Independent Auditor's Report

To the Plan Administrator of the
Nidec Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Nidec Retirement Plan (the Plan), which comprise the statement of net assets available for benefits as of September 30, 2017 and the related statement of changes in net assets available for benefits for the year ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the summarized in Note J, which was certified by the Northern Trust Company for the period October 1, 2016 to September 30, 2017 and the Principal Trust Company for the period February 1, 2017 to September 30, 2017, the trustees of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the trustees as of and for the year ended September 30, 2017, that the information provided to the Plan Administrator by the trustees are complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2017 financial statements. Accordingly, we do not express an opinion on the 2017 financial statements referred to in the first paragraph.

Other Matter—Supplemental Schedules

The supplemental Schedules of Assets (Held at End of Year) and Reportable Transactions as of September 30, 2017, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Other Matter—2016 Financial Statements

The financial statements of the Plan as of September 30, 2016, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Northern Trust Company, the trustee of the Plan. Their report, dated July 14, 2017, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations 2017

The form and content of the information included in the 2017 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NIDEC RETIREMENT PLAN

Notes to Financial Statements

September 30, 2017
(See Independent Auditor's Report)

Note A – Description of the Plan

The following description of the Nidec Retirement Plan (formerly the Pension Plan for Kato Engineering, Inc. Employee Member of International Brotherhood of Electrical Workers Local 1999) (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan sponsored by Nidec Motor Corporation (the Company) covering employees of the following subsidiaries of the Company:

- Control Techniques – Americas, LLC.
- Leroy-Somer North America Division (Lexington)
- Leroy-Somer Alternators North America/Kato
- Kato Engineering Employee Members of International Brotherhood of Electrical Workers Local 1999

Effective February 1, 2017, Nidec Corporation became the Plan's sponsor. Prior to February 1, 2017, the Plan was sponsored by Emerson Electric Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

Under terms of the Plan, participants are eligible for monthly benefit payments upon reaching the normal retirement age of 65. However, a participant whose employment with the Employer is terminated, is eligible for early retirement benefit payments commencing at age 55, provided the credited service of the employee at separation is at least 10 years. Early retirement benefits are available and require age and service requirements under certain appendices of the Plan. Death benefits are paid pursuant to the applicable appendix of the Plan and applicable laws.

The Plan also contains provisions for disability death and automatic survivor benefits.

Vesting

Under the terms of the Plan, a participant who terminates before becoming entitled to retirement pension benefits is eligible for a pension benefit if the participant has completed five years or more of vesting services.

Notes to Financial Statements - Continued

September 30, 2017
(See Independent Auditor's Report)

Note A – Description of the Plan (Continued)

Death and Disability Benefits

If an employee dies after becoming vested, the participant's surviving spouse shall be paid a survivor annuity for the life of the surviving spouse, equal to the annuity that would be payable to the surviving spouse under an automatic survivor benefit commencing at the date the employee would have become eligible for an early retirement benefit had the employee lived. Active employees who become totally disabled receive annual disability in accordance with the terms of the Plan document.

Contribution and Funding

Contributions from the Company are subject to Internal Revenue Service (IRS) limitations and are based on actuarial calculations of normal cost. The Company satisfied the minimum funding requirements of ERISA.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note C). The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by investment advisors and custodians.

NIDEC RETIREMENT PLAN

Notes to Financial Statements - Continued

September 30, 2017
(See Independent Auditor's Report)

Note B – Summary of Significant Accounting Policies (Continued)

Investment Valuation (Continued)

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

On February 1, 2017, substantially all investments were transferred from the Emerson Electric Co. Master Trust (the Master Trust) held by the Northern Trust Company to the Principal Trust Company (Principal).

Expenses

Investment management and certain administrative expenses are paid by the Plan. Expenses include Pension Benefit Guaranty Corporation (PBGC) premiums and professional fees. Certain investments related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Management has evaluated all subsequent events through July 9, 2018, which represents the date the financial statements were available to be issued.

