Report on Financial Statements

We were engaged to audit the accompanying financial statements of the Amended and Restated Fiberweb Retirement Plan, which comprise the statements of net assets available for benefits as of September 30, 2017 and 2016, the related statements of changes in net assets available for benefits for the year ended September 30, 2017 and the period ended September 30, 2016, the statement of accumulated Plan benefits as of September 30, 2016, the related statement of changes in accumulated Plan benefits for the period then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 5, which was certified by Fifth Third Bank, John Hancock Trust Company, and Matrix Trust Company, the Custodians and Trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the Custodians and Trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the Custodians and Trustees as of September 30, 2017 and 2016 and for the year ended September 30, 2017, and for the nine-month period ended September 30, 2016, that the information provided to the Plan administrator by the Custodians and Trustees is complete and accurate.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at the end of the year) and schedule of reportable transactions as of September 30, 2017, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report of Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodians and Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 1 – Plan Description

The following description of the Amended and Restated Fiberweb (Company) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan sponsored by Berry Global, Inc. covering all eligible employees of the Company. The Plan was first established on April 4, 1990, and was amended and restated on January 1, 2000. Effective April 2, 2004, the Plan's management approved to freeze the Plan. Effective December 16, 2011, the Company, a wholly-owned subsidiary of Fiberweb, Inc., is the Plan Sponsor. Effective October 1, 2015, Berry Plastics Corporation acquired the Company. Effective April 14, 2017, Berry Plastics Corporation changed its name to Berry Global, Inc.

Effective January 1, 2016, the Plan's year-end was changed from December 31 to September 30 and; therefore, the September 30, 2016 period end comprised a nine-month period.

The 401(k) Retirement Plans Committee is responsible for oversight of the Plan. The 401(k) Retirement Plans Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state laws. The Plan is subject to the provisions of ERISA.

Pension Benefits

The benefits provided by the Plan include normal retirement and death benefits. The Plan provides pension benefits to participants currently receiving pension benefits and terminated employees with deferred vested status. Participants are eligible for monthly pension benefit payments at retirement age, normally 65, equal to an amount, as defined, based on the accrued benefit as of the date of the Plan freeze. Employees may elect to receive their pension benefits in various forms. Whenever the employment of a participant terminates for reasons other than early retirement, normal retirement, death, disability, or total and permanent disability, the participant is entitled to the value of his mandatory contribution benefits account, plus a percentage, based on years of service, of his accrued retirement benefits account. Participants should refer to the Plan agreement for a complete description of the benefit payment options available.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 1 – Plan Description (Continued)

Death and Disability Benefits

A participant whose employment with all participating companies and affiliated companies is severed on account of such participant's total and permanent disability prior to the earliest date on which the participant would be entitled to begin receiving benefits, but after completing ten years of service, shall be entitled to receive retirement benefit under this Plan commencing as of the date determined in accordance with the rules established by the 401(k) Retirement Plans Committee for this purpose, equal to the monthly retirement income on the basis of all such factors as shall be used in calculating normal retirement benefit.

Upon death of the participant, beneficiaries will receive benefits as prescribed in the Plan agreement.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Retirement Plans Committee determines the Plan's valuation policies utilizing information provided by the advisors, Custodians, and Trustees. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 2 – Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the accrued benefit as of the date of the Plan freeze. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated benefits, as determined by an independent actuary, CBIZ Benefits and Insurance Services, Inc., is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 2 – Significant Accounting Policies (Continued)

The significant methods and assumptions underlying the actuarial computations of accumulated benefits as of October 1, 2016 and January 1, 2016 are as follows:

Life expectancy of participants	RP-2014 Blue Collar Mortality Tables projected generationally from 2006 with Improvement Scale MP-2017 used for the period ended October 1, 2016 and RP-2014 Blue Collar Mortality Tables projected generationally from 2006 with Improvement Scale MP-2015 for the year ended January 1, 2016
Retirement age assumptions	Age 65 or age on the valuation date, if greater
Assumed interest	4.9% for the period ended October 1, 2016 and the year ended January 1, 2016, respectively
Assumed asset valuation method	Fair market value for the period ended October 1, 2016 and the year ended January 1, 2016, respectively
Assumed average rates of return	6% for period ended October, 1 2016 and the year ended January 1, 2016, respectively
Assumed actuarial cost method	For the period ended October 1, 2016 and the year ended January 1, 2016, the present value of total accumulated benefits represents the present value of the benefits accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the interest rate

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated Plan benefits. Had the valuation been completed as of September 30, there would be no material differences.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 2 – Significant Accounting Policies (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through July 11, 2018, the date the financial statements were available to be issued.

