Management's Responsibility for the Modified Cash Basis Financial Statements

Management is responsible for the preparation and fair presentation of these modified cash basis financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of modified cash basis financial statements that are free from material misstatement, whether due to fraud or error.

Our responsibility is to express an opinion on these modified cash basis financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company (the "Trustee"), except for comparing such information with the related information included in the modified cash basis financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended September 30, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these modified cash basis financial statements.

Basis of Accounting

We draw attention to Note 2 to the modified cash basis financial statements, which describes the basis of accounting. The modified cash basis financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Group Pension Plan for Employees of Central Mutual Insurance Company

Notes to Modified Cash Basis Financial Statements

September 30, 2017 and 2016

Note 1 - Plan Description

The following description of Group Pension Plan for Employees of Central Mutual Insurance Company (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined benefit plan covering substantially all eligible employees of Central Mutual Insurance Company (the "Company") who have met minimum age and length of service requirements as defined in the plan agreement. The Plan is administered by the Group Pension Plan Administrative Committee (the "Plan Administrator") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting

Employees with five or more years of vesting service are entitled to monthly pension benefits beginning at their normal retirement age, as defined in the plan document.

Pension Benefits

At normal retirement age, the pension benefit formula is equal to 2 percent of the participant's average monthly compensation multiplied by the participant's credited service, up to 30 years, plus 1/2 percent of the participant's average monthly compensation multiplied by his or her credited service in excess of 30 years, minus 1-2/3 percent of the participant's primary Social Security benefit multiplied by the participant's credited service, up to 30 years (limited to the maximum of 50 percent of the Social Security benefit). The aforementioned benefit shall not be less than \$50 multiplied by the participant's credited service after October 1, 2004, up to \$250. Beginning on October 1, 1993, the monthly salary used in computing an employee's average monthly compensation is the employee's monthly wage as of October 1 each year, plus 1/12 of any overtime pay or bonus pay received in the prior 12-month period, but excluding commissions or other additions. Average monthly compensation is defined as the total of the monthly salary (as previously defined) for the five highest years of the last 10 years of employment with the Company prior to an employee's retirement date, divided by five.

The Plan permits early retirement up to 10 years prior to normal retirement age. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

Upon retirement, eligible employees may elect to receive their accrued benefit as a joint and survivor annuity, a life annuity, or through other annuity options permitted by the Plan. Terminated employees with the present value of their accumulated plan benefits not exceeding \$1,000 that have not made an election within 60 days will receive a lump-sum distribution as soon as administratively feasible. Terminated employees with the present value of their accumulated plan benefits between \$1,001 and \$5,000, who have not made an election within 60 days to have their mandatory distribution paid directly to an eligible retirement plan, specified by the employee, in a direct rollover or to receive the distribution directly, will have their account value rolled into a Vanguard Federal Money Market Individual Retirement Account (IRA). The Plan also contains provisions in the event of death or long-term disability and various other provisions related to pension benefits.

Upon retirement or termination, an employee may elect to receive his or her participant contributions plus interest in a lump-sum cash payment. See contributions section below for additional details.

Note 1 - Plan Description (Continued)

Contributions

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Contributions are also made based upon their deductibility under the Internal Revenue Code and upon the continued qualification of the Plan as outlined in the plan agreement. Annual contributions meet the minimum funding requirements of ERISA. There were no contributions required or made for the plan years ended September 30, 2017 or 2016.

Prior to October 1, 1987, all plan participants were required to contribute to the Plan. These contributions are 100 percent vested to the participant. Effective October 1, 1987, participant contributions are not required or allowed. At September 30, 2017 and 2016, assets attributable to participant contributions made prior to October 1, 1987 were \$219,850 and \$233,369, respectively. The participant contributions are invested at the discretion of the Company.

Upon retirement, termination, or death, the participant or elected beneficiary can elect to either withdraw their contributions plus earnings from the Plan, or receive a calculated pension benefit attributable to the participant's contributions plus earnings. Participant contribution accounts are currently credited at the interest rate equal to 120 percent of the federal midterm rate defined in the Internal Revenue Code in effect for the first month of each plan year. The interest rate credited to employee contribution accounts was 1.56 and 2.00 percent during the years ended September 30, 2017 and 2016, respectively.

Payment of Benefits

Distributions are payable upon the retirement, death, disability, or termination of employment in various installment annuities. A participant may elect to receive his or her participant contributions plus interest, but not company contributions, in a lump-sum cash payment. See contributions section above for additional details.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Vanguard Fiduciary Trust Company or its affiliates. Vanguard Fiduciary Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). Revenue is recognized when cash is received, expenses are recognized when paid, and investments are recognized at fair value. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred.

