MIDDLE ATLANTIC PRODUCTS, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

1. Description of the Plan

General

The following brief description of the Middle Atlantic Products, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a defined contribution plan providing for savings on behalf of the participants. The administrators (the "Plan Administrators") are responsible for oversight of the Plan. The investment committee of the Plan determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan administrators.

During 2015, assets were transferred to and from the Plan with Legrand North America 401(k) Retirement Plan (the "Legrand Plan"), a Plan sponsored by a related party and the parent of the Company.

Eligibility

The Plan covers all eligible employees, as defined, of Middle Atlantic Products, Inc. (the "Company") deemed to be employees under the Internal Revenue Code (the "IRC") Section 414(n) or 414(o) who have three consecutive months of service.

Participant and Employer Contributions

The Plan provides for a salary reduction plan which is a savings plan that allows participants to defer a percent of their annual compensation through contributions to the Plan, subject to an annual limitation set forth in the IRC which was $18,000 for 2015. Participants who have attained age of 50 before the end of the Plan year are eligible to make catch-up contributions of up to $6,000 for 2015. The Plan was amended and restated, effective January 1, 2014, to include safe harbor matching contributions to the Plan on behalf of the participants equal to one hundred percent (100%) of the first three percent (3%) of salary deferral and fifty percent (50%) of the next two percent (2%) salary deferral with a maximum matching contribution of $4,600 for each participant. The Company's safe harbor contribution for the year ended December 31, 2015 totaled $579,177.

The Company has the option to make non-elective contributions to the Plan. Such contributions will be allocated to all employees eligible to participate in the Plan at an amount determined by the Company. No such non-elective contributions were made by the Company to the Plan for the year ended December 31, 2015.

The total of the annual contributions to the Plan on behalf of a participant (including the participant's contribution) is subject to a defined total dollar contribution limit and a defined contribution compensation limit that is based on the participant's annual compensation as set forth in the IRC.

1. Description of the Plan (Continued)

Participant and Employer Contributions (Continued)

A participant may, with the consent of the Plan Administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which employees participated prior to their employment by the Company which amounted to $4,464 for the year ended December 31, 2015.

Participant Accounts

Each participant's account is credited with (i) participant's contributions, (ii) employer matching contributions (if any) and (iii) allocations of the Plan earnings (losses) on his or her specific investments. Each participant's account is charged with an allocation of administrative expenses, if the employer does not pay such expenses, fees and charges. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the amount accumulated in the participant's vested account.

Vesting

All participant and Company contributions are 100% vested and non-forfeitable at all times.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $7,393 and $5,272, respectively. These accounts will first be used to pay plan expenses and then to reduce future employer contributions.

Payment of Benefits

A participant may elect to receive benefit payments at the normal retirement age of 65, in the event of death or disability. If the participant's vested account balance exceeds $5,000, they may elect to receive a single lump-sum payment or a direct rollover distribution. Annuity payments are allowed but are not considered the normal form of distribution. If the participant's vested account balance is $5,000 or less, the entire vested balance will be distributed in a lump-sum payment, even if the participant does not consent to a distribution. The Plan allows for in-service distributions from participant's deferral accounts due to financial hardships, as defined by the Plan documents.

1. Description of the Plan (Continued)

Notes Receivable from Participants

Participants may obtain loans from the Plan in minimum amounts of $1,000, subject to approval by the Plan's Administrator. The maximum that may be borrowed from the participant's vested account balance is the lesser of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% (4.25% at December 31, 2015 and 2014). Participants can have two loans outstanding at any time. Loan payments are made through payroll deductions over a period that may not exceed thirty years for the purchase of a primary residence and five years for all other loans, from the date the loan was made. As of December 31, 2015 and 2014, there were loans to participants which totaled $1,042,879 and $876,699, respectively.

In-Service Withdrawals

Participants in the Plan may make in-service or hardship withdrawals from their account balances subject to the provisions of the Plan. The amount of any taxable withdrawal that is not rolled into an Individual Retirement Account or another qualified plan will be subject to federal and state income taxes. A 10% IRC early withdrawal penalty tax may apply to the amount of the withdrawal if the participant is under age 59 ½ and does not meet one of the IRC exceptions.

Investment Options

The Plan's investments are held by Prudential Retirement Insurance & Annuity Company ("Prudential"). Contributions to the Plan by or on behalf of a Plan participant are invested at the election of the participant.

Plan termination

Although the Employer has not expressed any intent to terminate the Plan, it may do so at any time. If the Plan is terminated, the proportional interest of each participant shall then vest one hundred percent (100%) and become non-forfeitable.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP"); consequently certain income and the related assets are recognized when received rather than when earned and certain obligations are recognized when paid rather than when the obligations are incurred. Accordingly, the accompanying financial statements are not intended to be presented in conformity with GAAP.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. As of December 31, 2015 and 2014, the contract value of the benefit-responsive group annuity investment contract equaled the fair value.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of December 31, 2015 and 2014, the Plan had investments that totaled 78% and 76% of the total investments, respectively, that were concentrated in five investments.

