Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments are stated at fair value. Mutual funds are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

The fair value of the common collective trusts is calculated based on the underlying investments held in the portfolio and include: 1) discounting the related cash flows based on current yields of similar instruments with comparable durations, 2) pricing as reported by third party vendors or brokers, or 3) the closing net asset value.

Unit purchases and redemptions are transacted at the net asset value per unit of the Portfolio determined as of the close of each business day. The Portfolio issues new units and repurchases outstanding units on a daily basis at the net asset value per unit. Each participating plan may withdraw, in whole or in part, amounts from its accounts, upon notice to the Trustee.

Depending on the nature of underlying assets of each fund in the common collective trusts, these investments could be illiquid and not readily convertible into cash.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) include the Plan's gains and losses on investments purchased and sold as held during the year.

NOTES TO FINANCIAL STATEMENTS

Lehman's Hardware & Appliances Inc. 401(k) Profit Sharing Plan

2 Summary of Significant Accounting Policies, Continued

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and common collective trust funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 16, 2018, which is the date the financial statements were available to be issued.

3 Tax Status

On July 16, 2014, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTES TO FINANCIAL STATEMENTS

Lehman's Hardware & Appliances Inc. 401(k) Profit Sharing Plan

3 Tax Status, Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices.

NOTES TO FINANCIAL STATEMENTS

Lehman's Hardware & Appliances Inc. 401(k) Profit Sharing Plan

4 Fair Value Measurements, Continued

Common Collective Trusts:

The fair value of the common collective trust is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classifications within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2017

Mutual Funds	\$ 3,378,827	\$ -	\$ -	\$ 3,378,827

The Plan was restated effective September 1, 2015, to adhere with applicable regulations. The Plan was amended effective February 1, 2016, to add Crownplace Brands, Ltd. and Mt. Employer Profit Sharing Contributions - The Company may also make additional contributions. Such additional contributions, if any, shall be allocated to each participant in proportion to his or her compensation for the calendar year. Upon termination of service by reason of separation of service, retirement, death or total and permanent disability, a participant receives a lump sum amount equal to the value of his or her account. Benefits are recorded when paid.

Hardship Withdrawals:

Hardship withdrawals are permitted in accordance with Internal Revenue Service guidelines.

Investment Options:

Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments are stated at fair value. Mutual funds are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

The fair value of the common collective trusts is calculated based on the underlying investments held in the portfolio and include: 1) discounting the related cash flows based on current yields of similar instruments with comparable durations, 2) pricing as reported by third party vendors or brokers, or 3) the closing net asset value.

Unit purchases and redemptions are transacted at the net asset value per unit of the Portfolio determined as of the close of each business day. The Portfolio issues new units and repurchases outstanding units on a daily basis at the net asset value per unit. Each participating plan may withdraw, in whole or in part, amounts from its accounts, upon notice to the Trustee.

Depending on the nature of underlying assets of each fund in the common collective trusts, these investments could be illiquid and not readily convertible into cash.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) include the Plan's gains and losses on investments purchased and sold as held during the year.

2 Summary of Significant Accounting Policies, Continued

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and common collective trust funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 16, 2018, which is the date the financial statements were available to be issued.

3 Tax Status

On July 16, 2014, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTES TO FINANCIAL STATEMENTS

Lehman's Hardware & Appliances Inc. 401(k) Profit Sharing Plan

3 Tax Status, Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices.

NOTES TO FINANCIAL STATEMENTS

4 Fair Value Measurements, Continued

Common Collective Trusts:

The fair value of the common collective trust is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classifications within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 3,378,827	\$ -	\$ -	\$ 3,378,827

For the years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1 and 2.
