Refreshment Services, Inc. 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE A - DESCRIPTION OF PLAN

The following description of the Refreshment Services, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of Refreshment Services, Inc. (the Company) who have one year of service, are age nineteen or older with 1,000 hours of service. Effective January 1, 2017, the Plan was amended to remove the age and hours of service requirement. The Plan also covers some union employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Each year, participants may contribute a portion of their salary not to exceed the limits prescribed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 100% of the first 3% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. There were no additional amounts contributed by the Company during 2017 or 2016. Contributions are subject to certain limitations.

3. Participant Accounts and Forfeited Accounts

Each participant's account is credited with the participant's contributions and actual earnings and with an allocation of the Company's contribution and Plan earnings. Allocations of Company contributions are based on participant contributions and compensation. Allocations of Plan earnings are based on participants' account balances. The non-vested portions of terminated participants' account balances are forfeited and are available to reduce future administrative expenses and employer contributions. At December 31, 2017 and 2016, the Plan retained $ 438 and $ 4,243 in forfeitures, respectively.

NOTE A - DESCRIPTION OF PLAN - Continued

4. Vesting

Participants are immediately vested with respect to their voluntary contributions and actual earnings on these contributions. With respect to employer contributions, vesting is based on service. Participants become 20% vested in employer contributions after two years of service with the Company and vesting increases in 20% increments annually to 100% after six years of service

5. Investment Options

Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Plan's Trustees. Participants may change their investment options at any time pursuant to procedures established in the Plan document.

6. Payment of Benefits

On termination of service due to death, disability or retirement, a participant, or his or her beneficiary, may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $ 50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

In May 2015, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) 2015-07 *Fair Value Measurement (Topic 820); Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, the new authoritative guidance to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient and remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. This standard requires retrospective adoption and would be effective for the Plan beginning with the year ended December 31, 2017. The Plan selected early adoption of this standard effective for the year ended December 31, 2016. The implementation of this guidance did not have a material impact on the Plan's financial statements.

In July 2015, FASB issued ASU 2015-12 *Plan Accounting; Defined Contribution Pension Plans (Topic 962)*, the new authoritative guidance to reduce complexity in employee benefit plan accounting. This standard requires retrospective adoption and will be effective for the Plan beginning with the year ended December 31, 2016. The guidance requires all fully-benefit responsive investment contracts to be measured, presented and disclosed at contract value. The guidance also eliminated some required investment disclosures including; disclosure of individual investments that represent 5% or more of net assets available for benefits, disclosure of net appreciation or depreciation for investments by general type, and disclosure of disaggregated investments information in multiple formats. The implementation of this guidance did not have a material impact on the Plan's financial statements.

2. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note D for discussion of fair value measurements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

3. Notes Receivable from Participant

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

4. Payment of Benefits

Benefits are recorded when paid. A participant elected to withdraw $ 10,595 from the Plan, but as of December 31, 2017 the amount had not been paid and that unpaid amount is reported as investments.

5. Subsequent Events

The Plan assessed events that have occurred subsequent to December 31, 2017 through July 25, 2018, the date the financial statements were available to be issued, for potential recognition and disclosure in the financial statements. No events have occurred that would require adjustment to or disclosure in the financial statements.

6. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520-103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by The Charles Schwab Trust Company (the Custodian), except for comparing such certified information as complete and accurate by the Custodian to information included in the Plan's financial statements and supplementary information.

	2017	2016
Investments at fair value	$ 17,962,643	$ 15,824,551
Notes receivable from participants	336,582	380,126
Investment income (loss) for the year ended December 31		
Net appreciation (depreciation) in fair value of Investments, interest and dividends	2,494,466	936,584

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan as the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Level 2 - Continued

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liabity.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Common/Collective Trust

A stable value fund that is composed primarily of fully-benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair values as of December 31, 2017 and 2016.

	Total	Level 1	Level 2	Level 3
December 31, 2017				
Mutual funds	$ 15,375,423	$ 15,375,423	$ -	$ -
Investments measured at net asset value (a)	2,587,220	-	-	-
Investments at fair value	$ 17,962,643	$ 15,375,423	$ -	$ -
December 31, 2016				
Mutual funds	$ 12,261,210	$ 12,261,210	$ -	$ -
Investments measured at net asset value (a)	3,563,341	-	-	-
Investments at fair value	$ 15,824,551	$ 12,261,210	$ -	$ -

NOTE D - FAIR VALUE MEASUREMENTS - Continued

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified by level in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

For the years ended December 31, 2017 and 2016, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
December 31, 2017				
Stable value collective trust fund	$ 2,587,220	N/A	Daily	12 Months

NOTE F - PARTY-IN-INTEREST AND RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by The Charles Schwab Trust Company. The Charles Schwab Trust Company is the Plan custodian. Additionally, the Company provides certain administrative services at no cost to the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

NOTE G - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Plan related Trusts are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the initial determination, the Plan's administration believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

The Plan follows accounting principles generally accepted in the United States of America related to the accounting for uncertainty in income taxes which sets a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Tax positions for the open tax years as of December 31, 2017, were reviewed, and it was determined that no provision for uncertain tax positions is required.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
