REPORT OF INDEPENDENT AUDITOR

To the Audit and Retirement Committee, Administrator, and Participants
of the Ennis, Inc. 401(k) Plan

We have audited the accompanying financial statements of the Ennis, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2017, and the related notes to the financial statements (modified cash basis).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of

significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the Ennis, Inc. 401(k) Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2017, in conformity with the modified cash basis of accounting described in Note 2.

Emphasis of Matter

As described in Note 2, the financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) (modified cash basis) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 1 – Plan Description

The following description of the Ennis, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Ennis, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (“ERISA”) and the Internal Revenue Code (“IRC”).

The Plan was formed February 1, 1994 and has been restated to conform with ERISA and IRC regulations. The Plan is sponsored and administered by the Company, acting by and through the Retirement Committee. The Plan’s assets are held by the American United Life Insurance Company (“AUL”).

The Company acquired Independent Printing Co., Inc. and their related entities in January 2017. The assets of their benefit plan of approximately \$20,000,000 were transferred into the Plan in November 2017.

Eligibility

Employees age 18 and older of the Company are eligible to participate in the Plan and receive matching contributions after completing 60 days of service, as defined by the Plan.

Employees are eligible to receive discretionary profit sharing contributions, if granted, after completing 1,000 hours within their first 12 months of service.

Contributions

Participants may make voluntary contributions to the Plan ranging from 1% to 100% of eligible pay subject to the Internal Revenue Service (“IRS”) annual limitations. The Plan allows catch-up contributions (within the meaning of Section 414(v) of the IRC) for participants who have reached age 50 by the end of the plan year. The Plan also allows rollovers of distributions from other qualified plans.

The Company makes discretionary matching contributions at a rate determined by the Plan Sponsor for certain employees not enrolled in the Pension Plan for the Employees of Ennis, Inc. The total matching contributions are not to exceed \$2,000 or discretionary employer contributions.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 1 – Plan Description – (Continued)

Contributions - continued

Eligibility for employer contributions depends on the participant's employment location as defined in the Plan document. The Plan automatically enrolls all newly eligible participants into the Plan at a 4% deferral rate.

In addition, each year, the Company may at its discretion, make profit sharing contributions for the plan year not to exceed certain limitations prescribed by the IRC. During 2017, the Company declared a discretionary profit sharing contribution of \$204,000 on behalf of the former employees of Northstar Computer Forms, Inc. in accordance with its original plan. This contribution was contributed to the Plan in 2018. During 2017, the Company contributed \$228,000 which was declared in 2016.

Participant accounts

Each participant's account is credited with the participant's contribution, any employer contributions, and the allocation of the Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately vested in their salary deferrals, rollover contributions, and employer matching contributions. Profit sharing contributions vest over a 5 year graded vesting schedule as defined in the Plan document. Special vesting schedules ranging from 3 to 6 years apply to certain employees based on their location as defined in the plan document.

Notes receivable from participants

Under provisions of the Plan, participants are allowed to borrow from their Plan accounts. The maximum amount that a participant may borrow is the lesser of (i) 50% of their total vested account balance or (ii) \$50,000 less the highest loan balance outstanding. Note repayments are made in equal installments through payroll deductions generally over a term not to exceed five years. All notes are considered a directed investment from the participant's Plan account with all payments of principal and interest credited to the participant's account. A maximum number of two outstanding notes are allowed per individual. The minimum note is \$1,000 and there is a \$100 set-up fee payable for each note. The interest rate is determined based on the prime rate as determined by the Plan's trustee plus 1%.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 1 – Plan Description – (Continued)

Payment of benefits

Upon termination of service, financial hardship, retirement, or disability, the participant or their beneficiary has the option to withdrawal qualified amounts up to the participant's vested account balance. Participants that reach the age of 70 ½ are required to take a minimum distribution from their account.

