**SUPERIOR FORGE & STEEL CORPORATION
401(k) RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following is a brief description of the Superior Forge & Steel Corporation 401(k) Retirement Savings Plan (Plan) and provides only general information. Participants should refer to the Plan document or the Summary Plan Description for a complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan established for the benefit of the employees of Superior Forge & Steel Corporation (Company), Plan Sponsor. The Plan, which was amended and restated January 1, 2016, is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees who are 18 years of age and older and have completed one year of service are eligible to participate in the Plan. One year of service is defined as the twelve month period beginning on an employee's date of hire. If an employee has been credited with at least 1,000 hours of service by the end of such period, the employee will have completed a year of service at the end of any following Plan year during which the employee was credited with 1,000 hours of service. Employees can begin participation on the first day of the month coinciding with or immediately following the employee meeting the eligibility requirements.

Contributions: Eligible employees may contribute pre-tax annual compensation as defined in the Plan up to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also roll over amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary contributions to the Plan subject to certain limitations. The discretionary employer contribution amounted to 3% of the participant's eligible wages earned during the year ended December 31, 2017.

Participant accounts: Each participant account is (a) credited with the participant's contributions, (b) credited with the Company's contributions, (c) credited (reduced) with an allocation of investment income (loss) and appreciation (depreciation) in the fair value of investments, (d) reduced by the participant's withdrawals, and (e) reduced by administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocations to individual participant accounts are based upon dollar values at specified valuation dates.

Vesting: Participants are immediately vested in their contributions and rollover contributions as defined by the Plan document plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service as defined in the Plan document. Additionally, participants become fully vested, regardless of vesting table, upon attainment of normal retirement age, upon retirement due to disability, or upon death.

Payment of benefits: Employees of the Plan Sponsor may receive payment of benefits on termination of service due to death, disability, retirement, or other reason; a participant whose Plan balance is \$5,000 or more at the time of termination may elect to remain in the Plan or receive a lump-sum distribution of their account balance. The Plan Sponsor may initiate an involuntary distribution for those terminated participants whose Plan balance is less than \$5,000 at the time of termination.

Investment options: Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

SUPERIOR FORGE & STEEL CORPORATION
401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or fifty percent of their vested account balance. Loan terms generally range from one to five years, with the exception of loans for the purchase of a principal residence which may exceed five years. Loans are collateralized by a portion of the participant's vested account balance equal to the amount borrowed. The interest rate is the prime rate plus two percent on the loan's issue date and this rate is fixed for the life of the loan. Principal and interest are paid through payroll deductions.

Forfeited accounts: Forfeiture of non-vested employer discretionary contributions arising from employee terminations and withdrawals are used to pay Plan expenses or to offset future employer contributions. As of December 31, 2017 and 2016, forfeited non-vested accounts totaled \$326 and \$6,627, respectively. Forfeitures of \$6,301 were used to offset employer contributions during the year ended December 31, 2017.

Note 2. Significant Accounting Policies

The accounting policies followed by the Plan and the method of applying those policies which materially affect the determination of net assets available for benefits and changes in net assets available for benefits are as follows:

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets available for Plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and (losses) on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payments of benefits: Benefits are recorded when paid.

Administrative expenses: Except for loan origination fees associated with notes receivable from participants, administrative expenses are paid by either the Plan or the Plan Sponsor as provided by the Plan document.

Subsequent events: In preparing these financial statements, the Plan Sponsor evaluated events that occurred through July 23, 2018, the date the financial statements were available to be issued, for potential recognition or disclosure.

Note 3. Information Certified by Voya and John Hancock

The following is a summary of the investment information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Custodians that information provided to the Plan Administrator by the Custodians related to the following investments is either complete and accurate or complete and accurate, to the best of their knowledge, with respect to the records maintained under contract. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments as of December 31:

	2017	2016
Investments at fair value:		
Pooled separate accounts	\$ 16,981,138	\$ 14,621,126
Registered investment account	221,287	-
Non-interest bearing cash account	-	6,627
	<u>\$ 17,202,425</u>	<u>\$ 14,627,753</u>

The Custodians also certified to the completeness and accuracy of \$2,430,344 of net appreciation in fair value of pooled separate accounts, \$1,046 of interest on registered investment account, and \$34,684 of interest related to notes receivable from participants for the year ended December 31, 2017. Notes receivable from participants that were certified as of December 31, 2017 and 2016, amounted to \$605,455 and \$640,310, respectively.

Note 4. Investments and Fair Value Measurements

Authoritative guidance regarding *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements). The three levels of the fair value hierarchy under the authoritative guidance are described below:

Level I Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level II Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

SUPERIOR FORGE & STEEL CORPORATION
401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 or 2016:

Pooled separate accounts: Valued using the net asset value (NAV) as a practical expedient to estimate fair value, as provided by the Plan's Custodians. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Registered investment account: Valued based on quoted market prices.

Non-interest bearing cash account: Valued at cash value at end of year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017				
	Total	Level I	Level II	Level III
Investments in the fair value hierarchy:				
Registered investment account	\$ 221,287	\$ 221,287	\$ -	\$ -
Investments measured at net asset value (a):				
Pooled separate accounts	16,981,138	-	-	-
Total assets at fair value	\$ 17,202,425	\$ 221,287	\$ -	\$ -
Assets at Fair Value as of December 31, 2016				
	Total	Level I	Level II	Level III
Fair value hierarchy:				
Non-interest bearing cash	\$ 6,627	\$ 6,627	\$ -	\$ -
Investments measured at net asset value (a):				
Pooled separate accounts	14,621,126	-	-	-
Total assets at fair value	\$ 14,627,753	\$ 6,627	\$ -	\$ -

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of fair value hierarchy to the line items presented on the statements of net assets available for benefits.

Transfers Between Levels

For years ended December 31, 2017 and 2016, there were no significant transfers between Levels I and II and no transfers in or out of Level III.

Investments Measured Using NAV per Shares as Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value		Unfunded Commitments	Redemption Frequency if Currently Eligible	Redemption Notice Period
	2017	2016		2017 and 2016	
Pooled separate accounts	<u>\$ 16,981,138</u>	<u>\$ 14,621,126</u>	N/A	Daily	Daily

Note 5. Related Party Transactions

Certain Plan investments are pooled separate accounts managed by the Custodians, Voya and John Hancock. Voya and John Hancock are the Custodians as defined by the Plan and, therefore, transactions with these accounts qualify as party-in-interest transactions.

Fees paid by the Plan for the administrative services and/or investment management services amounted to \$11,511 for the year ended December 31, 2017. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain other administrative expenses are paid directly by the Company for which it is not reimbursed.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the employer has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants would become 100% vested in their entire accounts. Participants will then receive either lump-sum cash payments or an annuity.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the sponsor of the prototype plan by a letter dated January 27, 2015, that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the appropriate taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, tax returns for the years ended December 31, 2014, and thereafter remain subject to examination by the appropriate taxing authorities.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.