Investment Valuation

The Plan's investments are stated at fair value, based on quoted market values.

See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits are calculated based on participating employees' credited years of service and average compensation existing at that time.

Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at September 30, 2017 and 2016 are summarized as follows:

Actuarial cost method	Unit Credit Cost Method														
Assumed rate of return	7.25 percent per annum at September 30, 2017 and 2016														
Mortality basis	RP-2014 Total Dataset Employee and Annuitant mortality regressed to 2006 with Scale RP-2014 and projected with Scale MP-2017 at September 30, 2017 and RP-2014 Total Dataset Employee and Annuitant mortality regressed to 2006 with Scale RP-2014 and projected with Scale MP-2016 at September 30, 2016														
Retirement age	Stratified rates from age 55 to 67, as follows: <table><tr><td>Age</td><td>Rate</td></tr><tr><td>55-59</td><td>5%</td></tr><tr><td>60-61</td><td>10</td></tr><tr><td>62</td><td>40</td></tr><tr><td>63-64</td><td>25</td></tr><tr><td>65-66</td><td>50</td></tr><tr><td>67</td><td>100</td></tr></table>	Age	Rate	55-59	5%	60-61	10	62	40	63-64	25	65-66	50	67	100
Age	Rate														
55-59	5%														
60-61	10														
62	40														
63-64	25														
65-66	50														
67	100														
Employee turnover	66.67 percent of select rates and 66.67 percent of ultimate rates from a termination study on financial institutions at September 30, 2017 and 2016														

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The modified cash basis financial statements and related disclosures include evaluation of events up through and including July 10, 2018, which is the date the modified cash basis financial statements were available to be issued.

On April 24, 2018, the Plan was amended to allow a special deferred vested terminated participant buyout, which allows participants who terminated on or prior to April 1, 2018 to elect to receive a lump-sum distribution of their actuarially calculated benefit. The buyout is eligible to participants who are not currently receiving benefits. Participants can elect the lump-sum buyout until July 16, 2018, and the lump-sum payment will be made by the Plan no later than September 30, 2018. The Plan has not determined the impact on the financial statements as a result of the lump-sum buyout.

Note 3 - Unaudited Information

Vanguard Fiduciary Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying modified cash basis financial statements and supplemental modified cash basis schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefit is determined by consulting actuaries. The calculations of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the years ended September 30, 2017 and 2016, the most recent actuarial valuations, are as follows:

	2017	2016
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefit payments	\$ 41,983,537	\$ 42,903,789
Other vested participants	43,286,861	40,177,589
Total vested benefits	85,270,398	83,081,378
Nonvested benefits	2,787,313	2,609,992
Total actuarial present value of accumulated plan benefits	\$ 88,057,711	\$ 85,691,370

A summary of significant changes in the actuarial present value of accumulated plan benefits during the years ended September 30, 2017 and 2016 is as follows:

	2017	2016
Actuarial present value of accumulated plan benefits - Beginning of year	\$ 85,691,370	\$ 83,505,076
Increase (decrease) during the year attributable to:		
Benefits accumulated	1,276,567	2,702,602
Interest accumulated	6,053,003	5,895,166
Benefits paid	(4,481,770)	(4,462,958)
Changes in actuarial assumptions	(481,459)	(1,948,516)
Net increase	2,366,341	2,186,294
Actuarial present value of accumulated plan benefits - End of year	\$ 88,057,711	\$ 85,691,370

The change in actuarial assumption in 2017 of \$481,459 was a result of a change in the mortality table used in 2017 as compared to 2016 as disclosed above. The change in actuarial assumption in 2016 of \$1,948,516 was a result of a change in the mortality table used in 2016 as compared to 2015.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at September 30, 2017 and 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Group Pension Plan for Employees of Central Mutual Insurance Company

Notes to Modified Cash Basis Financial Statements

September 30, 2017 and 2016

Note 5 - Fair Value Measurements (Continued)

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

		Assets Measured at Fair Value on a Recurring Basis at September 30, 2017	
		Investments (at Fair Value)	Level 1
Mutual funds	\$	131,707,479	\$ 131,707,479
		Assets Measured at Fair Value on a Recurring Basis at September 30, 2016	
		Investments (at Fair Value)	Level 1
Mutual funds	\$	122,423,195	\$ 122,423,195

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

The Company has the right to amend or terminate the Plan at any time. No amendment shall cause any reduction in the amount of accrued benefits or cause the assets of the Plan to be used for purposes other than for the benefit of the participants. Upon termination, the assets in the Plan shall be allocated in the priorities set forth in ERISA and its related regulations and the plan document. In addition, under the provisions of ERISA, if the Plan is terminated, the Company may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination; however, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated pension benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC at the date of the Plan's termination.