Administrative expenses

Administrative expenses which are not paid by the Plan Sponsor are paid by the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting and present the net assets available for benefits and changes in those net assets. Consequently, certain additions and the related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when the obligation is incurred. The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates. See Note 5 for discussion of significant estimates used to measure investments.

Investments valuation and income recognition

Participants may direct the allocation of amounts deferred to the available investment options. Provisions of the Plan allow participant contributions in 5% increments to be invested in any of the available options.

The Plan provides for investments in a guaranteed investment contract ("GIC") and pooled-separate accounts (including a Company stock fund). The Plan's investments in pooled-separate accounts are valued at net asset value as a practical expedient to estimate fair value. The GIC investment is fully benefit-responsive and is stated at contract value, which is equal to principal plus accrued interest. See Note 4.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 2 – Summary of Significant Accounting Policies – (Continued)

Investments valuation and income recognition - continued

Valuation methods may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods are appropriate and consistent with other market participants, the use of differing methodologies or assumptions to determine the fair values of the Plan's investments could result in different fair value measurements at the reporting dates.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance. Interest income is recorded on a cash basis and any related fees are recorded as administrative expenses when incurred. An allowance for credit losses is not necessary as the notes are collateralized by the participants' account balance. Delinquent notes from participants are reclassified as distributions based upon provision of the Plan document. Participant loans are considered delinquent if any payment of principal and interest, or any portion thereof, remains unpaid for more than 90 days after due.

Benefits paid to participants

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid. For all employees who have terminated with an account balance between \$1,000 and \$5,000, the Plan Administrator has the right to automatically rollover the balance to an individual retirement plan designated by the Administrator, at the expense of the Plan. For terminated employees with a vested account balance less than \$1,000, a check will be issued to the participant.

Forfeitures

Forfeitures may be used to reduce future employer contributions or to pay administrative expenses. The Plan used approximately \$455 of non-vested amounts to pay administrative expenses in the current year. See Note 3.

Note 2 – Summary of Significant Accounting Policies – (Continued)

Subsequent events

Management of the Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through June 22, 2018, the date which the financial statements were issued.

Risks and uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 3 – Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

Note 4 – Investments in Insurance Contracts

The Plan maintains one GIC related investment option, the AUL Fixed Account, which is a traditional investment contract. The underlying investments options of this contract are considered to be fully benefit-responsive as described in FASB ASC 946, Plan-Accounting-Defined Contribution Pension Plans, and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting.

The determination of credited interest rates, as determined by the service provider, reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The AUL Fixed Account does not permit AUL to terminate the agreement prior to the scheduled maturity date.

Note 5 – Fair Value Measurements

All of the Plan's investments recorded at fair value of \$108,883,334 and \$82,640,940 at December 31, 2017 and 2016, respectively, are pooled separate accounts. The pooled separate accounts are valued, as a practical expedient, based on AUL's Plan's net asset value of units held by the Plan at year-end. The calculated NAV is directly related to the net asset value of the underlying investments adjusted for dividends or distributions received by AUL and the daily equivalent of any fees charged. The investments held by each pooled separate account are traded on an active market.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016.

- a) The investment seeks to provide total return through a combination of capital appreciation and current income. The fund seeks to achieve its objective by investing in a mix of stocks, debt securities and short-term instruments, depending on the market conditions. Regarding its equity investments, it invests primarily in medium to large, well-established companies that usually issue dividend-paying securities. The fund typically holds a limited number of stocks (generally 45 to 55). It invests a portion of its total assets in common stocks in seeking to provide possible appreciation of capital and some dividend income.
- b) The investment seeks current income; capital appreciation is a secondary objective. The fund invests in equity securities of companies with a favorable income-paying history that have prospects for income payments to continue or increase. The portfolio managers also look for equity securities of companies that they believe are undervalued and have the potential for an increase in price. The fund may invest a portion of its assets in foreign securities when these securities meet the portfolio managers' standards of selection.