Reclassification

Certain items in the September 30, 2016 financial statements have been reclassified to conform to the September 30, 2017 classifications.

Recently Issued Accounting Standards

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*, which changes the presentation and disclosures for plans that participate in a master trust. Additionally, ASU 2017-06 simplifies the disclosures of 401(h) accounts in health and welfare plans. The ASU is effective for fiscal years beginning after December 15, 2018. The ASU should be applied retrospectively to each period for which financial statements are presented. Early adoption is permitted for this ASU. Plan management is currently evaluating the impact the adoption of this guidance will have on the financial statements.

Note 3 – Funding Policy

The Company has agreed to make contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to Plan participants. The amount of the annual contribution to the Plan and the determination of the estimated accrued obligation for pension benefits are based upon various assumptions made by an independent actuary utilizing the assumptions similar to those in Note 2.

The Company's contributions for 2017 and 2016 met the minimum funding requirements of ERISA. There were no contributions required for 2017.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 4 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits for participants, or their beneficiaries, who have been receiving payments for at least three years, or were eligible to retire for that three-year period and would have received benefits if they had retired. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the PBGC (a U.S. Government agency) up to the applicable limitations (discussed subsequently).
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

After all liabilities have been satisfied, the Company is entitled to the balance of the trust fund, if any.

To the extent that funds are available, benefits will be paid in full in each of the previously-mentioned distribution categories. If sufficient funds are not available to pay all the benefits in a category, then benefits in that category will be paid on a pro rata basis.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of the individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 5 – Summary of Financial Data Certified by the Custodians and Trustees

The following is a summary of the Plan's financial information as of September 30, 2017 and 2016, and for year ended September 30, 2017, and the nine-month period ended September 30, 2016, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Custodians and Trustees and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodians and Trustees that the following assets are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the year ended September 30, 2017 and the nine-month period ended September 30, 2016,

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate and treasury bonds: Valued at the closing price reported on the active market on which the individual bond securities are traded.

Money market fund: Valued at the daily closing price as reported by the fund. Money market funds held by the Plan are open-end money market funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market funds held by the Plan are deemed to be actively traded.

AMENDED AND RESTATED FIBERWEB RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 6 – Fair Value Measurements (Continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common trust fund: Valued at the NAV of units of a common collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly manner.

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of September 30, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>Investment</u>	<u>2017 Fair Value</u>	<u>2016 Fair Value</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Common trust fund (a)	<u>\$ 14,339,180</u>	<u>\$ 10,113,444</u>	Daily	None

(a) This fund invests primarily in investment contracts issued by insurance companies, banks, or other financial institutions, including investment contracts backed by high quality fixed income securities. Investments in this category can be redeemed immediately at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the investments.

Note 7 – Interest in Berry Global Master Trust

All of the Plan's investments are in the Berry Global Master Trust (Master Trust), which was established for the investment of assets of the Plan and several other Berry Global, Inc. sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fifth Third Bank (Trustee). Effective August 20, 2017, the Master Trust was restated to change its name to Berry Global, Inc. and address changes in the Berry Global, Inc. sponsored retirement plans that are included in the Master Trust.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. As of September 30, 2017 and 2016, the Plan's interest in net assets of the Master Trust was approximately 26 percent and 27 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of September 30, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	<u>2017 Fair Value</u>	<u>2016 Fair Value</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Common trust fund (a)	<u>\$ 61,408,957</u>	<u>\$ 55,638,734</u>	Daily	None

(a) This fund invests primarily in investment contracts issued by insurance companies, banks, or other financial institutions, including investment contracts backed by high quality fixed income securities. Investments in this category can be redeemed immediately at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the investments.

Note 8 – Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of common stock (including Company common stock), and a common trust fund managed by Fifth Third Bank. Fifth Third Bank, John Hancock Trust Company, and Matrix Trust Company, the Custodians and Trustees as defined by the Plan, generate transactions that qualify as party-in-interest transactions. Fees paid by the Plan for the custodial services for the year ended September 30, 2017 and nine-month period ended September 30, 2016 amounted to \$75,396 and \$90,808, respectively. Fees paid to the actuary and other service providers that are also considered parties-in-interest for the year ended September 30, 2017, and nine-month period ended September 30, 2016 amounted to \$57,109 and \$109,625, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 9 – Tax Status

The IRS has determined and informed the Company by a letter dated June 18, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS

September 30, 2017 and 2016

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

October 1, 2016 Actuarial Valuation Report**

Attachment to Schedule SB for 10-01-2016 to 09-30-2017

EIN/PN: 57-0833773/001

ACTUARIAL ASSUMPTIONS AND METHODS

Disability	None.
Expenses	The normal cost is increased by the administrative expenses expected to be paid from the trust during the year. For the plan year beginning October 1, 2016 this amount is \$469,000.
Marital Status	90% of employees are assumed to be married. Wives are assumed to be three years younger than their husbands.
Form of Payment	Life Annuity.
Actuarial Cost Method	<p>The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of the benefit accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments made within five years of the valuation date are discounted using the first segment rate, payments made at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments made at least 20 years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.</p>
Asset Valuation Method	<p>The actuarial assets are determined by a three-point averaging method, averaging the following adjusted asset values:</p> <ol style="list-style-type: none">1. Market value as of October 1, 2014, advanced to the valuation date with 2014 and 2015 benefit payments, expenses, contributions and expected return.2. Market value as of October 1, 2015, advanced to the valuation date with 2015 benefit payments, expenses, contributions and expected return.3. Market value as of October 1, 2016. <p>Discounted contributions made after the valuation date are included in all adjusted asset figures. The assumed rate of return is 6.00%, or the third segment rate for the year if lower. The averaged assets are further adjusted so that the final actuarial assets are no more than 110% and no less than 90% of market value.</p>

EIN/PN: 57-0833773/001

ACTUARIAL ASSUMPTIONS AND METHODS

**Changes since the Prior
Valuation**

The segment rate changes for PBGC vested liabilities and maximum funding are as follows: from 1.41% to 1.52% for the first five years, from 3.96% to 3.78% for the next 15 years and from 4.97% to 4.76% for all years thereafter.

Plan administrative expenses are assumed to be \$469,000, compared to \$181,166 for the prior valuation.

Attachment to Schedule SB for 10-01-2016 to 09-30-2017

EIN/PN: 57-0833773/001

ACTUARIAL ASSUMPTIONS AND METHODS

Rationale for Selection of Significant Actuarial Assumptions

IRS and PBGC mortality and interest rates

The interest rate and mortality assumptions used to value the Target Liability for determining the minimum and maximum contributions, PBGC premiums, and lump sum distributions are prescribed by law and based on elections made by the Plan Sponsor.

Retirement from active employment

Because the employer does not have enough data to do a fully credible experience analysis with respect to retirement from active employment, the current assumption has been selected based on observations of recent retirements, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Retirement from terminated vested status

Because the employer does not have enough data to do a fully credible experience analysis with respect to retirement from terminated vested status, the current assumption has been selected based on observations of recent retirements, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Termination of employment

Because the employer does not have enough data to do a fully credible experience analysis with respect to termination from active employment, the current assumption has been selected based on observations of recent terminations, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Plan expenses

Expenses paid from the plan trust are estimated by reviewing historical fees paid from the trust and adjusting for PBGC premiums and other expenditures expected to be paid in this Plan Year.

Marital status

Because the employer does not have enough data to do a fully credible experience analysis with respect to spousal information, the current assumption has been selected based on observations of current marital status, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Form of payment

Because the employer does not have enough data to do a fully credible experience analysis with respect to form of payment, the current assumption has been selected based on observations of recent benefit elections, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

ACTUARIAL ASSUMPTIONS AND METHODS

Rationale for Selection of Significant Actuarial Assumptions

Assumed rate of return for actuarial value of assets

The assumed rate of return used for determination of the actuarial value of assets was selected taking into consideration input from the Plan's investment advisor and publicly available survey information on expected returns by asset class as of September 30, 2016.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Original Effective Date	April 4, 1990
Plan Year	October 1 through September 30
Employer ID No.	57-0833773
Plan Number	001

Eligibility

All employees of the Employer age 21 or older are eligible to participate in the Plan as of January 1st or July 1st next following the completion of one Year of Service.

No new participants will enter the plan after April 2, 2004.

Years of Service

For employment after participant's effective date in the plan, a Year of Service is credited for each plan year in which an employee works 1,000 hours. For employment prior to a participant's effective date in the plan, Service is credited according to the terms of the prior plan.

Non-highly compensated Participants who reach age 55 with ten Years of Vesting Service before April 2, 2004 received an extra three Years of Benefit Service, not to exceed 35 years.

Service is frozen for benefit accrual purposes as of April 2, 2004.

