Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Kodiak BP 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2014. The Plan is available to eligible employees age 18 years or older who have completed six months of service. Employees may enter the Plan on the first day of the month following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Eligible employees are automatically enrolled at a deferral rate equal to 3% of eligible compensation, unless they make an affirmative election not to defer or defer a different percentage. Employees automatically enrolled in the plan receive automatic deferral increases annually of 1% up to 10%.

Kodiak BP, LLC (the "Company") administers the Plan. American United Life Insurance Company ("AUL") serves as the Plan's third-party administrator, serves as trustee and custodian, manages Plan assets, and maintains the Plan's records. AUL offers Plan participants a variety of investment options through various mutual funds and a stable value fund. Individual accounts are invested in the various investment options at the direction of the participants.

Effective February 22, 2016, the Plan was amended to allow employees of Freedom Drywall Supply LLC to participate in the Plan.

Effective March 2016, Kodiak Gypsum 401(k) Plan changed its name to Kodiak BP 401(k) Plan.

In November 2017, the Company acquired the assets of Arizona Wholesale Supply Company ("AWS"). Participants in the existing AWS 401(k) plan were given the option to receive a distribution of their account balances or roll over their balances into the Company's Plan. If elected, participant 401(k) balances were rolled into the Plan on December 21, 2017.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. Employees are eligible to defer on an after-tax basis through payroll deductions from eligible compensation as Roth 401(k) deductions. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees who have reached age 50 during the Plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

The Company may contribute a discretionary matching contribution. During the year ended December 31, 2017, the Company elected to contribute a discretionary matching contribution of 25% of elective deferrals up to 6% of eligible compensation for the 2017 Plan year. The employee must be participating on the last day of the Plan year in order to receive the discretionary matching contribution. The discretionary matching contribution is funded in a one-time payment following the Plan year. For the year ended December 31, 2017, the Company approved discretionary employer contributions of $459,784. The Company may also contribute a non-elective discretionary profit sharing contribution, which is allocated based on the same ratio as each participant's eligible compensation to the total of such eligible compensation for all participants. The Company did not make employer non-elective discretionary profit sharing contributions for the year ended December 31, 2017. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 3	0%
3	100%

A participant's account becomes 100% vested upon death, attaining early or normal retirement age (the age of 55 or 65, respectively) while an employee, retirement due to disability, or termination of the Plan.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have a maximum of one loan outstanding at any given time. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 3.25% to 5.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through December 2029. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full. Loans in the amount of $72,440 were deemed a distribution in the current year.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum payment in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Transfers out of the Plan

In August 2017, the Company sold its Barnsco Fleet Maintenance group assets and all related field staff are now employees of the buyer as of the transaction date. In November 2017, net assets totaling $559,934 were transferred to the buyer's 401(k) plan. Participants were fully vested in the amounts transferred.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or allocated to participants in the same manner as the employer's contribution. Forfeitures in the amount of $6,395 were applied to Plan expenses during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $0 and $327, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

The stable value fund is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participants invested in the stable value fund can transfer money into and out of the account without any restrictions.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by AUL are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations (continued)

During the year ended December 31, 2017, three investments accounted for 35% of investment income. At December 31, 2017 and 2016, three investments accounted for 62% and 46% of total investments at fair value, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued.

Effective January 1, 2018, American Builders Supply, Inc., a wholly owned subsidiary of the Company, terminated their 401(k) plan and all plan assets were transferred into the Plan.

Effective April 1, 2018, the Plan was amended in which hours of service to determine vesting for commissioned employees was changed to the equivalency method. Under the equivalency method, commissioned employees are credited 190 hours of service per month in a month where they would be credited at least one month of service.

In April 2018, the Plan was amended to allow the employees of Specialty Appliance, Inc. to participate in the Plan. Participants in the previously existing Specialty Appliance 401(k) plan were given the option to receive a distribution of their account balances or roll over their balances into the Company's Plan.

In June 2018, the Plan was amended to allow the employees of Builders Millwork, Inc. to participate in the Plan.

In July 2018, the Company acquired the assets of Forest Tek, LLC and will amend the Plan in order to allow the employees of Forest Tek to participate in the Plan.

Note 2 - Assets Certified by the Trustee

AUL has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 23,993,535	$ -	$ -	$ 23,993,535
Investments measured at net asset value*				536,015
Total investments at fair value	$ 23,993,535	$ -	$ -	$ 24,529,550

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,336,415	$ -	$ -	$ 19,336,415
Investments measured at net asset value*				518,922
Total investments at fair value	$ 19,336,415	$ -	$ -	$ 19,855,337

*Investments measured at net asset value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation to total investments at fair value.

There were no changes to the valuation techniques used during the period.

Note 3 - Fair Value Accounting (continued)

Reported Net Asset Values

The Plan's investments in the stable value fund had a value of $536,015 and $518,922 as of December 31, 2017 and 2016, respectively, determined based upon the net asset value ("NAV") of the investments comprising the funds. The NAV is used as a practical expedient to approximate fair value. The NAV investments have no unfunded commitments, can be redeemed daily, and have daily redemption notice periods.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's opinion letter, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

One Plan investment is a stable value fund, which is managed by AUL. AUL is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions for financial reporting purposes, differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of employer and participant contributions in the prior year.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