Note C – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NIDEC RETIREMENT PLAN

Notes to Financial Statements - Continued

September 30, 2017
(See Independent Auditor's Report)

Note C – Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts/Collective trusts: Valued at the NAV of units of an insurance company pooled separate account or bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by these investments less its liabilities. This practical expedient is not used when it is determined to be probable that the investment will sell for an amount different than the reported NAV.

Equities: Valued at the closing price reported on the active market on which the securities are traded.

Note C – Fair Value Measurements (Continued)

Other assets: Include cash, interests in mixed asset funds investing in commodities, natural resources, agriculture and exchange-traded real estate funds, life insurance contracts (United States), and share in certain general investment funds of financial institutions or insure arrangements (non-United States) that typically ensure no market losses or provide for small minimum return guarantee.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2017.

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,986,432	$ -	$ -	$ 15,986,432
Pooled separate accounts	-	-	-	7,481,794
Total	$ 15,986,432	$ -	$ -	$ 23,468,226

2016 fair value measurements of the Master Trust are presented in Note E.

Note D – Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of September 30:

	2017			
Investment	**Fair Value**	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Pooled separate accounts	**$ 7,481,794**	**-**	**Daily**	**Daily**

2016 net asset value per share information is presented in Note E.

Note E – Interest in Master Trust - 2016

The Plan's investment in the Master Trust that was established for the investment of assets of the Plan and several other Emerson Electric Co. sponsored retirement plans through January 31, 2017. Each plan in the Master Trust had an undivided interest in the Master Trust. At September 30, 2016, the Plan's interest in the net assets of the Master Trust was approximately 0.53%. Investment income and investment expenses relating to the Master Trust were allocated to the individual plans based on average monthly balances invested by each plan. The net assets of the Master Trust at September 30, 2016 are summarized as follows:

	2016 (In Thousands)
Assets	
Investments, at fair value	
Cash and cash equivalents	$ 140,695

Note F – Plan Termination and PBGC Matters

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note G – Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees of their beneficiaries.

The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Note G – Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in the valuation as of October 1, 2016 are as follows:

Discount rate	3.50%
Mortality	RP-2014 Mortality Table, with no collar adjustments adjusted backwards to 2006 with scale MP-2014 projections removed and projected generationally with scale MP-2016 were used
Retirement age	Varies by age between 55 and 69 with 100% retired by age 70

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits as of October 1, 2016 is as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Participants and/or beneficiaries currently receiving benefits	$ 8,135,938
Other participants	21,346,315
Total vested benefits	29,482,253
Non-vested benefits	197,575
Total actuarial present value of accumulated Plan benefits	$ 29,679,828

The changes in actuarial present value of accumulated Plan benefits for the year ended September 30, 2016, consist of the following:

Actuarial present value of accumulated Plan benefits, October 1, 2015	$ 24,976,439
Increase during the year attributable to	
Benefits accumulated	739,477
Actuarial	(157,570)
Increase for interest due to the decrease in discount period	1,111,304
Benefits paid	(577,394)
Assumption changes	3,587,572
Net increase	4,703,389
Actuarial present value of accumulated Plan benefits, September 30, 2016	$ 29,679,828

Note G – Actuarial Present Value of Accumulated Plan Benefits (Continued)

Changes in assumptions since the prior valuation are as follows:

- The discount rate was updated from 4.37% to 3.50%.

- The mortality was changed to the RP-2014 mortality tables with no collar adjustments adjusted backward to 2006 with scale MP-2014 projections removed and projected generationally with scale MP-2016.

Note H – Income Tax Status

The IRS has determined and informed the Company by a letter dated September 20, 2016, that the Plan and related Master Trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

Note I – Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note J – Information Certified by the Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at September 30, 2017 and 2016, and net appreciation in fair value of investments, interest, dividends, investment expenses for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Northern Trust Company for the period October 1, 2016 to September 30, 2017 and the Principal Trust Company for the period February 1, 2017 to September 30, 2017.

