NOTES TO FINANCIAL STATEMENTS  
September 30, 2017 and 2016

**NOTE 1 - DESCRIPTION OF PLAN**

The following description of the Roll Coater, Inc. Pension Plan for Bargaining Unit Associates (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General: The Plan is a defined benefit plan adopted November 24, 2004 covering any hourly employee of the Precoat Metals Corp, formerly Roll Coater Inc. (the Company), who is covered by a collective bargaining agreement providing his or her participation in the Plan. Such employees working in Kingsbury, Indiana are covered under Part A of the Plan, those working in Hawesville, Kentucky are covered under Part B of the Plan, and those working in Greenfield, Indiana are covered under Part C of the Plan.

Individuals who had been participating in the prior (Arvin Meritor) plan became participants as of November 24, 2004. Any other covered employee would become a participant as of the October 1 coincident with or next following his or her date of employment if employed in a position in which it is anticipated that at least 1,000 hours of service will be completed each year (otherwise, the October 1 nearest the date on which 1,000 hours of service are completed during a Plan year). No individual shall be eligible to become a participant under Part A after January 24, 2005, Part B after May 31, 2005 and Part C after June 24, 2006. No employee will accrue any additional benefits under Part A after March 18, 2005, Part B after July 15, 2005 and Part C after August 10, 2006. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Reliance Trust Company is the trustee of the Plan.

In October 2011, the Company was sold to Sequa Corporation and was then merged with Precoat Metals Corp., a subsidiary of Sequa.

Pension Benefits: Participants are fully vested after five years of continuous service, as defined by the Plan, and are entitled to pension benefits upon retirement. A monthly benefit is payable upon termination equal to a monthly dollar multiplier defined in the plan document, times the number of years of credited service, reduced by any benefit under the Arvin Meritor, Inc. Retirement Plan. A participant must reach the age of 65 to be eligible for a normal retirement pension. A participant is eligible for early retirement after ten years of continuous service and attainment of the age of 60. If benefits commence prior to normal retirement, the accrued benefit is reduced as defined in the Pension Agreement. The Pension Agreement also provides for certain disability and surviving benefits to eligible participants as defined in the Pension Agreement.

Death and Disability Benefits: If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis.

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments: Benefits are recorded when paid.

Administrative and Investment Management Expenses: Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. The Plan's trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. All other expenses of the Plan are paid by the Company.

**NOTE 3 - FAIR VALUE MEASUREMENTS**

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The effect of a change in valuation technique or its application on a fair value estimate is accounted for prospectively as a change in accounting estimate. When evaluating indications of fair value resulting from the use of multiple valuation techniques, the Plan is to select the point within the resulting range of reasonable estimates of fair value that is most representative of fair value under current market conditions. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

**NOTE 3 - FAIR VALUE MEASUREMENTS** (Continued)

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

*Variable annuities:* The fair values of participation units held in variable annuities are based on their net asset values, as reported by the managers of the variable annuities and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Each variable annuity provides for daily redemption prices that are determined by the fund's net asset value.

Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

|                     |                                                                                               |

**NOTE 4 - FUNDING POLICY**

Employer contributions to the Plan are made in amounts approved by the Company's Board of Directors. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. For the Plan years ended September 30, 2017 and 2016, the Plan has met the minimum funding standards of ERISA. Participant contributions are not permitted under the Plan.

**NOTE 5 - PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

**NOTE 6 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits under the Plan are based on the employee's years of credited services with the Company.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plan has adopted a beginning of period valuation date for purposes of reporting the present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at September 30, 2016 and 2015 is as follows:

|                                                              | <u>2016</u>       | <u>2015</u>       |

**NOTE 9 - TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter, dated July 5, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code. The Plan has been amended since the Plan received the determination letter. However, the Company and the plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

**NOTE 10 - SUBSEQUENT EVENTS**

Plan management has evaluated subsequent events for recognition and disclosure through July 11, 2018, which is the date the financial statements were available to be issued.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age  
EIN / PN: 35-0901870 / 003

Weighted Average Retirement Age is 65, based on expected retirement at the plan's Normal Retirement Age. Weighted Average Retirement Age is theoretical, based on the assumption that all participants would have entered the plan more than 5 years before Normal Retirement Age. The anticipated retirement ages of actual participants, whether now over Normal Retirement Age or whose Normal Retirement Ages reflect the minimum period after plan entry, are not taken into account in establishing the Weighted Average Retirement Age.

# Statement of Actuarial Assumptions/Methods

## Economic Assumptions

### Interest rate basis

- Applicable month October 2016
- Interest rate basis Segment rates based on average bond yields for the 24 months ending with the month of the valuation date, adjusted as required for interest rate stabilization

### Interest rates

|                           | Reflecting Stabilization | Not Reflecting Stabilization |
|---------------------------|--------------------------|------------------------------|
| ■ First segment rate      | 4.43%                    | 1.52%                        |
| ■ Second segment rate     | 5.91%                    | 3.78%                        |
| ■ Third segment rate      | 6.65%                    | 4.76%                        |

### Plan-related expenses

Target Normal Cost is increased by expected expenses (assumed to be equal to actual expenses paid by the plan during the prior plan year other than PBGC premiums plus the current plan year's PBGC premiums expected to be paid by the plan)

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and PBGC 4010 FS.

| <b>Benefits not valued</b>       | <p>All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sequa Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$5,000, if the monthly benefit is less than \$25) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such benefits are valued using the benefit choice assumptions described above.</p> |

| <b>Interest rate</b>           | The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.                                                                                                                             |
| <b>Administrative expenses</b> | As required by regulations, administrative expenses are calculated by estimating the expected expenses to be paid from the trust during the coming year, including items like PBGC premiums. These estimates are based on recent experience and reviewed on an on-going basis for reasonability. |

### Assumptions Rationale - Significant Demographic Assumptions

|                                          |                                                                                                                                                                                                           |

| <b>Mortality</b>                         | Assumptions used for funding purposes are as prescribed by IRC §430(h).                                                                                                                                   |
| <b>Rates of termination / retirement</b> | The assumptions are based on plan sponsor expectations for the future with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. |

### Prescribed Methods

|                        |                                                                                                                                                                                                                                                                                                                                                |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Funding methods</b> | The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430. |

## Other Plan Provisions

### Forms of payment

Monthly pension benefits are paid as described above as a life annuity (for unmarried participants) or as a 50% joint and survivor annuity (for married participants). Optional forms available for married participants include a 75% joint and survivor annuity option or, if the participant elects and the spouse consents, a life annuity.

Actuarial equivalence is based on an interest rate of 7.50% and the 1971 Group Annuity Mortality Table, weighted 90% male / 10% female.

If the value of a participant's benefit does not exceed \$5,000 and the participant's monthly pension benefit payable commencing on NRD does not exceed \$25, the participant is required to receive a distribution in the form of a lump sum payment.

In light of statutory increases in the components of the Pension Benefit Guaranty Corporation (PBGC) premium formula over the next few years, the amount of the estimated expenses added to the Target Normal cost has been modified by adding the current year's PBGC premium to be paid from plan assets to the Target Normal Cost instead of the amount actually paid during the prior plan year. It continues to be assumed that the non-PBGC expenses to be paid from plan assets will equal the non-PBGC expenses actually paid from plan assets in the prior plan year.