Note 5 – Fair Value Measurements – (Continued)

- c) The investment seeks capital growth. The fund normally invests at least 80% of assets in stocks. It invests primarily in common stocks. The fund invests in domestic and foreign issuers. It invests in either “growth” stocks or “value” stocks or both. The fund uses fundamental analysis of factors such as each issuer’s financial condition and industry position, as well as market and economic conditions, to select investments.
- d) The investment seeks capital appreciation. The fund normally invests at least 80% of the fund’s net assets in stocks. Stocks include common stocks, preferred stocks, securities convertible into stocks, and depository receipts for such securities. It focuses on investing the fund’s assets in stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies).
- e) The investment seeks total return before fees and expenses that correspond to the total return of the Standard & Poor’s (S&P) MidCap 400 Index. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks that comprise the S&P MidCap 400 Index. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks that comprise the S&P MidCap 400 Index. In seeking to match the performance of the index, the Investment Manager attempts to allocate the fund’s assets among common stocks in approximately the same weightings as the index. It attempts to achieve at least a 95% correlation between the performance of the index and the fund’s investment results, before fees and expenses.
- f) The investment seeks long-term capital appreciation. The fund normally invests at least 80% of its net assets plus any borrowings for investment purposes (measured at time of purchase) (“net assets”) in a diversified portfolio of equity investments in small-cap issuers with public stock market capitalizations within the range of the market capitalization of companies constituting the Russell 2000 Value Index at the time of investment. Although it will invest primarily in publicly traded U.S. securities, including real estate investment trusts, it may also invest in foreign securities.
- g) The investment seeks capital appreciation. The fund invests at least 80% of its assets in common stocks of small-sized U.S. companies similar in size, at the time of purchase, to those within the Russell 2000 Growth Index. The Adviser selects stocks of companies with growth characteristics, including companies with above-average earnings growth potential and companies where significant changes are taking place, such as new products, services, methods of distribution, or overall business restructuring.

Note 5 – Fair Value Measurements – (Continued)

- h) The investment seeks long-term growth of capital; future income is a secondary objective. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its primary investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth. In pursuing its secondary objective, the fund invests in common stocks of companies with the potential to pay dividends in the future.
- i) The investment seeks capital appreciation. The fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, it will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country. The fund will invest in at least three developing markets.
- j) The Ennis Employer Stock Fund provides the Plan an option to invest in the Ennis, Inc. common stock (EBF) traded on the New York Stock Exchange .
- k) Each flexPATH strategy, offered through flexPath Strategies, LLC, seeks to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. The funds are designed to reduce exposure to risk over time by shifting gradually from a focus on capital appreciation to one of capital preservation, while maintaining some exposure to capital appreciation asset classes.
- l) The investment seeks long-term capital growth; income is a secondary consideration. Under normal market conditions, the portfolio managers will invest at least 80% of the fund's net assets in medium size companies. The portfolio managers consider medium size companies to include those whose market capitalization at the time of purchase is within the capitalization range of the Russell 3000 Index, excluding the largest 100 such companies.
- m) The investment seeks a high level of current income. The fund normally invests at least 80% of assets in debt securities of all types and repurchase agreements for those securities. The manager uses the Bloomberg Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment-grade, high yield, and emerging market asset classes. It invests up to 20% of assets in lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds).

Notes to Financial Statements (Modified Cash Basis)

Note 6 – Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7 – Tax Status of Plan

The Plan has obtained its latest determination letter dated March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The IRS generally has the ability to examine plan activity for up to three years.

Note 8 – Parties-in-Interest

Certain plan investments are guaranteed investment contracts and pooled separate account managed by AUL (the "Custodian"). The Custodian acts as the trustee and recordkeeper as defined by the Plan document, and therefore, these transactions qualify as party-in-interest transactions. The Plan also invests in a Company common stock fund, and therefore, these transactions qualify as party-in-interest transactions.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

REPORT OF INDEPENDENT AUDITOR

To the Audit and Retirement Committee, Administrator, and Participants
of the Ennis, Inc. 401(k) Plan

We have audited the accompanying financial statements of the Ennis, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2017, and the related notes to the financial statements (modified cash basis).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of

significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the Ennis, Inc. 401(k) Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2017, in conformity with the modified cash basis of accounting described in Note 2.