Note K – Parties-In-Interest

The Plan's investments were held at the Northern Trust Company and are currently held at the Principal Trust Company, the trustees. The Trustees charge fees for the management of the accounts. Fees charged to the Trust are ordinary and customary. These fees qualify as permitted party-in-interest transactions under ERISA.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued

Sources of Data and Other Information

The prior plan sponsor, Emerson, furnished participant data as of 10/1/2016. Information on assets, contributions and plan provisions was supplied by the prior plan sponsor as well. Additional information on contributions and plan provisions was supplied by the new plan sponsor, Nidec Motor Corporation. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	Assumed plan related expenses are set based on a combination of recent plan experiences and expectations for the current year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed termination rates differ by age and service because of observed differences in termination rates by service.
Retirement	Retirement rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Retirement rates differ by eligibility for enhanced early retirement benefits because of the observed effects the availability of these benefits has on retirement rates.

SCHEDULE SB ATTACHMENTS

Commencement dates	Commencement dates were based on an annual high-level review of experience, including considerations of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430. The assumed plan-related expenses added to the target normal cost were changed from $130,000 for the prior valuation to $170,000 for the current valuation to account for higher expected expenses to be paid from the trust.
Change in methods since prior valuation	There have been no significant changes in methods from the prior valuation.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Nidec Motor Corporation
EIN/PN	27-3330722 / 003
Plan Name	Nidec Retirement Plan
Valuation Date	October 1, 2016
Enrolled Actuary	Elizabeth M. Ashmore
Enrollment Number	17-07176

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of October 1, 2016

The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

For illustration purposes only, below is a hypothetical determination of the average retirement age based on retirement as the only decrement.

Age	Retirement Rate	Assumed Number Eligible	Assumed Number Retiring	Age * Number Retiring

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued

Sources of Data and Other Information

The prior plan sponsor, Emerson, furnished participant data as of 10/1/2016. Information on assets, contributions and plan provisions was supplied by the prior plan sponsor as well. Additional information on contributions and plan provisions was supplied by the new plan sponsor, Nidec Motor Corporation. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	Assumed plan related expenses are set based on a combination of recent plan experiences and expectations for the current year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed termination rates differ by age and service because of observed differences in termination rates by service.
Retirement	Retirement rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Retirement rates differ by eligibility for enhanced early retirement benefits because of the observed effects the availability of these benefits has on retirement rates.

SCHEDULE SB ATTACHMENTS

Commencement dates	Commencement dates were based on an annual high-level review of experience, including considerations of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430. The assumed plan-related expenses added to the target normal cost were changed from $130,000 for the prior valuation to $170,000 for the current valuation to account for higher expected expenses to be paid from the trust.
Change in methods since prior valuation	There have been no significant changes in methods from the prior valuation.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing ten years of credited service
Postponed retirement	Retirement after NRD
Deferred vested termination	Termination for reasons other than death or retirement after completing five years of credited service
Disability	If eligible for Social Security
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse for one year prior to death

Benefits Paid Upon the Following Events

Normal retirement	The accrued benefit, payable immediately
Early retirement	The accrued benefit, reduced actuarially for early payment
Postponed retirement	The accrued benefit, including service to actual retirement
Deferred vested termination	The accrued benefit, payable at NRD
Disability	The accrued benefit, payable at NRD with service accrual continuing to NRD
Preretirement death	50% of the accrued benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for early commencement, if any.

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity. Optional form is a 75% joint and survivor annuity. Actuarial equivalence is based on an interest rate of 6.5% and the UP84 Unisex mortality table.
Pension Increases	None
Plan participants' contributions	None
Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect. Increases in the dollar limits are not assumed for funding or AFTAP purposes.

Future Plan Changes

On January 31, 2017 the plan was amended to include the future service and pay accruals for former Emerson Retirement Plan participants acquired by Nidec Motor Corporation. The plan amendment did not have a material impact on the plan's AFTAP.

Changes in Benefits Valued Since Prior Year

In addition to the reflection of the current year changes in the Internal Revenue Code maximums on benefits and pay, any benefit multiplier increases scheduled to occur (during the plan year for purposes of determining contribution requirements in accordance with ERISA and the Internal Revenue Code) have been reflected.
