THE TORO COMPANY PLYMOUTH UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements
September 30, 2017 and 2016

Note 1 — Description of Plan

The Toro Company (the "plan administrator" or "plan sponsor") is in the business of designing, manufacturing, and marketing professional turf maintenance equipment and services, turf irrigation systems, landscaping equipment and lighting products, snow and ice management products, agricultural irrigation systems, rental and specialty construction equipment, and residential yard and snow thrower products. The Toro Company sells its products worldwide through a network of distributors, dealers, mass retailers, hardware retailers, home centers, as well as online (direct to end-users).

Effective October 1, 1987, a defined benefit plan was established by Outboard Marine Corporation, later changed to Lawn-Boy, Inc., and now called The Toro Company Plymouth Union Employees' Pension Plan (the "Plan"). Plan assets were held by JP Morgan Chase Bank, N.A., as trustee until August 31, 2016. Beginning September 1, 2016, the Plan assets are held with Wells Fargo Bank, N.A., as trustee. As of September 30, 2017, the Plan covered 145 participants who are or were represented by a collective bargaining unit at the time of their active employment. The Toro Company froze the Plan to any new participants in fiscal 2015. Existing participants in the Plan will continue to accrue future benefits under the Plan until their date of termination or determination date.

Benefits are paid to participants when their retirement dates are reached. The normal retirement date under the Plan is the first day of the month coinciding with or immediately following the participant's normal retirement age. A participant's normal retirement age is age 65, except that it shall not be earlier than the earlier of (1) the date on which the participant completes five years of vesting service or (2) the first day of the Plan year that contains the fifth anniversary of the date on which the participant becomes an active participant. A participant is entitled to terminate employment on account of early retirement after the participant has attained age 58 and accumulated 10 years of vesting service. Also, a participant may obtain an unreduced benefit if the participant terminates employment after the participant reaches age 62. All benefits are paid monthly. If the benefit value is \$5,000 or less, those benefits can be paid in the form of a lump sum. Benefits that are valued at \$1,000 or less are automatically paid in the form of a lump sum.

Administrative costs of the Plan are shared by the company and Plan participants, depending upon the type of administrative cost. Investment management fees are netted against investment income.

Note 2 — Summary of Significant Accounting Policies

The accompanying Financial Statements of the Plan are prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") and are presented on the accrual basis of accounting.

Investments

The Plan's investments are held by the trustee. Investments in units of participation in bank deposit accounts or money market funds, when applicable, are stated at cost, which approximates fair value. Investments in mutual funds are stated at fair market value based on quoted market prices of the underlying securities as determined by the trustee. There have been no changes in fair value methodologies used as of September 30, 2017 and 2016.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation, or depreciation, includes the Plan's gains, or losses, respectively, on investments bought and sold, as well as held, during the year and is reflected in the Statements of Changes in Net Assets Available for Benefits. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The Plan categorizes its assets and liabilities into one of three levels based on the assumptions and inputs used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment.

The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

The following tables summarize the Plan's assets and liabilities measured at fair value:

September 30, 2017	Fair Value	Level 1	Level 2	Level 3
Assets:				
Diversified mutual funds	\$ 4,438,672	\$ 4,438,672	\$ —	\$ —
Total assets	\$ 4,438,672	\$ 4,438,672	\$ —	\$ —

September 30, 2016	Fair Value	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 1,040	\$ 1,040	\$ —	\$ —

Total assets	\$ 4,171,977	\$ 4,171,977	\$ —	\$ —

Accounting Estimates

The preparation of the Financial Statements and any Supplemental Schedules in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, accumulated Plan benefits, and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of changes in net assets available for benefits and changes in accumulated Plan benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan has investments in a variety of investment funds that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits. Additionally, Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in these estimates and assumptions, it is reasonably possible that changes in these estimates and assumptions will occur in the near term and that such changes could be material to the financial statements.

Note 3 — Party-In-Interest Transactions

The trustee is a party-in-interest with respect to the Plan. The Plan's investments are held by the trustee, and some of the Plan's investment funds include bank deposit accounts and mutual funds managed by the trustee. In the opinion of the Plan's legal counsel, certain transactions between the Plan and the trustee are exempt from being considered as "prohibited transactions" under the Employee Retirement Income Security Act of 1974 ("ERISA") Section 408(b). The Plan had no prohibited transactions with parties-in-interest during 2017 and 2016.

Note 4 — Actuarial Present Value of Accumulated Plan Benefits, Actuarial Assumptions, and Methods

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to present, retired, or terminated employees or their beneficiaries and beneficiaries of employees who have died. Benefits under the Plan are based on each participant's number of credited years of service and normal retirement date, as defined in the Plan.

The actuarial present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment. Actuarial calculations were made using the unit credit method.

The actuarial present value of accumulated Plan benefits, as determined by consulting actuaries, was:

	October 1, 2016
Actuarial present value of accumulated plan benefits:	
Participants currently receiving benefits	\$ 2,379,063
Other participants	1,437,531
Total vested plan benefits	3,816,594
Non-vested benefits	228,926
Total actuarial present value of accumulated plan benefits	\$ 4,045,520

The total actuarial present value of accumulated Plan benefits increased \$93,734 from \$3,951,786 in the prior year due to increases of \$249,081 related to the accumulation of interest and \$142,631 related to other changes, partially offset by benefit payments of \$243,382 and assumption changes of \$54,596.

The significant assumptions underlying the actuarial computations are as follows:

Discount rate	6.50%
Mortality basis	RP-2014 Blue Collar Mortality Table adjusted back to 2006 using MP-2014 and projected forward using projection scale MP-2016
Retirement age	Age 65 with five years of Vesting Service
Valuation method	Standard Unit Credit Cost Method

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of October 1, 2016 and 2015. Had the valuations been performed as of September 30, 2017 and 2016, there would be no material differences.

Note 5 — Trust Fund Investments and Investment Income

The trustee provided the Plan's management with certifications as to the completeness and accuracy of investment assets of the trust aggregating to \$4,438,672 and \$4,171,977 as of September 30, 2017 and 2016, respectively, and the related investment income on such assets of \$510,888 and \$329,412, respectively, for the years then ended.

During fiscal 2017, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$424,248. In fiscal 2016, the Plan's investments appreciated in value by \$145,504. Such amounts are included in the accompanying Financial Statements based on such certifications from the trustee.

Note 6 — Plan Termination

While the employer has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA.

If the termination is the result of the bankruptcy or near bankruptcy of the Plan sponsor and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation ("PBGC") will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Upon termination, funds shall be allocated, to the extent sufficient, among participants and their beneficiaries in the order of precedence specified in ERISA Section 4044, as amended from time to time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Plan sponsor and the Plan has insufficient assets, the plan sponsor will be required to pay to the Plan an amount that, together with the Plan's assets, will satisfy all benefits accumulated to the date of the Plan's termination.

Note 7 — Federal Income Taxes

The Plan administrator received a favorable determination letter dated January 4, 2018 from the Internal Revenue Service ("IRS") stating that the Plan constitutes a qualified plan under Section 401(a) of the Internal Revenue Code (the "Code" or "IRC") and that the trust created under the Plan is exempt from federal income tax under Section 501(a) of the Code. The company, as the Plan administrator, believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires the Plan's administrator to evaluate tax positions taken by the Plan and recognize a tax liability or tax asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan's administrator has concluded that as of September 30, 2017, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan sponsor believes that the Plan is no longer subject to income tax examinations for years prior to 2013.

Note 8 — Funding Policy

The Plan sponsor's contributions to the Plan are designed to annually fund the normal cost (benefit earned during the year) and the 7-year amortization of the funding shortfall (present value of accumulated benefit less net assets available), which is in compliance with the minimum funding requirements under the Pension Protection Act.

Note 9 — Subsequent Events

Plan Amendment - Frozen Plan

Effective January 1, 2018, the Plan was amended to provide that no participant will accrue any further benefits under the Plan after October 31, 2018.

The Plan administrator has evaluated all subsequent events and concluded that no additional subsequent events occurred through July 12, 2018, the date the financial statements were available to be issued, that would require recognition in the Financial Statements or disclosure in the Notes to the Financial Statements.

Withdrawal Rates	See Table 2.
Disability Rates	See Table 3.
Decrement Timing	Middle-of-year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 90% of males and 70% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
