401(k) Employees' Savings Plan
Notes to Financial Statements
December 31, 2016 and 2015

Note A - Description of Plan

The following description of the Marco Display Specialists, L.P. (Company) 401(k) Employees' Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a profit sharing plan, which contains an Internal Revenue Code Section 401(k) feature.

Assets of the Plan are allocated to participant accounts based on specific contributions made by each participant and respective matches made by the Company, when applicable. Investment income (loss) is credited to each account based on appreciation (depreciation) of specific assets held in each participant account and any earnings thereon.

Plan Contributions. Each year, participants may contribute up to 75% or $18,000, whichever is less, of pretax annual compensation, as defined in the Plan subject to certain nondiscrimination tests prescribed by the Internal Revenue Service and other limitations specified by the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $6,000. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers 24 (twenty-four) mutual funds as investment options for participants. Profit sharing amounts may be contributed at the option of the Company's board of directors and are invested at the participant's direction. The Company contributed an amount equal to 0% in both 2016 and 2015.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) the earnings of the Plan and (c) administrative expenses of the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A - Description of Plan (continued)

Investment Options – Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. Participants may direct their contributions into one or more mutual funds and a money market fund.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, after reaching age 65 while employed, or if the participant terminates employment as a result of becoming disabled or dying while employed.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans. Participants may borrow from their account a minimum of $1,000, up to a maximum of the lesser of one half of their vested account balance or $50,000, reduced by the highest outstanding loan balance in their account during the prior twelve month period. The loans are secured by the remaining balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Both principal and interest portions are deposited in the participant's account. Loans are required to be repaid within 5 years of the date of the loan or due on the termination of service. As of December 31, 2016 and 2015, the Plan had participant loans receivable with principal balances totaling $376,066.28 and $396,566.60, respectively, which are included with investments in the accompanying Statement of Net Assets Available for Benefits.

Participant Investment Rollovers. Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Administrative Expenses. The Plan's administrative expenses consist of brokerage account investment management fees, asset based pricing fees and maintenance fees. These expenses were approximately $20,712 and $19,410 for 2016 and 2015, respectively. In 2016 and

Note A - Description of Plan (continued)

2015, the contract administrator fee of $0 and $0, respectively, was paid by the Plan and the employer continues to absorb the annual cost of auditing the Plan's financial statements.

Forfeited Accounts. For the years ended December 31, 2016 and 2015, there were $3,441 and $4,991, respectively, of forfeited non-vested accounts, which reduces the employer contribution. Forfeited accounts are recognized in the year in which the employee has completed five consecutive one-year breaks in service.

Note B - Summary of Significant Accounting Policies

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires the plan administrator to make estimates and assumptions that affect certain reported amounts of certain assets, liabilities and disclosures. Accordingly, actual results may differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair market value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common Stock, corporate bonds and U.S. government securities. Valued at the closing priced reported on the active market on which the individual securities are traded.

Mutual Funds. Valued daily at the net asset value ("NAV") of shares held by the plan at year end.

Note B - Summary of Significant Accounting Policies (continued)

Participant loans. Value at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair value measurement at the reporting date.

The change in net unrealized appreciation/depreciation of investments held from the beginning of the plan year to the end of the plan year is included with unrealized gains/losses as net investment income/loss reported in the accompanying statements of changes in net assets available for benefits.

Contributions. Contributions from employees and the Company are recorded in the period in which the Company makes the payroll deductions from participant earnings.

Distributions. Distributions are recorded when paid. At December 31, 2016 and 2015, there were no benefits processed and approved for payment.

Expenses. Certain of the Plan's administrative expenses (Audit) are paid by the Company.

Note C- Investments (Unaudited)

The Plan's investments were held in trust and administered by the Trustee. All investment information presented in the accompanying financial statements and supplemental schedules, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Note C- Investments (Unaudited)(continued)

During the years ended December 31, 2016 and 2015, the Plan's investments (recognized and unrecognized gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2016	2015
Mutual Funds		
Unrealized Gain/(Loss)	$ 182,343.63	$ (427,782.38)
Realized Gain/(Loss)	47,543.50	(71,178.28)
Net Appreciation/(Depreciation)	$ 229,887.13	$ (498,960.66)

The information in this footnote, the accompanying financial statements and supplemental schedule was obtained from financial information that has been prepared and certified as complete and accurate by the Plan custodian. The Plan custodian's certification included the summary of plan transactions, the employer fund statement and the schedule of assets held for investment purposes at end of year.

Note D - Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Note D - Fair Value Measurement. (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurement. (Continued)

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016

Participant Loans		396,567		396,567
	$ 6,516,263	$ 396,567	$ -	$ 6,912,830

Note E - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note F – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. The plan is required to operate in conformity with the code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income examination for years prior to 2012.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and funded status of the plan.

Note J – Related Party Transactions

Certain administrative expenses of the Plan are paid directly by the Employer and are not charged to the Plan. The Plan Sponsor pays directly any other fees related to the Plan's operations.

The accompanying financial statements, supplemental schedules, and certain notes to these financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Securities Act of 1974.

Note A - Description of Plan

The following description of the Marco Display Specialists, L.P. (Company) 401(k) Employees' Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a profit sharing plan, which contains an Internal Revenue Code Section 401(k) feature.

Assets of the Plan are allocated to participant accounts based on specific contributions made by each participant and respective matches made by the Company, when applicable. Investment income (loss) is credited to each account based on appreciation (depreciation) of specific assets held in each participant account and any earnings thereon.

Plan Contributions. Each year, participants may contribute up to 75% or $18,000, whichever is less, of pretax annual compensation, as defined in the Plan subject to certain nondiscrimination tests prescribed by the Internal Revenue Service and other limitations specified by the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $6,000. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers 24 (twenty-four) mutual funds as investment options for participants. Profit sharing amounts may be contributed at the option of the Company's board of directors and are invested at the participant's direction. The Company contributed an amount equal to 0% in both 2016 and 2015.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) the earnings of the Plan and (c) administrative expenses of the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A - Description of Plan (continued)

Investment Options – Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. Participants may direct their contributions into one or more mutual funds and a money market fund.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, after reaching age 65 while employed, or if the participant terminates employment as a result of becoming disabled or dying while employed.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans. Participants may borrow from their account a minimum of $1,000, up to a maximum of the lesser of one half of their vested account balance or $50,000, reduced by the highest outstanding loan balance in their account during the prior twelve month period. The loans are secured by the remaining balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Both principal and interest portions are deposited in the participant's account. Loans are required to be repaid within 5 years of the date of the loan or due on the termination of service. As of December 31, 2016 and 2015, the Plan had participant loans receivable with principal balances totaling $376,066.28 and $396,566.60, respectively, which are included with investments in the accompanying Statement of Net Assets Available for Benefits.

Administrative Expenses. The Plan's administrative expenses consist of brokerage account investment management fees, asset based pricing fees and maintenance fees. These expenses were approximately $20,712 and $19,410 for 2016 and 2015, respectively. In 2016 and

Note A - Description of Plan (continued)

2015, the contract administrator fee of $0 and $0, respectively, was paid by the Plan and the employer continues to absorb the annual cost of auditing the Plan's financial statements.

Forfeited Accounts. For the years ended December 31, 2016 and 2015, there were $3,441 and $4,991, respectively, of forfeited non-vested accounts, which reduces the employer contribution. Forfeited accounts are recognized in the year in which the employee has completed five consecutive one-year breaks in service.

Note B - Summary of Significant Accounting Policies

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires the plan administrator to make estimates and assumptions that affect certain reported amounts of certain assets, liabilities and disclosures. Accordingly, actual results may differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair market value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common Stock, corporate bonds and U.S. government securities. Valued at the closing priced reported on the active market on which the individual securities are traded.

Mutual Funds. Valued daily at the net asset value ("NAV") of shares held by the plan at year end.

Note B - Summary of Significant Accounting Policies (continued)

Participant loans. Value at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair value measurement at the reporting date.

The change in net unrealized appreciation/depreciation of investments held from the beginning of the plan year to the end of the plan year is included with unrealized gains/losses as net investment income/loss reported in the accompanying statements of changes in net assets available for benefits.

Contributions. Contributions from employees and the Company are recorded in the period in which the Company makes the payroll deductions from participant earnings.

Distributions. Distributions are recorded when paid. At December 31, 2016 and 2015, there were no benefits processed and approved for payment.

Expenses. Certain of the Plan's administrative expenses (Audit) are paid by the Company.

Note C- Investments (Unaudited)

The Plan's investments were held in trust and administered by the Trustee. All investment information presented in the accompanying financial statements and supplemental schedules, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Note C- Investments (Unaudited)(continued)

During the years ended December 31, 2016 and 2015, the Plan's investments (recognized and unrecognized gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2016	2015
Mutual Funds		
Unrealized Gain/(Loss)	$ 182,343.63	$ (427,782.38)
Realized Gain/(Loss)	47,543.50	(71,178.28)
Net Appreciation/(Depreciation)	$ 229,887.13	$ (498,960.66)

The information in this footnote, the accompanying financial statements and supplemental schedule was obtained from financial information that has been prepared and certified as complete and accurate by the Plan custodian. The Plan custodian's certification included the summary of plan transactions, the employer fund statement and the schedule of assets held for investment purposes at end of year.

Note D - Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Note D - Fair Value Measurement. (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurement. (Continued)

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Note E - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note F – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. The plan is required to operate in conformity with the code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income examination for years prior to 2012.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and funded status of the plan.

Note J – Related Party Transactions

Certain administrative expenses of the Plan are paid directly by the Employer and are not charged to the Plan. The Plan Sponsor pays directly any other fees related to the Plan's operations.
