1. Description of the Plan

The following description of the Space-Lok, Inc. 401K Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective October 1, 2002, for the benefit of the employees of Space-Lok, Inc. (the Company). The Plan, and related trust, are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan was amended effective October 1, 2015. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

During 2016, Space-Lok, Inc. entered into a purchase agreement with Novaria Group, and the change of ownership was effective September 15, 2016. In connection with the change of ownership, the Plan was merged into the Novaria Holdings 401(k) Plan with Fidelity Investments. On January 11, 2017, total Plan investment assets transferred to the Novaria Holdings 401(k) Plan was \$5,262,293.

Through January 11, 2017, the Plan was a defined contribution plan covering all employees of the Company who are at least 18 years of age, have completed one year of service, are not employed under a collective bargaining agreement, or are a nonresident alien. The Plan provides for dates of entry on April 1 and October 1 following the day the employee becomes eligible to participate in the Plan.

Contributions

Participant contributions:

Each year, participants may contribute up to 100% of their annual compensation as defined by the Plan. Participants may not make annual contributions in excess of the government-imposed limit, which was \$18,000 during the year ended September 30, 2017. The government-imposed limit is increased to \$24,000 for participants who reach age 50 by year-end. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollovers).

Employer safe harbor contributions:

The Company provides a contribution for Plan participants each year equal to the employee deferral up to 3% of compensation per pay.

During the year ended September 30, 2017, the employer safe harbor matching contribution to be made to the Plan was \$39,537.

1. Description of the Plan (continued)

Employer profit-sharing contributions:

Each plan year, the Company may make an additional discretionary profit sharing contribution on behalf of participants who have completed twelve months of service and have reached age 18.

During the year ended September 30, 2017, there was no employer profit-sharing contributions made to the Plan.

Investment options

Participants must direct their salary deferral contributions and their share of the Company's contributions into various investments as made available and determined by the Plan Administrator, which are more fully illustrated in the Plan's literature.

Participant accounts

Each participant account is credited with the participant's contribution and allocation of (a) the Company's contribution, (b) Plan earnings (losses), and (c) charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested (100%) in their voluntary contributions and safe harbor employer matching contributions plus actual earnings thereon. Vesting in the Company profit-sharing contributions plus actual earnings thereon is based on the years of credited service. A participant is 100% vested after six years of credited service. A participant is also fully vested upon death, total disability, or normal retirement.

Payment of benefits

Upon termination of service due to death, disability, termination, or retirement, a participant or the participant's beneficiary will receive a value of the vested account balance in the form of a lump-sum amount. There is an automatic cash-out provision for participants with balances not exceeding \$5,000.

Forfeited accounts

Forfeitures of terminated participant's nonvested accounts are used to pay administrative expenses and to offset employer profit-sharing contributions. At September 30, 2017 and 2016, forfeited nonvested accounts totaled \$0 and \$522, respectively. There were no forfeitures used to pay administrative expenses or to offset employer contributions for the year ended September 30, 2017.

2. Summary of accounting policies

A summary of the significant accounting policies followed by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Investment and securities transactions

The Plan's investments are stated at fair value. All Plan assets were transferred to the Novaria Holdings 401(k) Plan before close of business on January 11, 2017.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires managements to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Administrative costs

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of accounting policies (continued)

Risks and uncertainties

The Plan invests in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through July 12, 2018, the date which the financial statements were available to be issued. There were no other subsequent events noted that would require adjustment to or disclosure in these financial statements.

3. Fair value measurements

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level II – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair value measurements (continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2017 and 2016.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of September 30, 2017 and 2016:

	Level 1	Level 2	Level 3	Total
September 30, 2017				
Mutual funds	\$ -	\$ -	\$ -	\$ -
September 30, 2016				
Mutual funds	\$ 7,151,609	\$ -	\$ -	\$ 7,151,609

4. Investments

The September 30, 2017 and 2016, Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended September 30, 2017, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520. 103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of \$0 and \$7,151,609 at September 30, 2017 and 2016, respectively, and related gains of \$131,811 for the year ended September 30, 2017.

5. Related party transactions and party-in-interest transactions

Certain plan investments are managed by Massachusetts Mutual Life Insurance Company (Mass Mutual). Mass Mutual is the recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

Mass Mutual provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and Mass Mutual. Mass Mutual received revenue from mutual funds service providers for services Mass Mutual provides to the funds. This revenue is used to offset certain amounts owed to Mass Mutual for its administrative services to the Plan.

401K Profit Sharing Plan
Notes to the Financial Statements
As of September 30, 2017 and 2016
And for the Year ended September 30, 2017

5. Related party transactions and party-in-interest transactions (continued)

If the revenue received by Mass Mutual from such mutual fund service provider exceeds the amount owed under the MSA, Mass Mutual remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan or Plan sponsor may make payment to Mass Mutual for administrative expenses not covered by revenue sharing.

6. Tax status

The Plan document received a volume advisory letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan document was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the advisory letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position taken by the plan not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress.
