1. DESCRIPTION OF THE PLAN

The following description of the Pay Plus Benefits, Inc. (the Company) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan allows co-employers of the Company (including the Company) to elect coverage for their employees. The Plan is a defined contribution plan covering all employees, of the co-employers who elect to participate in the plan, who meet minimum eligibility requirements as defined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions -

Each year, participants are permitted to contribute a percentage of their annual compensation, as defined in the Plan document, to the Plan on a tax-deferred basis. For 2017, the annual dollar limit was \$18,000 plus an additional \$6,000 catch up contribution for participants at least 50 years of age. Transfers into the plan from other qualified plans are allowed under the provisions of the Plan. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers 17 investment options with varying degrees of risk. Each co-employer that has elected employer matching and/or basic contributions contributes the elected amount each payroll period. Each co-employer that has elected discretionary profit-sharing contributions contributes the amount elected annually. The co-employers may make contributions on an annual basis in order to retain their qualified plan status. Contributions are subject to certain limitations.

Participant Accounts -

Each participant's account is credited with the participant's contribution, and, if elected by the co-employer, the co-employer's matching contribution, base contribution, and discretionary profit-sharing contribution. Plan earnings and administrative expenses are allocated proportionately among all participants based on their investment in each fund.

Vesting -

Participants are fully vested at all times.

Payment of Benefits -

Upon termination, an employee with an account balance greater than \$5,000 can defer action or elect to take their vested accrued benefit either as a lump sum payment or as a rollover into another qualified plan. An account balance under \$5,000 is required to be taken as a distribution or rollover. If the account balance is under \$1,000, the funds may be distributed directly to the participant without written instruction. In addition, payment of benefits are available to individuals who have attained normal retirement age.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting -

The plan's financial statements are prepared on the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates -

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition -

Investments are reported at fair value, except for fully benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -

Benefits are recorded when paid.

Administrative Expenses -

Administrative expenses are paid by the Plan, as provided by the Plan document. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

See Independent Auditors' Report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Subsequent Events -

Subsequent events are events or transactions that occur after the date of the statements of net assets available for benefits, but before the financial statements are issued. The plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the financial statements, including estimates inherent in the process of preparing the financial statements. The plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the financial statements, but arose after the date of the financial statements and before the statements were issued.

The plan has evaluated subsequent events through the date of the independent auditors' report, the date on which the financial statements were available to be issued.

3. INVESTMENTS

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee as complete and accurate, except for comparing such information certified by the trustee to the information in the Plan's financial statements and supplemental schedules.

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustees.

	<u>2017</u>
Investments, at fair value	\$ 7,349,067
Investments, at contract value	1,324,418
Capital gains	62,083
Dividends	129,803

4. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical asset or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

4. FAIR VALUE MEASUREMENT - Continued

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2017 and 2016:

	<i>Assets at Fair Value as of December 31, 2017</i>			
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
Mutual Funds	\$ 7,349,067	\$ -	\$ -	\$ 7,349,067

	<i>Assets at Fair Value as of December 31, 2016</i>			
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
Mutual Funds	\$ 6,473,531	\$ -	\$ -	\$ 6,473,531

5. GUARANTEED INCOME FUND

In 2011, the plan entered into a guaranteed income fund, a fully benefit responsive group annuity contract, with Prudential Retirement Insurance and Annuity Company. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed income fund is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed income fund meets the fully benefit responsive investment contract criteria, it is reported at contract value. Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Generally, there are not any events that could limit the ability of the plan to transact at contract value paid within 90 days contract value paid over time. In addition, there are not any events that allow Prudential to terminate the contract and which require the plan sponsor to settle at an amount different than the contract value paid either within 90 days or over time.

6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and guaranteed income funds managed by Prudential. Prudential is the trustee, as defined by the Plan and, therefore these transactions qualify as party-in-interest transactions.

See Independent Auditors' Report.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA.

8. TAX STATUS

The Plan has obtained its determination letter dated August 21, 2013 in which the Internal Revenue Service stated that the plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability or asset if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years outside of the statute of limitations for each taxing authority.

9. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially effect participants' account balances and the amounts reported in the statement of net assets available for benefits.
