The first day of the month coincident with or next following the date a plan participant attains age 65 or completes five years of plan participation, if later.

Credited Service

One year of credited service is granted for each calendar year the participant is actively employed for 39 or more weeks. If actively employed for fewer than 39 weeks, credited service is computed to the nearest tenth of a year. Prior to the Effective Date, credited service is computed in years and fractions to the nearest tenth of a year from last hire date.

Vesting

All participants became 100% vested on June 30, 1998.

Benefits**Normal Retirement**

However, no benefits shall accrue based on Credited Service beyond June 30, 1998, except that participants who have attained age 60 by that date will continue to accrue benefits based on Credited Service until June 30, 2003.

In addition, a Supplemental Pension is payable as follows:

If an employee retires on or after June 1, 1995, he will be paid a Supplemental Pension of \$8.00 per month multiplied by Credited Service not in excess of 30.

Late Retirement

Eligibility Participation continues after normal retirement date

The benefit begins no earlier than the first day of the month the participant could have retired, and no later than the participant's Normal Retirement Date.

Optional Forms

Life annuity; life annuity with 120 monthly payments guaranteed; joint and survivor options with 50%, 66-2/3%, 75%, or 100% to beneficiary.

Actuarial Equivalence

For non-decreasing annuities: Actuarial equivalence is based on 6% interest and the 71 GAM Male Mortality rates, set back 1 year for participants and set back 5 years for beneficiaries.

For accelerated forms of payment: Actuarial Equivalence will be computed using the greater of the actuarial equivalence for non-decreasing annuities or the equivalent annual benefit computed using the "PPA applicable mortality table" and the interest rate determined under Code Section 417(e)(3) for the month of December preceeding the Plan Year that contains the annuity start date

Changes since Prior Valuation and Key Notes

There have been no changes to the plan provisions since the last valuation.

The interest rates and other mortality assumptions have been updated as required under the Pension Protection Act, all subsequent legislation, and associated IRS Regulations, including the changes presented by the Bipartisan Budget Act of 2015. These changes resulted in an increase in the Funding Target.

To better reflect anticipated plan experience, the ASC 960 assumption for future mortality improvements was changed from Scale MP-2015 to Scale MP-2016. This change resulted in a decrease in the Present Value of Accrued Benefits.

The expense load was changed from \$27,000 to \$41,000 to better anticipate future administration costs.