Emphasis of Matter

As described in Note 2, the financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) (modified cash basis) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 1 – Plan Description

The following description of the Ennis, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Ennis, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (“ERISA”) and the Internal Revenue Code (“IRC”).

The Plan was formed February 1, 1994 and has been restated to conform with ERISA and IRC regulations. The Plan is sponsored and administered by the Company, acting by and through the Retirement Committee. The Plan’s assets are held by the American United Life Insurance Company (“AUL”).

The Company acquired Independent Printing Co., Inc. and their related entities in January 2017. The assets of their benefit plan of approximately \$20,000,000 were transferred into the Plan in November 2017.

Eligibility

Employees age 18 and older of the Company are eligible to participate in the Plan and receive matching contributions after completing 60 days of service, as defined by the Plan.

Employees are eligible to receive discretionary profit sharing contributions, if granted, after completing 1,000 hours within their first 12 months of service.

Contributions

Participants may make voluntary contributions to the Plan ranging from 1% to 100% of eligible pay subject to the Internal Revenue Service (“IRS”) annual limitations. The Plan allows catch-up contributions (within the meaning of Section 414(v) of the IRC) for participants who have reached age 50 by the end of the plan year. The Plan also allows rollovers of distributions from other qualified plans.

The Company makes discretionary matching contributions at a rate determined by the Plan Sponsor for certain employees not enrolled in the Pension Plan for the Employees of Ennis, Inc. The total matching contributions are not to exceed \$2,000 or discretionary employer contributions.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 1 – Plan Description – (Continued)

Contributions - continued

Eligibility for employer contributions depends on the participant's employment location as defined in the Plan document. The Plan automatically enrolls all newly eligible participants into the Plan at a 4% deferral rate.

In addition, each year, the Company may at its discretion, make profit sharing contributions for the plan year not to exceed certain limitations prescribed by the IRC. During 2017, the Company declared a discretionary profit sharing contribution of \$204,000 on behalf of the former employees of Northstar Computer Forms, Inc. in accordance with its original plan. This contribution was contributed to the Plan in 2018. During 2017, the Company contributed \$228,000 which was declared in 2016.

Participant accounts

Each participant's account is credited with the participant's contribution, any employer contributions, and the allocation of the Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately vested in their salary deferrals, rollover contributions, and employer matching contributions. Profit sharing contributions vest over a 5 year graded vesting schedule as defined in the Plan document. Special vesting schedules ranging from 3 to 6 years apply to certain employees based on their location as defined in the plan document.

Notes receivable from participants

Under provisions of the Plan, participants are allowed to borrow from their Plan accounts. The maximum amount that a participant may borrow is the lesser of (i) 50% of their total vested account balance or (ii) \$50,000 less the highest loan balance outstanding. Note repayments are made in equal installments through payroll deductions generally over a term not to exceed five years. All notes are considered a directed investment from the participant's Plan account with all payments of principal and interest credited to the participant's account. A maximum number of two outstanding notes are allowed per individual. The minimum note is \$1,000 and there is a \$100 set-up fee payable for each note. The interest rate is determined based on the prime rate as determined by the Plan's trustee plus 1%.

Note 1 – Plan Description – (Continued)

Payment of benefits

Upon termination of service, financial hardship, retirement, or disability, the participant or their beneficiary has the option to withdrawal qualified amounts up to the participant's vested account balance. Participants that reach the age of 70 ½ are required to take a minimum distribution from their account.

Administrative expenses

Administrative expenses which are not paid by the Plan Sponsor are paid by the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting and present the net assets available for benefits and changes in those net assets. Consequently, certain additions and the related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when the obligation is incurred. The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates. See Note 5 for discussion of significant estimates used to measure investments.