Final Average Earnings

The average of the highest consecutive 60 months of compensation paid after December 31, 1988 and prior to April 2, 2004.

Normal Retirement Date

Normal Retirement Date is the attainment of age 65 and five years of plan participation.

Normal Retirement Benefit

The amount of annual benefit at Normal Retirement Date is equal to:

- (1) 1.05% of Final Average Earnings, plus
- (2) 0.65% of Final Average Earnings in excess of 2003 covered compensation
- (3) times Years of Benefit Service, not to exceed 35. (Note: for all terminations of employment prior to January 1, 2000, the maximum Years of Benefit Service is 30 years.)

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Normal Retirement Benefit (continued)

For former participants of the Fiberweb North American Retirement Plan for Hourly Employees at Simpsonville, the accrued benefit as of December 31, 1991 shall be added to the benefit calculated above based on service after December 31, 1991

For prior Veratec participants, the accrued benefit as of July 31, 1998 shall be added to the benefit calculated above based on service after July 31, 1998.

For former participants of the Prior James River Plan, the accrued benefit will not be less than the accrued benefit as of April 4, 1990.

For former participants of the International Paper Company Plan (salaried or non-union hourly), the accrued benefit as of January 1, 1998 shall be added to the benefit calculated above based on employment after July 31, 1998.

For former participants of the BBA Nonwovens Retirement Plan for Union Employees of Lewisburg, Pennsylvania or the Retirement Plan for Union Employees at Athens, Georgia, accrued benefits are determined by the formula in the applicable plan.

Early Retirement Benefit

Eligible upon completion of ten Years of Service and the attainment of age 55. Early Retirement Benefits are multiplied by the applicable factor (interpolated for partial ages) from the following table:

Age	Factor	Age	Factor
64	0.934	59	0.634
63	0.866	58	0.600
62	0.800	57	0.566
61	0.738	56	0.534
60	0.676	55	0.500

An employee whose employment with Fiberweb, Inc. is terminated as of December 30, 2011 and who becomes employed by FitesaFiberweb, Inc. on December 31, 2011 is deemed to have met the ten year service requirement for early eligibility.

Benefits accrued under prior plans will be reduced for early retirement according to the provisions of those prior plans.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event, he will receive, at actual termination of employment, the greater of the actuarial equivalent of his Normal Retirement Benefit or the benefit based on service and compensation as of actual retirement date, not to exceed the benefit as of April 2, 2004.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Disability Retirement Benefit

An active participant who becomes totally and permanently disabled before his Normal Retirement Date will receive, upon cessation of Long Term Disability, a benefit computed in the same manner as Early Retirement Benefits, but with service added from date of disability to the date benefits commence.

Death Benefit

If a vested participant should die prior to retirement, his spouse shall be entitled to the vested accrued benefit as of the date of death, but payable as if the participant had elected payment to begin on his earliest retirement date in the form of a joint and 50% survivor benefit.

In no event shall a participant receive less than the employee contributions with interest.

Termination of Employment

Upon termination of employment after five Years of Vesting Service, a participant shall have a vested interest in his accrued benefit, which will be payable at Normal Retirement Date. The percentage vested shall be:

<u>Years of Vesting Service</u>	<u>Vested Percent</u>
Fewer than five	0%
Five or more	100%

All active employees are 100% vested as of April 2, 2004.

Normal Form of Benefit

The Normal Form of Benefit is an annuity paid in monthly installments for life, or if married, an actuarially equivalent Joint & 50% Survivor Annuity.

Optional Forms of Benefit

The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with 50%, 75%, or 100% of the reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid for 120 or 240 months certain and thereafter for life.
- (3) A lump sum benefit if the value is between \$1,000 and \$10,000.

Optional Forms of Benefit are actuarially equivalent to the Normal Form of Benefit based on the UP84 Unisex Table, set forward one year in age and a 7.00% interest rate, and for Beneficiaries UP84 Unisex Table, set back four years in age, at 7.00% interest. Lump sum actuarial equivalence is based on the Applicable Mortality Table and the Applicable Interest rate as defined under IRS Section 417(e)(3). The lookback month is one month and the stability period is the calendar year containing the annuity start date.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Optional Forms of Benefit (continued)

For participants of employers not listed above, other Optional Forms of Benefit may be available as shown in the Plan Document.

Cash Out of Small Pensions

Notwithstanding any other plan provision, if the actuarial equivalent value of a pension payable to a participant is less than \$1,000, the benefit will be paid out as a mandatory lump sum payment.