2. **Summary of Significant Accounting Policies (Continued)**

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded when received. Net appreciation (depreciation) includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Expenses

The Company paid all of the accounting and most of the administrative expenses of the Plan for the year ended December 31, 2015 and are excluded from these financial statements. The administrative cost for obtaining new loans is charged directly through the respective participants' accounts. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan's management has evaluated subsequent events through October 13, 2016, the date the financial statements were available to be issued.

Updates to the Accounting Standards Codification ("ASC")

Fair Value Measurements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)("ASU 2015-07").* ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value ("NAV") per share practical expedient under ASC 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016, with early adoption permitted. The implementation of ASU 2015-07 will be applied retrospectively to all periods presented beginning in the Plan's year of adoption. The Plan is currently assessing the impact of ASU 2015-07 on the Plan's financial statements and notes.

2. **Summary of Significant Accounting Policies (Continued)**

Updates to the Accounting Standards Codification ("ASC")(Continued)

Plan Accounting

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), and Health and Welfare Benefits Plans (Topic 965) – I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient.* Part I of the accounting standards update requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. It also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation (depreciation) for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the NAV per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The implementation of ASU 2015-12 will be applied retrospectively to all periods presented beginning in the Plan's year of adoption. The Plan is currently assessing the impact of ASU 2015-12 on the Plan's financial statements and notes.

3. Investments

Investments that represent 5% or more of the Plan's net assets are separately identified as follows:

	2015	2014
Prudential Retirement Insurance & Annuity Company:		
Guaranteed Income Fund	$ 3,425,160	$ 3,438,078
Large Cap Value Asset Management	$ 1,869,404	$ 1,928,589
Vanguard Small Cap Growth	$ 1,027,838	$ 1,082,696
Western Asset Core Plus IS	$ 2,998,707	$ 2,963,333
Delaware Small Cap Value	$ 986,670	$ 984,029
American: Euro pacific Growth R4	$ 2,932,046	$ 2,938,299
Mainstay Large Cap Growth R1	$ 1,846,479	$ 1,812,275

During the year ended December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Mutual funds	$ 33,309
Pooled separate accounts	(54,364)
Insurance general account	59,444
	$ 38,389

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies (Mutual Funds): Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

4. Fair Value Measurements (Continued)

Pooled Separate Accounts. Pooled separate accounts are stated at fair value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

Insurance General Account: Group annuity contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note 4).

Common Collective Trust Fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchase and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014, respectively:

The Plan's policy is to recognize transfer into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2015 and 2014, there were no significant transfer into or out of Level 3.

4. Fair Value Measurements (Continued)

Quantitative information about significant unobservable inputs used in level 3 fair value measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and ranges of values for those inputs as of December 31, 2015 and 2014.

Instrument	For Year Ending	Fair Value	Principal* Valuation Technique	Unobservable inputs	Observable/ Unobservable	Range of Significant Input Values
Guaranteed Income Fund (GIF)	December 31, 2015	$3,425,160	Fair value = contract Value	Earnings at Guaranteed Credit Rating Withdrawal Fees	Unobservable Observable Observable	Gross Guaranteed Rate must be greater or equal to the contractual minimum credit rating of 1.50%

*As of December 31, 2015 and 2014, the contract value of the benefit-responsive group annuity investment contract equaled the fair value.

5. Group Annuity Contract with Prudential

In 2014, the Plan entered into a benefit-responsive group annuity investment contract with Prudential. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2015 and 2014, the contract value of the benefit-responsive group annuity investment contract equaled the fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 and 2014 was $3,425,160 and $3,438,078, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.
The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The average yields based on actual earnings for the years ended December 31, 2015 and 2014 was 1.70% and 1.75%, respectively. The average yields based on interest rate credited to participants for the years ended December 31, 2015 and 2014 was 1.70% and 1.75%, respectively.

6. Information Certified by the Plan Custodian

The December 31, 2015 and 2014 statements of net assets available for benefits, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2015, and the accompanying notes to the financial statements were prepared in part or entirely from information certified from February 1, 2014 to December 31, 2015 by Prudential Retirement Insurance & Annuity Company and Prudential Bank & Trust, F.S.B., the trustees of the Plan, and by a former trustee of the Plan JP Morgan Chase Bank N.A. for the month of January 2014 in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified is summarized below as of December 31,

	2015	2014

7. Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Prudential. Prudential is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Employer provides certain accounting and administrative services to the Plan for which no fees are charged.

8. Income Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrators and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt as of December 31, 2015 and 2014.

8. Income Tax Status (Continued)

Accounting principles under the modified cash basis require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrators believe it is no longer subject to income tax examinations for years prior to 2012.

9. Subsequent Event

On January 4, 2016, the Plan adopted the provisions of its parent company's 401(k) plan, the Legrand Plan and as a result, the Plan transferred its net assets into the parent company's 401(k) plan. Thus, the Plan was merged into the parent company's 401(k) plan and will no longer continue on its own. The parent company's 401-(k) plan will provide for enhanced employer contributions and the trustee will once again be Prudential.