Investments valuation and income recognition

Participants may direct the allocation of amounts deferred to the available investment options. Provisions of the Plan allow participant contributions in 5% increments to be invested in any of the available options.

The Plan provides for investments in a guaranteed investment contract ("GIC") and pooled-separate accounts (including a Company stock fund). The Plan's investments in pooled-separate accounts are valued at net asset value as a practical expedient to estimate fair value. The GIC investment is fully benefit-responsive and is stated at contract value, which is equal to principal plus accrued interest. See Note 4.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 2 – Summary of Significant Accounting Policies – (Continued)

Investments valuation and income recognition - continued

Valuation methods may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods are appropriate and consistent with other market participants, the use of differing methodologies or assumptions to determine the fair values of the Plan's investments could result in different fair value measurements at the reporting dates.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance. Interest income is recorded on a cash basis and any related fees are recorded as administrative expenses when incurred. An allowance for credit losses is not necessary as the notes are collateralized by the participants' account balance. Delinquent notes from participants are reclassified as distributions based upon provision of the Plan document. Participant loans are considered delinquent if any payment of principal and interest, or any portion thereof, remains unpaid for more than 90 days after due.

Benefits paid to participants

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid. For all employees who have terminated with an account balance between \$1,000 and \$5,000, the Plan Administrator has the right to automatically rollover the balance to an individual retirement plan designated by the Administrator, at the expense of the Plan. For terminated employees with a vested account balance less than \$1,000, a check will be issued to the participant.

Forfeitures

Forfeitures may be used to reduce future employer contributions or to pay administrative expenses. The Plan used approximately \$455 of non-vested amounts to pay administrative expenses in the current year. See Note 3.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 2 – Summary of Significant Accounting Policies – (Continued)

Subsequent events

Management of the Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through June 22, 2018, the date which the financial statements were issued.

Risks and uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 3 – Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 4 – Investments in Insurance Contracts

The Plan maintains one GIC related investment option, the AUL Fixed Account, which is a traditional investment contract. The underlying investments options of this contract are considered to be fully benefit-responsive as described in FASB ASC 946, Plan-Accounting-Defined Contribution Pension Plans, and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting.

The determination of credited interest rates, as determined by the service provider, reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The AUL Fixed Account does not permit AUL to terminate the agreement prior to the scheduled maturity date.

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 5 – Fair Value Measurements

All of the Plan's investments recorded at fair value of \$108,883,334 and \$82,640,940 at December 31, 2017 and 2016, respectively, are pooled separate accounts. The pooled separate accounts are valued, as a practical expedient, based on AUL's Plan's net asset value of units held by the Plan at year-end. The calculated NAV is directly related to the net asset value of the underlying investments adjusted for dividends or distributions received by AUL and the daily equivalent of any fees charged. The investments held by each pooled separate account are traded on an active market.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016.

- a) The investment seeks to provide total return through a combination of capital appreciation and current income. The fund seeks to achieve its objective by investing in a mix of stocks, debt securities and short-term instruments, depending on the market conditions. Regarding its equity investments, it invests primarily in medium to large, well-established companies that usually issue dividend-paying securities. The fund typically holds a limited number of stocks (generally 45 to 55). It invests a portion of its total assets in common stocks in seeking to provide possible appreciation of capital and some dividend income.
- b) The investment seeks current income; capital appreciation is a secondary objective. The fund invests in equity securities of companies with a favorable income-paying history that have prospects for income payments to continue or increase. The portfolio managers also look for equity securities of companies that they believe are undervalued and have the potential for an increase in price. The fund may invest a portion of its assets in foreign securities when these securities meet the portfolio managers' standards of selection.

