NOTES TO FINANCIAL STATEMENTS
As of December 31, 2017 and 2016

1. Description of Plan

The following description of the BK Global, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all eligible employees of BK Global, Inc. (the "Company" or "Employer"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (the "IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility
All employees who have accrued 6 months of service with the Company and have attained age 21 are eligible for participation. Employees are automatically enrolled in the Plan upon meeting the eligibility criteria at a default pre-tax deferral rate of 3%. Employees enter the Plan as an active participant on the first day of the month coinciding with or next following the date they satisfy the Plan's eligibility requirements.

Contributions
Participants may contribute a percentage of their annual compensation, subject to limits established by the Internal Revenue Service (the "IRS"), on a pre-tax basis pursuant to Section 401(k) of the IRC or on an after-tax basis.

The Company may make discretionary matching contributions to the account of each eligible participant based on a percentage of the participant's income and contributions for the year. No discretionary matching contributions was made for the year ending December 31, 2017.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's contributions and actual earnings thereon. Earnings are allocated to each participant's individual account based on the earnings of the individual investment options chosen by the participant and as defined by the Plan document. Participants may make changes to their investment allocation at any time. Investment income is recorded daily. Participant accounts are also charged an allocation of administrative expenses.

Payment of Benefits
Participants who terminate employment with the Company for reasons other than death, disability or attainment of normal retirement age will be entitled to receive the vested percentage of their account balance. The normal retirement date is the date the participant attains age 65. The Plan does not provide for early retirement. In the event of a participant's death, the beneficiary is entitled to 100% of the participant's account balance. Benefit payments are made in installments subject to certain restrictions as defined in the plan document and lump sum disbursements.

1. Description of Plan (continued)

Vesting
Participants are immediately vested in their elective deferral contributions, rollover contributions and any earnings thereon.

Participants vest in employer matching contributions, and any earnings thereon, based on years of continuous service according to the following schedule:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures
Upon separation from service for any reason other than retirement, participants forfeit any unvested portion of their employer matching contributions. Forfeitures may be used to pay the Plan's administrative expenses and to reduce employer matching contributions. No forfeitures have been recorded as of December 31, 2017 and 2016.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loans are collateralized by the participant's account balance and bear interest at a fixed rate based on the prevailing rate on the date of funding. Principal repayments and the interest on outstanding balances are deducted ratably from the participant's pay.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties
The Plan offers a number of investment options to participants that are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants represent loans and are stated at amortized cost. Interest income is recorded on the accrual basis.

No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of IRS limitations are reflected in excess contributions on the statement of net assets available for benefits with a corresponding reduction in contributions on the statement of changes in net assets available for benefits. The Plan has reimbursed these excess contributions to participants prior to March 15, 2018.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

3. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2017 or 2016.

3. Fair Value Measurements

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents:	$ 5,358	$ -	$ -	$ 5,358
Total assets in fair value hierarchy	5,358	-	-	5,358
Investments measured at net asset value (a)				5,628,348
Total investments, at fair value				$ 5,633,706

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents:	$ 5,358	$ -	$ -	$ 5,358
Total assets in fair value hierarchy	5,358	-	-	5,358
Investments measured at net asset value (a)				4,650,368
Total investments, at fair value				$ 4,655,726

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits..

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

As of December 31, 2017:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled Separate Accounts	$5,628,348	N/A	Daily	12 months

3. Fair Value Measurements

As of December 31, 2016:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled Separate Accounts	$4,650,368	N/A	Daily	12 months

4. Information Prepared and Certified by the Custodian (unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule has been certified by the custodian as complete and accurate:

As of December 31,	**2017**	2016
Cash and cash equivalents	**$ 5,358**	$ 5,358
Pooled separate accounts, at fair value	**5,628,348**	4,650,368
Notes receivable from participants	**89,922**	116,681

The following investment income information for the year ended December 31, 2017 has been certified as complete and accurate by the custodian:

Year Ended December 31,	**2017**
Net appreciation in fair value of investments	**$ 674,421**
Interest income from notes receivable from participants	**5,742**

As permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax Status

The Plan uses a prototype plan document sponsored by Nova 401(k) Associates. Nova 401(k) Associates received an opinion letter from the IRS dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

6. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. Related Party Transactions

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, and party rendering service to the Plan, the Company, and certain others. As such, transactions conducted by the custodian qualify as party-in-interest transactions.

8. Risk and Uncertainties

The Plan provides for various options in any combination of special investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation to 5500

The following reconciles the net assets available for benefits and net income included in the accompanying financial statements to the Form 5500:
