Urethane of Kentuckiana, Inc. 401(k)/Profit Sharing Plan

December 31, 2017 and 2016

Note A--Description of Plan

Urethane of Kentuckiana, Inc. (the "Company") is a commercial roofing contractor with over forty years of experience that sells and services roofing products throughout the continental U.S. The Urethane of Kentuckiana, Inc. 401(k)/Profit Sharing Plan (the "Plan") covers two companies: Urethane of Kentuckiana, Inc. (d/b/a Insulated Roofing Contractors) and Progressive Materials, LLC.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General--The Plan is a defined contribution plan. The 401(k)/profit sharing portion of the Plan covers all employees of the Company, except union employees and non-resident aliens. An employee shall become a participant in the Plan on the first entry date (January 1, April 1, July 1, and October 1) coinciding with or immediately following completion of one year of service, defined as a twelve consecutive month period in which the employee completes 1,000 hours of service. The Prevailing Wage Rate portion of the Plan covers all employees who perform services under a Prevailing Wage Contract except highly compensated and key employees. There is no minimum age requirement to participate in this portion of the Plan and participants are members of the Plan effective on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Administrator oversees governance of the Plan including the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions--Employees may contribute up to 100% of pre-tax annual compensation, as defined by the Plan, through a salary reduction program. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching contributions which are determined annually by management. The Company made matching contributions of \$185,311 and \$166,533 for the years ended December 31, 2017 and 2016, respectively. Contributions are subject to certain statutory limitations.

Employer Prevailing Wage Rate contributions vary according to each individual contract and the applicable Prevailing Rate Schedule for that city and state. Participant contributions are not permitted in the Prevailing Wage Rate portion of the Plan. Participants direct the investment of the contributions into various investment options offered by the Plan. The Company made Prevailing Wage Rate contributions of \$33,948 and \$180,956 the years ended December 31, 2017 and 2016, respectively.

The Company did not make any profit sharing or safe harbor contributions for the years ended December 31, 2017 and 2016.

December 31, 2017 and 2016

Note A--Description of Plan--Continued

Participant Accounts--Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) Plan earnings (losses) and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting--Participants are immediately vested in their voluntary contributions, prevailing wage rate contributions, and actual earnings thereon. Participant rollover contributions from previous plans are fully vested. On termination of service due to death, disability or retirement, a participant is deemed fully vested in the Company matching portion of their account and related earnings. For termination of service for other reasons, vesting in the Company's matching portion of their accounts and the related earnings is based on continuous years of service as follows:

<u>Service Years</u>	<u>Vested Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits--A participant who has become entitled to receive payment of benefits due to death, retirement, disability, or termination may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or receive monthly payments upon the purchase of a life annuity. In the event of financial hardship, the Plan may allow a participant to withdraw a part of the vested portion of the participant's account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts--At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$4,253 and \$568, respectively. These amounts will be allocated to reduce the employer's future matching contributions. Employer contributions were reduced by \$4,038 and \$9,368 for the years ended December 31, 2017 and 2016, respectively, from forfeited nonvested accounts.

Note B--Summary of Significant Accounting Policies

The Plan follows generally accepted accounting principles as outlined in the Financial Accounting Standards Board's *Accounting Standards Codification* ("ASC"). Significant accounting policies are as follows:

December 31, 2017 and 2016

Note B--Summary of Significant Accounting Policies--Continued

Use of Estimates--The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting--The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Investment Valuation and Income Recognition--Investments are reported at fair value, except for fully benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits--Benefits are recorded when paid.

Administrative Expenses--Certain expenses of maintaining the Plan are paid directly by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

Date of Management's Review--Subsequent events were evaluated through July 9, 2018, which is the date the financial statements were available to be issued.

Note C--Unaudited Information Certified by the Plan Trustee

The December 31, 2017 and 2016, statements of net assets available for plan benefits, the investment activities included on the statements of changes in net assets available for plan benefits for the years then ended, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.203-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of \$14,112,537 and \$12,134,720 at December 31, 2017 and 2016, respectively, and related income of \$1,914,629 and \$784,732 for the years then ended.

Urethane of Kentuckiana, Inc. 401(k)/Profit Sharing Plan

December 31, 2017 and 2016

Note D--Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted process for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs would not be available. Level 3 inputs are only used when Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 2 or Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of the money market account and mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds of the Plan are considered to be actively traded.

The following tables represent the Plan's investments at fair value:

	Fair Value Measurements Using:	
	Fair Value	Quoted Prices in in Active Markets for Identical Assets (Level 1)
<u>December 31, 2017</u>		
Money market fund	\$ 4,253	\$ 4,253
Mutual funds	13,652,509	13,652,509
Total Investments, at Fair Value	\$ 13,656,762	\$ 13,656,762
<u>December 31, 2016</u>		
Money market fund	\$ 568	\$ 568
Mutual funds	11,516,613	11,516,613
Total Investments, at Fair Value	\$ 11,517,181	\$ 11,517,181

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2017 and 2016, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1 and 2 and into our out of Level 3.

Urethane of Kentuckiana, Inc. 401(k)/Profit Sharing Plan

December 31, 2017 and 2016

Note E--Investment Contract with Insurance Company

During 2014, the Plan entered into a fully benefit-responsive guaranteed investment contract with MassMutual Retirement Services ("MassMutual"). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at contract value. Management and the Plan's Trustee believe that contract value is an appropriate measurement for the Plan's Investment Contract for financial statement reporting purposes, and that the contract value approximates fair value. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2017 and 2016 was \$455,775 and \$617,539, respectively. The average interest rate credited to participants was 1.76% and 1.97% as of December 31, 2017 and 2016, respectively.

Certain events limit the Plan's ability to transact at contract value with MassMutual. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of material obligation under contract, or (d) a material misrepresentation. Management does not believe that any events that would limit the Plan's ability to transact at contract value with the Plan participants are probable of occurring.

The guaranteed fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Urethane of Kentuckiana, Inc. 401(k)/Profit Sharing Plan

December 31, 2017 and 2016

Note F--Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company provides administrative services, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Company for investment management services amounted to \$13,630 and \$10,552 for the years ended December 31, 2017 and 2016, respectively.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note G--Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note H--Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated August 19, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax council believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note I--Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