Note 5 – Fair Value Measurements – (Continued)

- c) The investment seeks capital growth. The fund normally invests at least 80% of assets in stocks. It invests primarily in common stocks. The fund invests in domestic and foreign issuers. It invests in either “growth” stocks or “value” stocks or both. The fund uses fundamental analysis of factors such as each issuer’s financial condition and industry position, as well as market and economic conditions, to select investments.
- d) The investment seeks capital appreciation. The fund normally invests at least 80% of the fund’s net assets in stocks. Stocks include common stocks, preferred stocks, securities convertible into stocks, and depository receipts for such securities. It focuses on investing the fund’s assets in stocks of companies it believes to have above average earnings growth potential compared to other companies (growth companies).
- e) The investment seeks total return before fees and expenses that correspond to the total return of the Standard & Poor’s (S&P) MidCap 400 Index. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks that comprise the S&P MidCap 400 Index. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks that comprise the S&P MidCap 400 Index. In seeking to match the performance of the index, the Investment Manager attempts to allocate the fund’s assets among common stocks in approximately the same weightings as the index. It attempts to achieve at least a 95% correlation between the performance of the index and the fund’s investment results, before fees and expenses.
- f) The investment seeks long-term capital appreciation. The fund normally invests at least 80% of its net assets plus any borrowings for investment purposes (measured at time of purchase) (“net assets”) in a diversified portfolio of equity investments in small-cap issuers with public stock market capitalizations within the range of the market capitalization of companies constituting the Russell 2000 Value Index at the time of investment. Although it will invest primarily in publicly traded U.S. securities, including real estate investment trusts, it may also invest in foreign securities.
- g) The investment seeks capital appreciation. The fund invests at least 80% of its assets in common stocks of small-sized U.S. companies similar in size, at the time of purchase, to those within the Russell 2000 Growth Index. The Adviser selects stocks of companies with growth characteristics, including companies with above-average earnings growth potential and companies where significant changes are taking place, such as new products, services, methods of distribution, or overall business restructuring.

ENNIS, INC. 401(k) PLAN

Note 5 – Fair Value Measurements – (Continued)

- h) The investment seeks long-term growth of capital; future income is a secondary objective. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its primary investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth. In pursuing its secondary objective, the fund invests in common stocks of companies with the potential to pay dividends in the future.
- i) The investment seeks capital appreciation. The fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, it will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country. The fund will invest in at least three developing markets.
- j) The Ennis Employer Stock Fund provides the Plan an option to invest in the Ennis, Inc. common stock (EBF) traded on the New York Stock Exchange .
- k) Each flexPATH strategy, offered through flexPath Strategies, LLC, seeks to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. The funds are designed to reduce exposure to risk over time by shifting gradually from a focus on capital appreciation to one of capital preservation, while maintaining some exposure to capital appreciation asset classes.
- l) The investment seeks long-term capital growth; income is a secondary consideration. Under normal market conditions, the portfolio managers will invest at least 80% of the fund's net assets in medium size companies. The portfolio managers consider medium size companies to include those whose market capitalization at the time of purchase is within the capitalization range of the Russell 3000 Index, excluding the largest 100 such companies.
- m) The investment seeks a high level of current income. The fund normally invests at least 80% of assets in debt securities of all types and repurchase agreements for those securities. The manager uses the Bloomberg Barclays U.S. Universal Bond Index as a guide in allocating assets across the investment-grade, high yield, and emerging market asset classes. It invests up to 20% of assets in lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds).

ENNIS, INC. 401(k) PLAN

Notes to Financial Statements (Modified Cash Basis)

Note 6 – Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7 – Tax Status of Plan

The Plan has obtained its latest determination letter dated March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The IRS generally has the ability to examine plan activity for up to three years.

Note 8 – Parties-in-Interest

Certain plan investments are guaranteed investment contracts and pooled separate account managed by AUL (the "Custodian"). The Custodian acts as the trustee and recordkeeper as defined by the Plan document, and therefore, these transactions qualify as party-in-interest transactions. The Plan also invests in a Company common stock fund, and therefore, these transactions qualify as party-in-interest transactions.
