Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. Any contributions and dividends from the Company are allocated to the Plan's participants based upon annual compensation. Other income from Plan investments is allocated among the participants based upon individual current balances. All investment decisions for Company contributions are made by the Plan Administrator.

NOTES TO FINANCIAL STATEMENTS

Great Lakes Cheese Co., Inc. Employee Stock Ownership Plan

1 Description of Plan, Continued

Vesting:

Vesting in the participant's account balance for current employees is based on years of service. A participant is vested as follows:

Years of Service	%
Less than 2	0%
2 to 3	20%
3 to 4	40%
4 to 5	60%
5 to 6	80%
6 or more	100%

For inactive participants, as of January 1, 2007, vesting is based on a previous vesting schedule in 25% increments. A participant becomes fully vested upon death, disability, or retirement.

Diversification:

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Forfeitures:

Nonvested amounts of participants incurring a one-year break in service is first used to reinstate previously forfeited account balances of former participants who become re-employed by the Company, if any. The remainder is allocated among participants based on compensation. The total amount of forfeitures allocated to participants accounts in 2017 and 2016 was \$430,585 and \$319,197, respectively.

Other Plan Provisions:

Normal retirement age is 60. The Plan also provides for early payment of benefits if fully vested.

NOTES TO FINANCIAL STATEMENTS

Great Lakes Cheese Co., Inc. Employee Stock Ownership Plan

1 Description of Plan, Continued

Payment of Benefits:

A participant is entitled to receive the balance held in his/her account upon reaching normal retirement age and terminating his/her employment. If a participant terminates employment prior to reaching normal retirement age (and after incurring a break in service as defined by the Plan), an amount equal to the vested interest in the account will be distributed to the participant. All payments of benefits shall be rolled over into another qualifying plan or paid as a lump-sum cash distribution.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation and Investment Recognition:

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The value of the Plan's investment in Great Lakes Cheese Co., Inc. common stock is an estimated market value based upon a valuation performed by an independent valuation consultant. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed. A stock purchase agreement between the Company and the Trustees states that should the Trustees wish to sell all or any portion of the Company's shares, the Company must purchase, or require a third party to purchase, the stock at a price equal to 100% of the value per share as determined by a new valuation done at the time of the sale transaction.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Great Lakes Cheese Co., Inc. Employee Stock Ownership Plan

2 Summary of Significant Accounting Policies, Continued

Administrative Fees:

Substantially all administrative fees are paid by the Trust fund.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in common stock, mutual funds, company stock and cash with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 20, 2018, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in FASB ASC 820, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Company utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- * Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- * Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund:

The fair value of the money market fund is valued at \$1 and is classified in the Level 1 category.

Mutual Funds:

The fair value of the common stocks and mutual funds are based on quoted market prices.

Common Stock:

Valued at the closing price reported on the active market on which the individual securities were traded for publicly traded securities. For the Company stock, the value is determined by an independent market appraiser.

4 Tax Status

The U.S. Department of Treasury made a determination on June 22, 2017 that the Plan constitutes a qualified trust under Section 401 (b) of the Internal Revenue Code and is, therefore, exempt from federal income tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there were no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.
