, depending on the participant's pay frequency, and is self-amortizing. Upon termination of employment, remaining balances due on such notes become immediately due. Should such amounts remain outstanding for more than 90 days from termination, the remaining balance will be a deemed distribution, subject to taxes and penalties, as applicable.

f. ***Payment of Benefits*** - Participants may elect to receive distribution of their benefits upon retirement, in the event of death or disability, in the event of immediate and heavy financial hardship, or upon termination of employment. Normal retirement age is 60. Participants who have vested benefits in excess of $5,000 and are eligible to receive benefits due to retirement, death or disability, hardship, or termination, may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or installment payments over a period of years that does not exceed the life expectancy of the participant or, if applicable, the beneficiary. If, at the time of termination, the participant's vested account balance does not exceed $5,000, the participant may receive a lump-sum distribution of his or her benefits at the discretion of the Plan's trustees.

g. ***Plan Costs*** - The Plan provides for direct transactional charges, such as for benefit payments or loan transactions, to be directly charged to the participant involved. Investment-related expenses are included in *net appreciation in fair value of investments* in the accompanying statement of changes in net assets available for benefits.

h. ***Forfeitures*** - Forfeitures by participants, as defined in the Plan, may be used by the Plan for the payment of Plan expenses or to reduce employer contributions to the Plan. During 2017, employer contributions receivable were reduced by $11,984 of forfeited nonvested accounts, which funds are included in *cash* in the accompanying statements of net assets available for benefits and will be utilized to fund the employer 2017 contribution. At December 31, 2017, all previously forfeited funds had been utilized for such purposes.

2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820) Disclosures for *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent).* This ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by FASB ASC 820, *Fair Value Measurement.* The amendments in ASU 2015-07 apply to fiscal years beginning after December 15, 2016, and for interim periods within those fiscal years. Accordingly, management has adopted this standard for the year ended December 31, 2017, with retrospective application resulting in a change in the fair value hierarchy chart in footnote 4 for the year ended December 31, 2016. The adoption of this ASU has no impact on previously reported net assets available for benefits.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

a. ***Investment Valuation and Income Recognition*** - Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and insurance company. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought or sold, as well as held during the year.

b. ***Payments of Benefits*** - Benefits are recorded when paid.

c. ***Estimates*** - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

d. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded. During the year ended December 31, 2017, two participants ceased making loan repayments and, accordingly, their loans in the aggregate amount of $12,106 were recorded as *deemed distributions* in the accompanying statement of changes in net assets available for benefits.

e. ***Other Income*** - Other income includes $61,857 of Plan expense reimbursements from John Hancock Life Insurance Company ("the Custodian") pursuant to a Plan Expense Reduction Agreement (the "Agreement"), of which $21,000 was used to pay Plan administrative expenses and $40,857 is reported as *other receivable* at December 31, 2017 and was subsequently allocated to participants.

3 - Information Certified by the Custodian (Unaudited)

Certain information related to investments (excluding investments in common stocks as disclosed in Note 4) and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments in pooled separate accounts and notes receivable from participants held at December 31, 2017 and 2016, and net appreciation in fair value of investments and (excluding the net decrease in fair value of common stock of $1,953 as included in *net appreciation in fair value of investments* in the statement of changes in net assets available for benefits) interest income on notes receivable from participants for the year ended December 31, 2017 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company of New York, the Custodian of the Plan.

4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Continued

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies consistently used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled Separate Accounts – Valued at net asset value (NAV) of units held. The NAV is used as a practice expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sold the investment for an amount different than the reported NAV.

Common Stock - Valued at the closing price reported on an active market on which the individual security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2017:

	Assets at Fair Value			
	Level 1	*Level 2*	*Level 3*	*Total*
Common Stock	$ 1,790	$ -	$ -	$ 1,790
Total Assets in the Fair Value Hierarchy	1,790	-	-	1,790
Investments Measured at NAV	-	-	-	37,652,317
Total Investments at Fair Value	$ 1,790	$ -	$ -	$37,654,107

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at December 31, 2016:

	Assets at Fair Value			
	Level 1	*Level 2*	*Level 3*	*Total*
Common Stock	$ 3,743	$ -	$ -	$ 3,743
Total Assets in the Fair Value Hierarchy	3,743	-	-	3,743
Investments Measured at NAV	-	-	-	31,089,716
Total Investments at Fair Value	$ 3,743	$ -	$ -	$31,093,459

The redemption notice period for pooled separate accounts reported as *Investments Measured at NAV* with a reported net asset value per share is 30 days. Once eligible for redemption, these pooled separate accounts can be redeemed on a daily basis. There are no unfunded commitments or other redemption restrictions.

The Plan's policy is to recognize transfers amongst levels as of the date of the event or change in circumstances that caused the transfer. There were no transfers amongst levels for the years ended December 31, 2017 and December 31, 2016, respectively.

The following describes the investment strategies for pooled separate accounts, reported as investments measured at NAV, held by the Plan for the years ended December 31, 2017 and 2016:

5 - Collective Investment Trust

The Plan's investment in a collective investment trust is entirely invested in John Hancock Stable Value Fund Collective Investment Trust (the "Stable Value Fund"). The Stable Value Fund invests in fully benefit-responsive investment contracts with insurance companies and other financial institutions. The Plan's investment in the Stable Value Fund is deemed to be a fully benefit-responsive investment. The contract value of the investment contract was $5,454,402 and $5,709,279 as of December 31, 2017 and 2016, respectively.

Contract value, as reported to the Plan by John Hancock Life Insurance Company of New York represents contributions made under the contract, plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero.

Because the account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the Stable Value Fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract; (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Management believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

6 - Income Tax Status

The IRS determined and informed the Plan's third-party administrator by a letter dated March 16, 2010 that its prototype plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and is exempt from income taxes. This Plan was amended and restated on January 1, 2017. Plan management believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust continues to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; there are currently no audits for any tax periods in progress.

7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan document to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8 - Party-in-Interest Transactions

The Company is the Plan sponsor and administrator. Certain trustees are partners or employees of the Company and, therefore, participants in the Plan. Plan investments include pooled separate accounts and a collective investment trust managed by the Custodian or its affiliates and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in *net appreciation in fair value of investments,* as they are paid through revenue-sharing, rather than a direct payment.

9 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10 - Subsequent Events

Management has evaluated subsequent events through July 9, 2018, the date the financial statements were available to be issued.
