Mortality	Funding: Healthy: RP-2000 generational Mortality Table as described in Regulation 1.430(h)(3) projected by Scale AA, to between 7 and 15 years beyond the year of the obligation, male and female, with different rates for annuitants and nonannuitants. Disabled: All four Disabled Tables of Revenue Ruling 96-7. These are applied conditionally as specified in 96-7 which means that healthy mortality rates will be used for disableds unless the disabled retiree i) receives Social Security Disability Income and ii) receives extra benefits beyond those they could have elected without being disabled. 100% of retirees entitled to current and future disability benefits are assumed to be entitled to Social Security Disability Income. Employees projected to become disabled beyond age 65 are subject to the “healthy” mortality rates due to not receiving extra benefits due to disablement.

Assumptions Made In Valuing Spouse’s Benefit

Eighty percent of the employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Optional Form Election

All employees are assumed to receive a lump sum distribution, if eligible, otherwise they are assumed to elect the life annuity benefit.

Appendix B (Continued)

<i>Provision for Expenses</i>	None.
<i>Standing Elections</i>	The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
<i>Asset Method</i>	Market Value of Assets plus any contributions for prior plan years that will be made in this plan year. For funding purposes only, contributions made after the end of the prior plan year will be discounted for interest at the prior year's effective rate.
<i>Employees Valued</i>	Only participants as of the valuation date were valued.
<i>Selection of Assumptions</i>	The segment rates and mortality table used to determine minimum funding and funded ratios were based on methodology mandated by Internal Revenue Code and rates published by the Internal Revenue Service to affect it.
<i>Changes in Assumptions and Methods since the Last Actuarial Valuation</i>	The segmented interest rates used for determining the 2016 funding target were 4.43%, 5.91% and 6.65%. These rates were updated to the rates required for the current plan year and adjusted as required by BBA. The mortality table for the funding target was changed as required under PPA '06.
<i>Justification for Changes in Actuarial Assumptions</i>	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Pension Benefits

Eligible employees are entitled to normal annual pension benefits generally beginning at the participant's normal retirement age of 65, as described in the Plan. For participants hired after January 1, 2015, normal retirement age is defined as the later of age 65 or the participant's fifth anniversary of commencing participation in the Plan. The individual pension benefit is equal to years of credited service times a monthly pension basic benefit based on average compensation at retirement. Special provisions for retirement at other than the normal retirement age are described in the plan agreement. Employees at age 55 with at least 10 years of service may elect early retirement and receive a reduced monthly retirement benefit or lump sum payable immediately in accordance with the plan agreement.

Death Benefits

If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the benefit the employee would have received if he or she had retired on the day immediately preceding the date of his or her death will be paid to the surviving spouse. Beneficiaries of unmarried participants and those who have elected to waive the pre-retirement surviving spouse benefit will receive a lump sum benefit or monthly installments equal to the actuarial equivalent of the participant's vested accrued normal retirement benefit at the date of break in service.

Payment of Benefits

Distributions are payable upon termination, retirement, death, or disability in the form of a lump sum amount equal to the vested value of the participant's accumulated plan benefits, or in various installment annuities.

Funding and Contributions

The Company contributes such amounts, as determined on an actuarial basis, to provide assets sufficient to meet the benefits to be paid to plan participants and satisfy the ERISA minimum funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by PNC Bank, N.A. or its affiliates. PNC Bank, N.A. is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

2. Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. All investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of approximately \$78,500 and \$67,000 for the years ended December 31, 2017 and 2016, respectively, were paid indirectly by the Company.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits are calculated based on employees' credited years of service multiplied by a specified amount based on their average monthly compensation. Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation of the Plan at December 31, 2016 are summarized as follows:

Actuarial cost method	Projected unit credit
Assumed rate of return	7.00 percent per annum
Mortality basis	RP 2014 mortality rates generationally improved using scale MP 2016
Benefit multiplier	All active accruing participants are assumed to be at the \$13 multiplier

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the financial statements.

Investment securities are exposed to various risks such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the statement of assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 1, 2018, which is the date the financial statements were available to be issued.

3. Unaudited Information

PNC Bank, N.A. (the Trustee) holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information provided by the Trustee.

4. Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value, which is described as follows:

Level 1: Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2: Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3: Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2017

	Level 1	Level 2	Level 3	Balance
Mutual funds	\$1,095,335	\$ -	\$ -	\$1,095,335
Money market fund	3,619	-	-	3,619
Total investments	<u>\$1,098,954</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$1,098,954</u>

Assets Measured at Fair Value on a Recurring Basis at December 31, 2016

	Level 1	Level 2	Level 3	Balance
Mutual funds	\$1,282,753	\$ -	\$ -	\$1,282,753
Money market fund	3,067	-	-	3,067
Total investments	<u>\$1,285,820</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$1,285,820</u>

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event or change in circumstances that caused the transfer.

5. Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

6. Benefit Obligations

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which was made as of and for the year ended December 31, 2016, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 179,002
Other vested participants	<u>1,146,768</u>
Total vested benefits	1,325,770

Nonvested benefits	<u>44,040</u>
Total benefit obligations	<u>\$1,369,810</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2016 is as follows:

Actuarial present value of accumulated plan benefits - beginning of year	\$ 1,346,900
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	29,364
Benefits accumulated	60,154
Interest due to the decrease in the discount period	88,932
Benefits paid	<u>(155,540)</u>
Net increase	<u>22,910</u>
Actuarial present value of accumulated plan benefits - end of year	<u>\$1,369,810</u>

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three year period prior to termination, based on the plan provisions in effect during the five year period ending on such date under which such benefit would be the least.
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5)).
3. Provide all other vested benefits other than those becoming non-forfeitable solely on account of the termination of the Plan.
4. Provide all other benefits under the Plan.

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all non-forfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.
