NOTE A - DESCRIPTION OF THE PLAN - Continued

Eligibility and Contributions

As of December 31, 2016, all full-time employees of the Company are eligible to become participants in the Plan subsequent to the completion of 3 months of service and reaching an age of 21 years or older. Effective as of January 1, 2017, the Plan has been amended and all full-time employees of the Company are eligible to become participants in the Plan subsequent to the completion of one year of service and reaching an age of 21 years or older.

Participants are automatically enrolled in the Plan on their first day of eligibility at a contribution rate of 6% unless they opt out. Participants may elect to contribute in whole percentages ranging from 1%-70% of eligible compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to certain limitations under the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans ("rollovers"). Participants direct the investment of their contributions into various investment options offered by the Plan.

As of December 31, 2016, the Company matched 60% up to the first 6% of employee contributions. Effective as of January 1, 2017, the Plan has been amended and the Company matches 50% up to the first 6% of employee contributions. Contributions are subject to certain limitations. All contributions made during a Plan year are subject to maximum dollar limitations established by the IRC. For the year ended December 31, 2017, the total maximum allowable tax-deferred contribution to the Plan under the IRC from employee sources was $18,000, plus catch-up contributions of $6,000 for eligible employees.

Participant Accounts

Each participant's account is credited and/or debited with the participant's contributions, the Company's contributions, and a proportionate share of Plan earnings/losses, investment fees and any other administrative expenses paid out of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions plus actual earnings thereon to be invested in any of the investment options offered by the Plan. Participants may change their investment options daily.

(continued)

NOTE A - DESCRIPTION OF THE PLAN - Continued

Vesting

Participants are immediately fully vested in their contributions plus/minus actual earnings/losses thereon. The Plan uses the equivalency method for Company contributions which means that if an employee works at all during a month, they are credited with 190 hours. Once a participant reaches 1,000 hours in the Plan year, they are credited with a year of service. Participants vest in Company contributions based upon the following schedule:

Years of Service	Vested Percentage
1 year	50%
2 years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 on 50% of their vested account balance. Each participant is allowed to have a maximum of one loan outstanding at a time. The notes are secured by the balance in the participant's vested account, or other collateral, and bear interest at a rate commensurate with prime rate plus 1%. The prime rate is determined based upon the prime rate of interest that is published in the Wall Street Journal on the 14th day of each month. For the years ended December 31, 2017 and 2016, interest rates on participant loans ranged from 4.5% to 5.5%.

The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Forfeited Accounts

Forfeitures of non-vested account balances are used by the Company first to offset plan administrative expenses and then to reduce the employer matching contributions for the Plan year in which the forfeitures occur. As of December 31, 2017 and 2016, there were approximately $6,700 and $5,200, respectively of forfeited non-vested accounts. During the year ended December 31, 2017, the Company's contributions were reduced from forfeitures by approximately $31,600.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Payment of Benefits

Upon death, disability, or retirement, participant accounts become 100% vested and participants or their beneficiaries may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account if the benefit payable does not exceed $5,000. If the benefit payable exceeds $5,000, the participant or their beneficiaries may elect to receive a single lump sum payment, a partial withdrawal or an annuity. If a participant meets certain criteria, benefits may also be received as an in-service withdrawal.

Upon termination of service, benefits relating to employee contributions and vested employer contributions are distributed and subject to the applicable taxes and penalties, or rolled over if the total investment amount is $5,000 or less. If the investment amount is greater than $5,000, a participant may elect to have the funds remain in the Plan, until age 70-1/2. Upon termination of service, an automatic lump-sum distribution will be made for vested amounts less than $1,000 and unless otherwise directed by the participant, automatic individual retirement account rollovers will be made for vested amounts between $1,000 and $5,000. If the investment amount is greater than $5,000, a distribution of the participant's account may not be made without the participant's consent, until age 70-1/2.

Benefits paid to participants are recorded as deductions from net assets available for benefits when paid.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Rules

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard during 2016 resulting in the removal of the Plan's investment for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that total investments in the fair value hierarchy can be reconciled to total investments measured at fair value on the statements of net assets available for benefits.

(continued)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Adoption of New Accounting Rules - Continued

In July 2015, the FASB issued ASU 2015-12, Plan Accounting*: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962),* and *Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient.* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Part III is not applicable to the Plan. Parts I and II were applied in 2016 resulting in the Plan's common collective trust being reported only at contract value in the accompanying statements of net assets available for benefits and the removal of certain fair value disclosures related to this investment. The disclosures of individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation in fair value of investments by general type and the investment strategy for the Plan's investment measured at NAV have been removed, and the level disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

(continued)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Net Appreciation in Fair Value of Investments

Net realized and unrealized appreciation of investments is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of investments and includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administration of the Plan

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain administration expenses, such as professional fees, are paid directly by the Company. Fees paid by the Company were approximately $51,000 for 2017.

NOTE C - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(continued)

NOTE C - FAIR VALUE MEASUREMENTS - Continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The mutual funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement.

Common/Collective Trusts – The Plan has an interests in collective trusts valued at NAV of units held. The NAV is used as a practical expedient to estimate fair value. The collective trusts invests primarily in guaranteed investment contracts, synthetic guaranteed investments contracts, and separate account investment contracts. The accounts are credited with contributions and earnings on the underlying investments and charges for participant withdrawals and administrative expenses charged by the trustee of the collective trust funds. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. There are no reserves against the collective trust funds for credit risk of the contract issuer or otherwise. There are no participant redemption restrictions or unfunded commitments. Redemption can occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 48,472,638	$ -	$ -	$ 48,472,638
Total assets in the fair value hierarchy	$ 48,472,638	$ -	$ -	48,472,638
Investments measured at NAV				3,242,361
Investments at fair value	$ 48,472,638	$ -	$ -	$ 51,714,999

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 31,015,698	$ -	$ -	$ 31,015,698
Total assets in the fair value hierarchy	$ 31,015,698	$ -	$ -	31,015,698
Investments measured at NAV				2,694,678
Investments at fair value	$ 31,015,698	$ -	$ -	$ 33,710,376

NOTE D - RISKS AND UNCERTAINTIES

The Plan provides for investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market volatility, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

NOTE F - TAX STATUS

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated June 16, 2014, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code ("IRC"), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan's policy is to recognize interest and penalties as a component of administrative expenses, and there were no interest and penalties recognized during the year ended December 31, 2017. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee certified that the following data included in the financial statements and supplemental schedule is complete and accurate:

a. Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2017 and 2016.
