## Notes to Financial Statements

### Toyotomi America Corporation 401(k) Plan

December 31, 2017 and 2016

#### Note A--Description of the Plan

The following description of Toyotomi America Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General--The Plan is a defined contribution plan covering all employees of Toyotomi America Corporation (the "Corporation") who have completed three consecutive months of service and are age eighteen or older. Employees not eligible to participate in the Plan are (1) employees who are current or former participants in any retirement plan sponsored by Toyotomi-Kiko Co., LTD, the Parent Company, (2) leased employees, or (3) non-resident alien employees with no United States source income. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions--Each year, participants may contribute pretax annual compensation to the maximum allowed by law, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Pursuant to a plan amendment effective January 1, 2016, the Plan now includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 4% of eligible compensation. Contributions are automatically invested in a designated balanced fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan. Also pursuant to the amendment referenced above, participants now have the option to designate all or a portion of their elective deferrals as Roth deferrals, and In-Plan Roth rollovers are permitted. The Plan currently offers various pooled separate accounts and guaranteed interest fund as investment options for participants. The Corporation makes matching contributions equal to \$1.00 for each \$1.00 of elective contributions up to 4% of compensation for all eligible employees.

Notes Receivable from Participants--Participants may borrow from their fund account a minimum of \$1,000 up to a maximum of 50% of the vested account balance or \$50,000, whichever is less. The notes are secured by the balance in the participant's account and bear interest rates ranging from 5.25% to 6.25%. Principal and interest are paid through payroll deductions.

Participant Accounts--Each participant's account is credited with the participant's contribution and allocations of (a) the Corporation's contribution, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting--Participants are immediately vested in their contributions and matching contributions plus actual earnings thereon.

Payment of Benefits--On termination of service due to death, disability or retirement, a participant receives a lump-sum amount equal to the value of their account.

**Toyotomi America Corporation 401(k) Plan**

December 31, 2017 and 2016

**Note B--Summary of Significant Accounting Policies**

Basis of Accounting--The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Management believes that contract value approximates the fair value and, accordingly, the investment contract is recorded at contract value in the statements of net assets available for benefits. The statements of changes in net assets available for benefits are prepared on the contract value basis.

Notes Receivable from Participants--Notes receivable from participants are measured at their unpaid principal balances plus any accrued unpaid interest. Interest is recorded on the accrual basis of accounting. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses. Delinquent participant notes are reclassified as distributions based on the terms of the Plan document. Management estimates that all notes receivable from participants are collectible as of December 31, 2017 and 2016.

Investment Valuation and Income Recognition--Investments are reported at fair value, except for fully benefit-responsive contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits--Benefits are recorded when paid.

Administrative Expenses--The Plan's administrative expenses are paid by the Corporation or from participant funds, as provided by the Plan document, and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses are charged directly to the participant's account.

Estimates--The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**Note B--Summary of Significant Accounting Policies--Continued**

Date of Management's Review--Subsequent events were evaluated through June 28, 2018, which is the date the financial statements were available to be issued.

Reclassification--Certain amounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements. There was no effect on the change in the net assets available for benefits resulting from these classifications.

**Note C--Investments**

*Unaudited Information Certified by the Plan Trustee*

The December 31, 2017 and 2016, statements of net assets available for plan benefits, the investment activities included on the statements of changes in net assets available for plan benefits for the years then ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of \$16,227,067 and \$13,085,004 at December 31, 2017 and 2016, respectively, and related investment income of \$2,252,170 and \$947,545 for the years then ended.

**Note D--Fair Value Measurements**

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or 3 inputs for the period presented.

*Level 1 Fair Value Measurements*

Pooled separate accounts are investment vehicles established and maintained by an insurance company. They may only be accessed through the purchase of an insurance contract such as a group annuity. While they are covered by federal securities laws, they are exempted from registering with the SEC. The fair value of pooled separate accounts is computed in accordance with the investment company measurement principles based upon the values of the shares held by the Plan at year-end.

December 31, 2017 and 2016

**Note D--Fair Value Measurements--Continued**

The Plan's investments are held by The Standard Insurance Company (the "Custodian" of the Plan). The following table presents, by level within the fair value hierarchy, the fair value of investments as of December 31, 2017 and 2016:

		<b>Fair Value Measurements Using:</b>	
	<b>Fair Value</b>	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
<b><u>December 31, 2017</u></b>

Index Funds	\$ 3,441,467	\$ 3,441,467	
Growth Funds	8,170,917	8,170,917	
Fixed Income Funds	369,980	369,980	
Foreign Funds	868,486	868,486	
<b>Total Investments at Fair Value</b>	<b>\$ 12,850,850</b>	<b>\$ 12,850,850</b>	
Investment contract	\$ 3,376,217		\$ 3,376,217
<b><u>December 31, 2016</u></b>

Growth Funds	6,620,137	6,620,137	
Fixed Income Funds	289,158	289,158	
Foreign Funds	661,890	661,890	
<b>Total Investments at Fair Value</b>	<b>\$ 10,138,015</b>	<b>\$ 10,138,015</b>	
Investment contract	\$ 2,946,989		\$ 2,946,989

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2017 and 2016, there were no transfers into or out of Level 2 and Level 3.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2017 and 2016 are reported in net appreciation in fair values of investments.

**Toyotomi America Corporation 401(k) Plan**

December 31, 2017 and 2016

**Note E--Investment Contract with Insurance Company**

The Guaranteed Interest Fund is a benefit-responsive investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Custodian is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract meets the criteria to be considered benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statements of net assets available for benefits at contract value. The Plan and Plan's Custodian believe that contract value is an appropriate measurement for the Plan's Investment Contract for financial statement reporting purposes, and that the contract value approximates fair value. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value at December 31, 2017 and 2016 was \$3,376,217 and \$2,946,989, respectively.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average crediting interest rates were approximately 3.03% for both 2017 and 2016. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than three percent. Such interest rates are reviewed on a quarterly basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include, (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

**Toyotomi America Corporation 401(k) Plan**

December 31, 2017 and 2016

**Note F--Related Party Transactions**

Investment options available include The Standard Insurance funds. Investments in The Standard Insurance funds qualify as party-in-interest transactions. Fees paid by the Corporation for investment management and administrative services totaled \$4,129 and \$3,487 for the years ended December 31, 2017 and 2016, respectively.

The party-in-interest transactions are exempt from the prohibited transaction rule of ERISA.

**Note G--Plan Termination**

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

**Note H--Tax Status**

The Internal Revenue Service ("IRS") has determined, and informed the Corporation by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although, the Plan has been amended subsequent to receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC, and therefore believe that the Plan is qualified. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

**Note I--Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
